## INDEPENDENT AUDITOR'S REPORT

---

To the Board of Commissioners  
of Augusta, Georgia  
Augusta, Georgia

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **Augusta, Georgia (the "Government")**, as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise Augusta, Georgia's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Richmond County Department of Health, the Augusta Canal Authority, the Downtown Development Authority, or the Augusta-Richmond County Coliseum Authority, which represents 98%, 119%, and 96%, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Richmond County Department of Health, the Augusta Canal Authority, the Downtown Development Authority, and the Augusta-Richmond County Coliseum Authority, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

---

**Opinions**

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Augusta, Georgia as of December 31, 2012, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of Matter**

As discussed in Note 1 and Note 19, the Government implemented Governmental Accounting Standards Board (GASB) Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, as well as Statement No. 65, *Items Previously Reported as Assets and Liabilities*, as of January 1, 2012. Our opinion is not modified with respect to this matter.

**Other Matters***Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 4 through 15) and the Schedules of Funding Progress on pages 89 and 90 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Augusta, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of special purpose local option sales tax proceeds, as required by the Official Code of Georgia 48-8-21, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

We have previously audited the Government's December 31, 2011 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information in our report dated June 28, 2012. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2012, is consistent, in all material respects, with the audited financial statements from which it has been derived.

---

The combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of special purpose local option sales tax proceeds is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of special purpose local option sales tax proceeds is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of Augusta, Georgia as of and for the year ended December 31, 2011 (not presented herein), and have issued our report thereon dated June 28, 2012, which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information. The combining and individual nonmajor fund financial statements and schedules for the year ended December 31, 2011 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2011 financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the 2011 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended December 31, 2011.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2013, on our consideration of Augusta, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Augusta, Georgia's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

The Management's Discussion and Analysis of the Annual Financial Statements of Augusta, Georgia (the "Government") provides an overall narrative and analysis of the Government's financial statements for the fiscal year ended December 31, 2012. This discussion and analysis is designed to look at the Government's financial performance as a whole.

### Financial Highlights

Key financial highlights for the year ended December 31, 2012 are as follows:

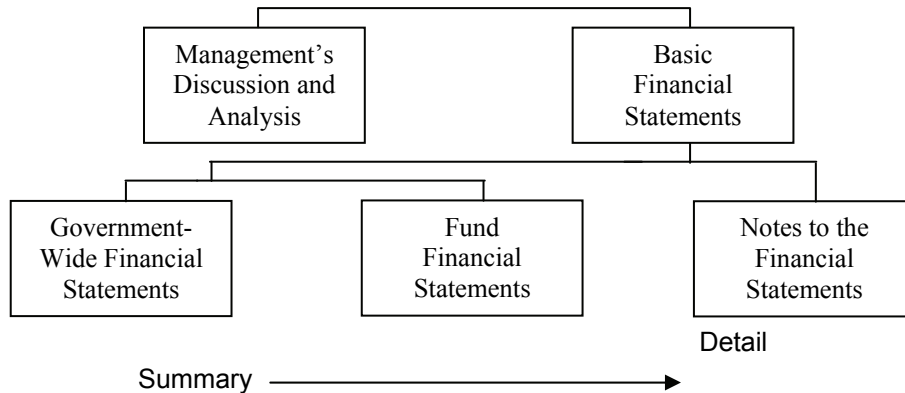

- The Government's combined net position totaled \$940.6 million.
- The Government's total net position increased by \$32.9 million, primarily due to capital spending funded by the Special Purpose Local Option Sales Tax revenues, federal aviation grants, and other tax revenues.
- As of the close of the current fiscal year, the Government's governmental funds reported combined ending fund balances of \$215.4 million, a decrease of \$19.4 million from the prior year. Approximately 11% of this total amount, or \$23.7 million, is available for spending at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, total fund balance for the General Fund was \$32 million, or 24.5% of total General Fund expenditures for the fiscal year. Of this amount, \$3 million is nonspendable fund balance associated with prepaid expenditures, advances to other funds and inventory, \$4.7 million has been assigned for other purposes, leaving \$24.3 million, or 75.8% of total General Fund balance, as unassigned.
- Combined Revenue totaled \$380.6 million, of which governmental activities totaled \$225 million and business-type activities totaled \$155.7 million. Current year revenues increased approximately .2% from those of the prior year.
- Overall expenses totaled \$347.7 million of which governmental activities totaled \$205.2 million and business-type activities totaled \$142.5 million. Current year expenses increased approximately 3.2% over those of the prior year.
- Expenses of governmental activities exceeded program revenue by \$156 million, resulting in the use of general revenues (mostly taxes).
- Total Outstanding Long-Term Debt, excluding compensated absences, increased approximately \$37.8 million.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

## Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Government's basic financial statements. The basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The basic financial statements present two different views of the Government through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Government.

### Required Components of Annual Financial Report

## Basic Financial Statements

The first two statements in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the Government's financial status.

The next statements are the **Fund Financial Statements**. These statements focus on the activities of the individual parts of Augusta, Georgia's government. These statements provide more detail than the government-wide statements. There are four parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; 3) the proprietary fund statements; and 4) the fiduciary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Government's non-major governmental funds and internal service funds, all of which are added together in one column on the appropriate basic financial statements.

## Government-wide Financial Statements

The government-wide financial statements provide a broad view of the Government's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the Government's financial position, which assists in assessing the economic condition at the end of the fiscal year. These statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. This means the statements take into account all revenues and expenses connected with the fiscal year even if cash involved has not been received or paid. The government-wide financial statements include the following two statements:

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

The **Statement of Net Position** presents information on all of the Government's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Government is improving or deteriorating.

The **Statement of Activities** presents information showing how the Government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). This statement also presents a comparison between direct expense and program revenues for each function of the Government.

The government-wide statements are divided into three categories: 1) governmental activities, 2) business-type activities and 3) component units. The governmental activities include most of the Government's basic services such as general administration, judicial services, public safety, public works, health and welfare, culture and recreation, and housing and development. Property taxes and state and federal grant funds finance most of these activities. The business-type activities are those services that the Government charges a fee to customers in order to provide. These include Water and Sewer, Augusta Regional Airport, Waste Management, Municipal Golf Course, Transit, Daniel Field Airport, and Garbage Collection. The final category is component units. The Augusta-Richmond County Board of Health is a public health department. Although legally separate from the Government, the Government appoints a voting majority of the board. Augusta Canal Authority, Downtown Development Authority, Urban Redevelopment Agency and the Richmond County Coliseum Authority are also component units for which the Government is fiscally responsible.

### Fund Financial Statements

A Fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Government, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The fund financial statements focus on individual parts of the Government, reporting the Government's operations in more detail than the government-wide statements. All of the funds of the Government can be divided into three categories: governmental funds, proprietary funds and fiduciary funds. These fund categories use different accounting approaches and should be interpreted differently.

### *Governmental Funds*

Most of the basic services provided by the Government are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as government activities in the government-wide financial statements. However, unlike the government-wide statements, these funds focus on how assets can readily be converted into cash and the amount of funds left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting*, which focuses on current financial resources. Such information may be useful in evaluating the government's short-term financing requirements. These statements provide a detailed short-term view of the Government's finances that assists in determining whether there will be adequate financial resources available to meet the Government's current needs. The relationship between government activities in the government-wide financial statements and the governmental funds financial statements is described in a reconciliation that is a part of the fund financial statements.

The Government has five governmental fund types: the General Fund, Special Revenue Funds, Debt Service Funds, the Capital Projects Funds, and the Permanent Fund. Only two individual funds are being considered major funds – the General Fund and Special Purposes Local Option Sales Tax Fund (SPLOST) Phase VI.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### *Proprietary Funds*

The Government has two types of proprietary funds used to account for activities that operate similar to commercial enterprises found in the private sector. Funds that charge fees for services provided to outside customers including other local governments are known as Enterprise Funds. These funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Funds that charge fees for services provided to departments within the reporting government are known as Internal Service Funds. Proprietary funds use the accrual basis of accounting, thus there is no reconciliation needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements, except for the allocation of internal service fund activity.

The Government has seven enterprise funds: Water and Sewer, Augusta Regional Airport, Waste Management, Municipal Golf Course, Transit, Daniel Field Airport, and Garbage Collection. The Government also has seven internal service funds: Risk Management, Fleet Operations, Workers' Compensation, Employee Health Benefits, Unemployment, Long-Term Disability Insurance and GMA Leases. The Water and Sewerage Fund and Augusta Regional Airport are the only funds being considered major funds for presentation purposes.

### *Fiduciary Funds*

The Fiduciary Funds are used to account for assets held by the Government as an agent for individuals, private organizations, other governments and other departments. The Government is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and only by those to whom the assets belong. These funds are not reflected in the government-wide financial statements because the resources are not available to support the Government's operations or programs.

### **Government-wide Financial Analysis**

Comparative data for the entity-wide governmental activities and the business-type activities is provided on the following page.

### Net Position

Net position may serve over time as one useful indicator of a government's financial condition. The assets of the Government exceeded liabilities by \$940.6 million as of December 31, 2012.

The largest portion of the Government's net position, \$627.8 million or 66.7%, reflects its investment in capital assets such as land, buildings, equipment and infrastructure (road, bridges, sidewalks, water lines and sewer lines) less any related debt used to acquire those assets that is still outstanding. The Government uses these capital assets to provide services to its citizens; therefore, these assets are not available for future spending. Although the Government's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Government's net position, \$215.5 million or 22.9% represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position, \$97.3 million or 10.4%, may be used to meet the Government's ongoing obligations to citizens and creditors.

Several particular aspects of the Government's financial operations positively influenced the total *unrestricted governmental net position*:

- Continued diligence in the maintenance of 75 -90 days unreserved fund balance in the General Fund.
- Continued diligence in the collection of property taxes by maintaining a collection percentage of 99% for real and personal property.
- Continued low cost of debt due to the Government's high bond rating.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### Changes in Net Position

**Governmental activities.** Governmental activities increased the Government's net position by \$15 million, and thereby accounting for 43.8% of the total growth in the net position of the Government. Key elements of this increase are as follows:

**Governmental Revenues.** Property tax (25.6%) and other taxes (52.2%) continue as the main source of revenue of the Government amounting to 77.8% in 2012, compared to 74.6% in 2011. Sales tax revenues contributed approximately \$74.5 million to the increase in net position.

**Governmental Functional Expenses:** As reflected in the summary of Changes in Net Position, the Government expended 56.8% of the appropriations for judicial and public safety expenditures. The Government continues to commit substantial financial resources for the safety of its citizens. Other expenditures accounted for the remaining 43.2%

**Business-type activities:** Business-type activities increased the Government's net position by approximately \$17.9 million accounting for 54.3% of the total growth in the government's net position. Key elements of this increase are as follows:

- The Waste Management Fund reported an increase in net position of \$3.2 million. This increase was due to maintaining volumes similar to 2011 volumes. The increase in volumes was stemmed from a volume based discount issued in 2004. The increase was also due to an increased investment in capital assets specifically an upgrade to the Compressed Natural Gas collection system.
- The Water and Sewer Fund reported an increase in net position of \$12.1 million. This increase was due to, in part, an increase in user charges due to rate increases approved upon issuance of the most recent Water & Sewer Revenue Bonds in 2004 and the receipt of reimbursement from the Department of Defense for projects completed at Fort Gordon.
- The Augusta Regional Airport Fund reported an increase in net position of \$3.5 million. This increase was due to increased investment in capital assets with the completion of capital projects.
- Garbage Collection net position increase of \$2.5 million.

### Financial Analysis of the Government's Individual Funds

Augusta, Georgia uses fund accounting to demonstrate compliance with finance-related legal requirements.

### Governmental Funds

The focus of the Government's governmental funds is to provide information on near-term inflows, outflows and balances of usable resources. Such information is useful in assessing the Government's financial requirements. In particular, the unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The combined fund balance of all the governmental funds is \$215.4 million, of which \$23.7 million, or 11%, is unassigned.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### General Fund

The General Fund is the primary operating fund of the Government. At the end of the current fiscal year, total fund balance of the General Fund was \$32 million, of which \$24.3 million or 75.8% was unassigned. A portion of the unassigned fund balance in the General Fund is designated for risk benefit, in the amount of \$4.7 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance to total fund expenditures. As of December 31, 2012, total unassigned fund balance, represents 18.6% of total general fund expenditures.

The fund balance of the General Fund decreased by \$3.1 million (8.7%) Key factors to this result include cost reduction measures that were implemented and observed throughout the year. This decrease in fund balance represents 2.21% of the 2012 budget. The use of fund balance in 2012 was anticipated and the projected use of fund balance was budgeted at \$6 million.

### General Fund Budgetary Highlights

During the year, the Government revised the budget on several occasions. Generally, budget amendments fall into one of five categories: 1) amendments to appropriate fund balance for encumbrances from the prior year; 2) amendments made to adjust the estimates that are used to prepare the original budget resolution once exact information is available; 3) amendments made to recognize new funding amounts from external sources, such as Federal and state grants; 4) increases in appropriations that become necessary to maintain services; and 5) amendments to transfer appropriations between departments. The fifth category has no effect on the final budget and, therefore, is not addressed in this narrative.

The actual operating revenues for the General Fund were less than the budgeted amount by \$10.2 million or 8/2%. The individual sources within the revenues fluctuated both positively and negatively. No individual source materially varied from the final budget.

The 2012 adopted budget (November 15, 2011) projected Ad Valorem tax revenues remain at 2011 levels with no projected growth in the tax digest and a 4% increase in sales tax revenues. As the economy continued the slow recovery, the Augusta Commission was unwilling to considering a tax increase and approved significant expenditure reduction and use of \$6 million in fund balance to fund a budgeted deficit. In August 2012, the Augusta Commission voted to increase the 2012 mill rate by .01 mills to the roll back rate levels.

### Capital Projects Funds

The Government uses Capital Projects Funds to account for the acquisition and construction of major capital facilities that are not financed by Proprietary Funds. Major funds included in the fund financial statements are the SPLOST Fund Phase VI. The proceeds of the special purpose 1% sales tax are accounted for in Capital Projects Funds until improvement projects are completed. The SPLOST Fund Phase VI's fund balance is \$75.5 million, all of which is held for specific construction and improvement projects and capital acquisitions.

### Proprietary Funds

The activities of the Government that render services to the general public on a user charge basis, or that require periodic determination of revenues for public policy are accounted for as Enterprise Funds. The Government's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net positions at the end of the year were as follows: Water and Sewer System Fund, \$38.2 million; Augusta Regional Airport, \$3.2 million; Nonmajor Enterprise funds, \$15.5 million. The total growth in net position for previously mentioned funds were \$12.1 million, \$3.5 million and \$2.3 million, respectively. Other factors concerning the finances of these funds have already been addressed in the discussion of the Government's business-type activities.

### Capital Assets and Debt Administration

#### Capital Assets

The Government's investment in capital assets for its governmental and business-type activities as of December 31, 2012 amounts to \$1.2 billion (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, equipment, infrastructure and construction in progress. Infrastructure assets are items that are normally immovable and of value only to the Government, such as roads, bridges, streets and sidewalks, drainage systems and other similar items.

Major capital asset transactions during the year included construction of infrastructure, buildings, acquisition of public safety vehicles, construction of water and sewerage systems, and construction of a new airport terminal and building.

Additional information on the Government's capital assets can be found in Note 6 of the notes to the financial statements of this report.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### Long-Term Debt

As of December 31, 2012 the Government had a total of \$698.5 million in outstanding long-term debt. Of this amount, \$494.8 million consists of revenue bonds backed by the revenues of the water and sewer system, waste management system and the regional airport.

The Government bond rating was upgraded from A1 by Moody's Investor Service to Aa2 in June 2010, this bond rating was also confirmed by Fitch Rating Service. The bond ratings are clear indications of the sound financial condition of the Government. The high ratings are a primary factor in keeping interest costs low on the Government's outstanding debt.

The State of Georgia limits the amount of general obligation debt that a unit of government can issue to 10 percent of the total assessed value of taxable property located within that government's boundaries. The legal debt margin for the Government is \$465 million based on the 2012 County-wide bond digest of \$4.65 billion.

Additional information regarding the Government's long-term debt can be found in Note 7 of the notes to the financial statements of this report.

### Economic Factors and Next Year's Budget and Rates

The following key economic indicators reflect the continued stability of the Government.

- There is a budgeted use of existing fund balance in the 2013 adopted budget, and a slight increase of the county wide millage rate.
- Two companies announced the construction of manufacturing facilities in Augusta:
  - Rockwood Pigments - \$120 million investment
  - Starbucks Coffee, Inc - \$172 million investment
- The downtown area has within a one mile radius the following capital projects under construction:
  - The Government backed project
    - Convention Center - \$38 Million
    - Reynolds Street Parking Deck - \$10 Million
- The Government has received the following national and state rankings
  - US News & World Reports: Best Places to retire for under \$40,000
  - Technology Works: One of top 26 metros for high-tech employment growth
  - Digital Journal: Ranked fourth in the top places to live in the US.
  - Association of County Commissioners of Georgia – County of Excellence award
- The Government has an unemployment rate of 10.4 %, higher than the state average of 9.0%.
- The 2012 tax digest increased by 2.62%.
- In 2012, the monthly Local Option Sales Tax collections increased at a rate of .51% over 2011, as compared to other similar governments whose sales tax collection changed at rates of 3.17% to 25.92%.

### Budget Highlights for the Fiscal Year Ending December 31, 2012

Each year, the County's overall goal is to provide essential services to our citizens as cost effectively and professionally as possible. The Augusta Commission works diligently to plan for the future while ensuring current programs and services are working as smoothly as possible. We continually seek to improve. We are pleased that through our fiscal responsibility we are able to maintain our current level of service without an increase in taxes.

**Governmental Activities:** The Ad Valorem Taxes are projected to remain steady at the 2012 level. Other taxes are expected to remain steady. The FY 2013 budget for the general fund is expected to be slightly above the 2012 level due to funding for the operating deficit of the transit department, and the continued rise in the cost of fuel and operating supplies. The general economic climate for the city government of 2013 is expected to be stable. The undesignated fund balance should decrease slightly by \$3.2 million due budgeted use of fund balance to balance the General fund instead of increasing the county's millage rate.

**Business – type Activities:** Overall Water and Sewer revenue is projected to increase by more than 3% due to the increased rates.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2012**

---

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds.	\$ (19,418,575)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	36,488,104
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net position.	40,556
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	438,328
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	1,653,313
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(4,302,140)
Internal service funds are used by management to charge the cost of fleet management, insurance, and participation in the Georgia Municipal Association Certificates of Participation program to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.	<u>129,944</u>
Change in net position of governmental activities	<u>\$ 15,029,530</u>

## AUGUSTA, GEORGIA

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2012

---

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Augusta, Georgia (the "Government") is located in the east central section of the state on the south bank of the Savannah River, which serves as the boundary between Georgia and South Carolina. Augusta is on the fall line and has a landscape dotted with foothills which descend to the coastal plain. Augusta is the head of the navigation on the Savannah River and is 135 miles east of Atlanta, 127 miles northwest of the port of Savannah, and 72 miles southwest of Columbia, South Carolina. Augusta is the trade center for 13 counties in Georgia and five in South Carolina, a section known as the Central Savannah River Area.

The Government was created by legislative act in the State of Georgia in 1995 from the unification of the two governments, the City of Augusta, Georgia and Richmond County, Georgia. On June 20, 1995, the citizens of Richmond County and the City of Augusta voted to consolidate into one government named Augusta, Georgia. The officials for the new government were elected and, based on the charter, took office on January 1, 1996. The unified government combined all functions and began financial operations January 1, 1996.

The Government is governed by a full-time Mayor, with a term of four years, and a 10-member Commission, who serve on a part-time basis and are elected to staggered terms of four years. The Mayor and Commission appoint an Administrator who serves as a full-time administrative officer and is responsible for the daily operations of the Government.

The financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Government's accounting policies are described below.

#### A. Reporting Entity

As required by generally accepted accounting principles, these financial statements present Augusta, Georgia and its component units. The component units discussed below are included in the Government's reporting entity because of the significance of their operational or financial relationship with the Government.

##### **Discretely Presented Component Units**

The **Richmond County Department of Health (RCDH)** was established pursuant to an act of the General Assembly of the State of Georgia in 1955. The RCDH is governed by a 12-member board consisting of one member of the Augusta-Richmond County Commission. The Government provides financial support to the RCDH and appoints a majority of the members. The RCDH has a June 30 year-end. Separate financial statements for the RCDH can be obtained from its administrative office at 950 Laney Walker Blvd., Augusta, Georgia 30901.

#### A. Reporting Entity (Continued)

##### Discretely Presented Component Units (Continued)

The **Augusta Canal Authority** (the “Canal Authority”) was established pursuant to an act of the General Assembly of the State of Georgia in 1989. The Canal Authority is governed by a 12-member board. The Government provides financial support to the Canal Authority and appoints a majority of the members. Separate financial statements for the Canal Authority can be obtained from its administrative office at 1450 Greene Street, Suite 400, Augusta, Georgia 30903.

The **Downtown Development Authority** (DDA) was established pursuant to the Downtown Development Authority Law (O.C.G.A. section 36-42-1, et seq. as amended with the power and authority to issue interest-bearing revenue bonds in accordance with the applicable provisions of the Revenue Bond Law of the State of Georgia O.C.G.A. Sections 38-82-60 through 38-82-85). The DDA is governed by a seven-member board consisting of one member of the Augusta-Richmond County Commission. The Government provides financial support to the DDA and appoints a majority of the members. Separate financial statements for the DDA can be obtained from its administrative office at 936 Broad Street, Suite 107, Augusta, Georgia 30901.

The **Urban Redevelopment Authority** (URA) was established pursuant to a resolution adopted by the Augusta-Richmond County Commission April 1, 2010, activating the URA in accordance with the O.C.G.A Chapter 61 Title 36; Section 36-61-17(b), “Urban Redevelopment Law”. The URA is governed by a five-member board. The Government appoints a majority of the members and the URA is fiscally dependent on the Government. Separate financial statements for the URA are not prepared.

The **Augusta-Richmond County Coliseum Authority** (the “Coliseum Authority”) was established pursuant to an act of the General Assembly of the State of Georgia in 1973. The Coliseum Authority is governed by a seven-member board. The Government appoints a majority of the members and the Coliseum Authority is fiscally dependent on the Government. The Coliseum Authority has a June 30 year-end. Separate financial statements for the Coliseum Authority can be obtained from the Civic Center, 601 Seventh St., Augusta, Georgia 30901.

##### Blended Component Units

The **Augusta Port Authority** (Port Authority) was established pursuant to an act of the General Assembly of the State of Georgia in 1959. The Port Authority provides services exclusively to the Government. The mission of the Port Authority is to manage the resources and assets of the Savannah River and adjacent riverfront, to encourage and promote riverfront development, recreation, and tourism in the City of Augusta by way of economic development activities, events and special programs. The Port Authority is governed by a 12-member board. The Government provides financial support to the Port Authority and appoints a majority of the members. Separate financial statements of the Port Authority are not prepared.

##### Blended Component Units (Continued)

**Richmond County Public Facilities, Inc.** is a nonprofit organization, tax exempt under Internal Revenue Code Section 501(c)(3). The purpose of this organization is to construct and maintain buildings and equipment to be leased by the Government, the Department of Family and Children Services, and the Richmond County Board of Education. Richmond County Public Facilities, Inc. is part of the reporting entity of Augusta, Georgia, due to the services provided being exclusively to the Government.

Richmond County Public Facilities, Inc. issued Certificates of Participation to provide funds for the Government to refund the 1990 Certificates of Participation issue and for certain capital projects. The related assets are included in the financial statements of the Government as part of governmental activities. The Certificates of Participation were retired during 2001.

Separate financial statements for Richmond County Public Facilities, Inc. can be obtained from Augusta, Georgia, Finance Department, 530 Greene Street, Augusta, Georgia 30901.

#### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and the fiduciary fund financial statements, although the agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial* resources measurement focus and the *modified accrual* basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, licenses, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period, if available criteria are met. All other revenue items are considered to be measurable and available only when cash is received by the Government.

The Government reports the following major governmental funds:

The **General Fund** is the Government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Special Sales Tax Phase VI Fund** accounts for the receipts and disbursements of the one percent (1%) sales tax approved by the taxpayers on June 16, 2009. Collections began January 1, 2011. The City of Augusta bonded \$30.5 million in 2009 and \$22 million in 2010 of the estimated \$184.7 million SPLOST. The revenue sources are sales tax and earned interest and expenditures will be primarily for the following: \$10 million dollars was returned to the general fund as a reimbursement for the one time use of general fund balance for the purchase and demolition of the Gilbert Manor Housing projects by the Medical College of Georgia for the expansion of MCG's dental school; \$18 million for renovations to the municipal building; \$17 million to replace emergency services vehicles; and \$10.9 million to parks and recreation. Of the estimated \$184.7 million dollars, \$124 million will go towards infrastructure and \$60.7 million will go towards non infrastructure projects.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

The Government reports the following major business-type funds:

The ***Water and Sewer System Fund*** is used to account for the activity of providing water and sewer services to the residents of the Government. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, operations, maintenance, financing and related debt service, and billing and collection.

The ***Augusta Regional Airport at Bush Field Fund*** accounts for the operations of Augusta Regional Airport at Bush Field, the only airport within the County from which service from the major airlines is available.

Additionally, the Government reports the following fund types:

The ***special revenue funds*** account for revenue sources that are legally restricted to expenditure for specific purposes.

The ***capital project funds*** are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The ***permanent fund*** accounts for the principal originally donated for the sale of perpetual care contracts at government-owned cemeteries after October 1, 1970. The principal must be maintained intact and invested.

The ***agency funds*** are used to account for the collection and disbursement of monies by the Government on behalf of other governments and individuals, such as cash bonds, traffic fines, support payments and ad valorem and property taxes.

The ***pension trust funds*** account for all activities of the Government's employees' pension plans.

The ***private purpose trust fund*** accounts for resources legally held in trust to finance awards for children attending Joseph R. Lamar School. The principal amount of the gift is to be maintained intact and invested. Investment earnings are used for the awards.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services provided. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### D. Cash and Cash Equivalents

The Government maintains a cash and investment pool in which the General Fund and all funds share. Each fund's portion of the pool is displayed on its respective balance sheet as cash and cash equivalents and includes non-pooled cash and investments separately held. Funds which have an excess of outstanding checks over bank balance have had these balances reclassified as a due to the General Fund for purposes of financial statement presentation. Interest income is allocated to each fund monthly based on its average monthly balance.

For the purposes of financial statement presentation, the Government considers all highly liquid investments (including funds held by the State Treasurer in the Georgia Fund 1 and restricted funds) purchased with an original maturity of three months or less, or with insignificant early withdrawal penalties, to be cash equivalents. Exceptions include the Government's pension plans which classify only cash as cash equivalents in order to appropriately report investment activity. Cash equivalents include amounts in certificates of deposit, repurchase agreements, and U.S. Treasury bills, and are stated at cost which approximates market. All deposits are stated at cost plus accrued interest, which reasonably estimates fair value.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Cash and Cash Equivalents (Continued)

The state statutes authorize the Government to invest in obligations of the United States government and agencies thereof, general obligations of the State of Georgia or any of its political subdivisions, or banks and savings and loan associations to the extent that they are secured by the Federal Deposit Insurance Corporation. Additionally, the Government does not consider investments maintained in the Georgia Extended Asset Pool (GEAP) to be cash equivalents due to the nature of the investments and their maturities.

#### E. Investments

Statutes authorize the Government to invest in U.S. Government obligations, U.S. Government agency obligations, State of Georgia obligations, and the Local Government Investment Pool of the State of Georgia (Georgia Fund 1). GEAP was created under the OCGA 36-83-8, but investments are restricted to those enumerated by OCGA 50-5A-7 and Chapter 17 of Title 50. GEAP is managed by the State of Georgia as a variable net asset value fund. GEAP is available to all public entities that have a minimum of \$1,000,000 in funds available for investment for a period of one (1) year or longer. The value of an investment in GEAP will fluctuate over time, and it is possible to lose money by investing in the fund. Investments in this fund are not guaranteed or insured by any bank, the FDIC, the State of Georgia or any other government agency.

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair values.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### E. Investments (Continued)

In accordance with Official Code of Georgia Annotated Public Retirement System Investment Authority Law, Public Retirement Systems may invest in 1) United States or Canadian corporations or their obligations, with limits as to the corporations' size and credit rating; 2) Repurchase and reverse repurchase agreements for direct obligations of the United States government and for obligations unconditionally guaranteed by agencies; 3) FDIC insured cash assets or deposits; 4) Bonds, notes, warrants, loans or other debt issued or guaranteed by the United States government; 5) Taxable bonds, notes, warrants or other securities issued and guaranteed by any state, the District of Columbia, Canada or any province in Canada; 6) Bonds, debentures, or other securities issued or insured or guaranteed by an agency, authority, unit, or corporate body created by the government of the United States of America; 7) Investment grade collateralized mortgage obligations; 8) Obligations issued, assumed or guaranteed by the International Bank for Reconstruction and Development or the International Financial Corporation; 9) Bonds, debentures, notes and other evidence of indebtedness issued, assumed, or guaranteed by any solvent institution existing under the laws of the United States of America or of Canada, or any state or province thereof, which are not in default and are secured to a certain level; 10) Secured and unsecured obligations issued by any solvent institution existing under the laws of the United States of America or of Canada, or any state or province thereof, bearing interest at a fixed rate, with mandatory principal and interest due at a specified time with additional limits; 11) Equipment trust obligations or interests in transportation equipment, wholly or in part within the United States of America, and the right to receive determinate portions or related income; 12) Loans that are secured by pledge or securities eligible for investment; 13) Purchase money mortgages or like securities received upon the sale or exchange of real property acquired; 14) Secured mortgages or mortgage participation, pass-through, conventional pass-through, trust certificate, or other similar securities with restrictions; 15) Land and buildings on such land used or acquired for use as a fund's office for the convenient transaction of its own business with restrictions; 16) Real property and equipment acquired under various circumstances.

Investments in the pension trust funds are reported at fair value. Cash deposits are reported at carrying amount which reasonably estimates fair value.

#### F. Short-Term Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." Advances between funds, as reported in the fund financial statements, are offset by a fund balance nonspendable account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### G. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both governmental-wide and fund financial statements. Prepaid items are accounted for using the consumption method.

#### H. Inventory

Inventory in Proprietary Funds is valued at the lower of cost (first-in, first-out method) or market. Inventory in the General Fund, which is valued at cost (first-in, first-out method) consists of expendable supplies held for consumption. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

#### I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Government as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. General infrastructure assets acquired prior to January 1, 2001, consist of the streets network that were acquired or that received substantial improvements subsequent to January 1, 1980. The streets network is reported at estimated historical cost using deflated replacement cost. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend useful lives are expensed as incurred.

Major outlays for capital assets and major improvements are capitalized as projects are constructed. Interest incurred during the construction period of capital assets is included as part of the capitalized value of the assets constructed. No interest expense was capitalized during the fiscal year ending December 31, 2012.

Depreciation is provided on the straight-line method over the following estimated useful lives:

##### Primary Government

Land and site improvements	30 years
Vehicles	5 years
Furniture and fixtures	7 years
Machinery and equipment	10 years
Buildings and improvements	30 years
Water and Sewer systems	30 - 70 years
Infrastructure	30 years

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### J. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses in the year the debt is issued.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on the issue are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### K. Compensated Absences

The vacation policy of the Government provides for the accumulation of up to 43 days earned vacation leave with such leave being fully vested when earned. For the Government's government-wide financial statements and proprietary fund financial statements, an expense and a liability for compensated absences and the salary-related payments are recorded as leave is earned. The Government has assumed a first-in, first-out method of using accumulated compensated time. The portion of that time that is estimated to be used in the next fiscal year has been designated as a current liability in the government-wide financial statements.

No accrual has been established for accumulated sick leave of employees since it is the Government's policy to record the cost of sick leave only when it is used.

#### L. Deferred Outflows / Inflows of Resources

The Government implemented GASB Statements No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and No. 65, *Items Previously Reported as Assets and Liabilities*, as of January 1, 2012. These new standards establish accounting and financial reporting for deferred outflows / inflows of resources and the concept of net position as the residual of all other elements presented in a statement of net position.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### L. Deferred Outflows / Inflows of Resources (Continued)

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The Government only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide and proprietary fund statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt.

In addition to liabilities, the statement of revenues, expenditures and changes in fund balance will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of fund balance that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Government has two types of items, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. *Unavailable revenue* is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and other receivables, and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. *Effective hedge* is reported in the government-wide and internal service fund statements of net position. The effective hedge results from the change in market value of a swap agreement related to the certificates of participation. The amount is deferred and will mature on June 1, 2028, at the same time as the certificates of participation.

#### M. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as “fund balance.” Fund equity for all other reporting is classified as “net position.”

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### M. Fund Equity (Continued)

**Fund Balance** – Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the Government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- **Nonspendable** – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- **Restricted** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Government or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- **Committed** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Augusta-Richmond Government Commission through the adoption of a resolution. Only the Augusta-Richmond County Commission may modify or rescind the commitment or through resolution.
- **Assigned** – Fund balances are reported as assigned when amounts are constrained by the Government's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the Government has authorized the Administrator and Finance Director to assign fund balances.
- **Unassigned** – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The Government reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balances may be reported in all funds.

**Flow Assumptions** – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Government's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Government's policy to use fund balance in the following order: 1) committed, 2) assigned, and 3) unassigned.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### M. Fund Equity (Continued)

**Net Position** – Net position represents the difference between assets and liabilities in reporting which utilizes the economic resources measurement focus. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the Government has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The Government applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### N. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from these estimates.

### NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

#### A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that “certain long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$81,524,507 difference are as follows:

Accrued interest payable	\$ (580,331)
Bonds payable	(63,110,000)
Unamortized premium on bonds	(3,387,288)
Compensated absences	(5,648,290)
Claims and judgements payable	(7,688,598)
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u>\$ (80,414,507)</u>

## NOTES TO FINANCIAL STATEMENTS

### NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

#### B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense.” The details of this \$36,488,104 difference are as follows:

Capital outlay	\$ 48,024,879
Depreciation expense	(11,536,775)
Net adjustment to increase <i>net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities</i>	\$ 36,488,104

Another element of that reconciliation states that “the net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net position.” The details of this \$40,556 difference are as follows:

Donations of capital assets	\$ 74,270
Disposals of capital assets	(33,714)
Net adjustment to increase <i>net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities</i>	\$ 40,556

Another element of that reconciliation states that “the issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.” The details of this \$1,653,313 difference are as follows:

Amortization of bond premiums	\$ 853,313
Principal payments	
Bonds payable	800,000
Net adjustment to increase <i>net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities</i>	\$ 1,653,313

### NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

#### B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of that reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this \$5,412,140 difference are as follows:

Accrued interest	\$ (227,581)
Compensated absences	(355,969)
Claims and judgements	342,220
Net pension asset	549,668
Net other postemployment benefit liability	<u>(4,610,478)</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities</i>	<u>\$ (4,302,140)</u>

### NOTE 3. LEGAL COMPLIANCE - BUDGETS

#### A. Budgets and Budgetary Accounting

The Government generally follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Budgetary hearings are held in August to discuss departmental budgets.
2. The Administrator presents the tentative budget to the Commission in October.
3. The permanent budget is legally adopted by the Commission prior to the start of the next fiscal year.
4. All budget revisions or changes must be approved as required by Georgia law and administrative policy. Transfer of budgeted amounts within operating categories within departments can be requested by department directors. Transfer of budget amounts involving capital outlay or salaries require approval of the Augusta-Richmond County Commission. The Augusta-Richmond County Commission must approve revisions that alter the total expenditures of any department or fund. Budgets for capital items may be re-appropriated in the ensuing year's budget. Departments may request for other budget items to be re-appropriated in the form of a budget adjustment, contingent of the Commission's approval.
5. Formal budgetary integration is employed as a management control device during the year for the General, Special Revenue, Debt Service and Capital Projects Funds.

### NOTE 3. LEGAL COMPLIANCE – BUDGETS (CONTINUED)

#### A. Budgets and Budgetary Accounting (Continued)

6. Budgets for these funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).

Budget information for expenditures represents the operating budget (as amended) as approved by the Augusta-Richmond County Commission. A budget was not adopted for the Law Library and Wireless Phase Funds due to there being no expenditures during the year ended December 31, 2012.

#### B. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration for the General Fund, Special Revenue Funds, Debt Service and Capital Projects Funds. Encumbrances are recorded when purchase orders are issued but are not considered expenditures until liabilities for payments are incurred. Encumbrances for outstanding purchase orders do not lapse at year end.

#### C. Excess Expenditures Over Appropriations

For the year ended December 31, 2012, the following special revenue funds had excess of actual expenditures over appropriations, which were funded by available fund balance:

	<u>Excess</u>
<b>Urban Services District</b>	
General government	\$ 111,257
<b>Emergency Telephone System</b>	
Public safety	277,707
<b>Hotel/Motel Tax and Promotion/Tourism</b>	
Housing and development	472,039
<b>Building Inspection</b>	
General government	2,273
<b>Drug Court</b>	
Public safety	19,057

### NOTE 4. CASH AND INVESTMENTS (CONTINUED)

**Credit Risk.** State statutes authorize the Government to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

**Interest Rate Risk.** The Government's investment policy states that the Government will structure its portfolio to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities prior to their maturity. The policy also emphasizes the purchase of shorter term or more liquid investments. The policy does not place formal limits on investment maturities.

**Custodial Credit Risk – Deposits.** The Government does not have a formal custodial credit risk policy. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of December 31, 2012, the Government did not have any balances exposed to custodial credit risk as uninsured and uncollateralized as defined by GASB pronouncements.

**Custodial Credit Risk – Investments.** Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State statutes require all investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities.

**Custodial Credit Risk – Deposits – Component Units.** Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the component units will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2012, the Department of Health's bank balance of \$2,882,877 was exposed to custodial credit risk as follows: \$2,073,609 was uninsured and collateralized with securities held by the financial institution. As of December 31, 2012, the DDA and URA did not have any balances exposed to custodial credit risk as uninsured and uncollateralized as defined by GASB pronouncements. As of December 31, 2012, the Canal Authority's bank balance of \$662,569 was exposed to custodial credit risk as follows: \$42,776 was uninsured and uncollateralized; \$619,793 was uninsured and collateralized with securities held by the financial institution, by its trust department or agency, but not in the Canal Authority's name. As of June 30, 2012, the Coliseum Authority's bank balance of \$6,702,764 was exposed to custodial credit risk as follows: \$3,585,611 was insured or collateralized; and \$3,117,153 was uninsured and collateralized with securities held by the financial institution, by its trust department or agency or in the Coliseum Authority's name.

Property taxes attached as an enforceable lien on property as of January 1, 2012. Property taxes were levied on September 7, 2012, and payable on or before November 15, 2012. The Government bills and collects its own property taxes. Property taxes levied for 2012 are recorded as receivables, net of estimated uncollectibles. The net receivables collected during the year ended December 31, 2012, and collected by February 28, 2013, are recognized as revenues in the year ended December 31, 2012. Net receivables estimated to be collected subsequent to February 28, 2013, are recorded as revenue when received. Prior year levies were recorded using substantially the same principles, and remaining receivables are reevaluated annually.

Notes receivable of the primary government consist of the Department of Housing and Urban Development's Housing Rehabilitation Program loans to individuals and owners. Financing has been provided by various federal and state grants.

Descriptions of the bonds issued are provided below.

##### **Revenue Bonds**

In September 2010, the Coliseum Authority issued \$22,120,000 of Augusta-Richmond County Coliseum Authority (Georgia) Revenue Bonds (Coliseum and TEE Center Project), Series 2010 (the "Series 2010 Bonds to (1) finance certain capital improvements to the existing multi-use coliseum and civic center-type facility, the Augusta Entertainment Center Complex, to be owned and operated by the Coliseum Authority pursuant to an Intergovernmental Service Agreement between the Coliseum Authority and the Government, and (2) construct a new multi-use coliseum and civic center-type facility to be known as the Augusta Trade, Exhibition, and Event Center (TEE Center) to be sold by the Coliseum Authority to the Government pursuant to an Agreement of Sale. The Coliseum Authority will use \$5,000,000 of the proceeds from the sales of the Series 2010 Bonds for capital improvements of the Augusta Entertainment Center Complex. The remainder of the proceeds will be used to construct the TEE Center. The Series 2010 Bonds are special limited obligation debt of the Coliseum Authority payable solely from the hotel/motel tax payments made by the Government to the Coliseum Authority under the Intergovernmental Service Agreement and the Agreement of Sale (the Agreements). The Series 2010 Bond debt, its proceeds and the corresponding capital improvements to the Augusta Entertainment Center Complex and the TEE Center construction are reflected on the Government's financial statements. Under the terms of the Agreements, the Coliseum Authority will acquire the TEE Center site and authorize the Government to, on its behalf, construct and install the TEE Center Project and acquire equipment in the name of the Coliseum Authority. The real property and other required property interest for the construction of the improvements has been secured subject to revised deeds and related instruments being prepared based on "as built" surveys. Upon the completion of the surveys, final documents will be prepared and the premises will be conveyed to the Coliseum Authority as required by the Agreements. Upon completion of the TEE Center, the Coliseum Authority will see the TEE Center to the Government for the entire balance of the Series 2010 Bond Obligation.

##### **Certificates of Participation**

In June 1998, the Government entered into a lease pool agreement with the Georgia Municipal Association (the "Association"). The funding of the lease pool was provided by the issuance of \$150,126,000 Certificates of Participation by the Association. The Association passed the net proceeds through to the participating municipalities with the Government's participation totaling \$16,888,000. The lease pool agreement with the Association provides that the Government owns their portion of the assets invested by the pool and is responsible for the payment of their portion of the principal and interest of the Certificates of Participation. The principal is due in a lump sum payment on June 1, 2028. Interest is payable at a rate of 4.75% each year. The Government draws from the investment to lease equipment from the Association. The lease pool agreement requires the Government to make lease payments back into its investment account to fund the principal and interest requirements of the 1998 GMA Certificates of Participation.

As part of the issuance of the certificates of participation, the Government entered into an interest rate swap agreement. Under the Swap Agreement, the Government is required to pay (i) a semiannual (and beginning July 1, 2003, a monthly) floating rate of interest based on the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index (plus a 31 basis points spread) to, or on behalf of, the Swap Counterparty (the "Swap Payment"); and the Swap Counterparty will pay to, or on behalf of, the Government a semi-annual payment based on a rate equal to the fixed rate on the certificates of participation (4.75%) times a notional amount specified in the Swap Agreement, but generally equal to the outstanding unpaid principal portion of such Contract, less the amount originally deposited in the Reserve Fund relating to the Contract, and (ii) a one-time Swap Premium to be paid on the effective date of the Swap Agreement. The semiannual payments from the Swap Counterparty with respect to the Government are structured, and expected, to be sufficient to make all interest payments due under the Contract, and related distributions of interest on the Certificates. Monthly interest payments between the Government, the holders of the Certificates of Participation, and the Swap Counterparty can be made in net settlement form as part of this agreement. Under the Swap Agreement, the Government's obligation to pay floating payments to the Swap Counterparty in any calendar year may not exceed an amount equal to the SIFMA Municipal Swap Index plus 5% to be determined on the first business day of December in the preceding year. This agreement matures on June 1, 2028, at the same time of the certificates of participation. This derivative qualifies as a fair market hedge.

##### **Certificates of Participation (Continued)**

In the unlikely event that the Swap Counterparty becomes insolvent, or fails to make payments as specified in the Swap Agreement, the Government would be exposed to credit risk in the amount of the Swap's fair value. To minimize this risk, the Government executed this agreement with counterparties of appropriate credit strength, with the counterparty being rated Aa3 by Moody's. At December 31, 2012, the floating rate being paid by the Government is 0.44%, and the market value of this agreement is \$5,759,381, an increase of \$30,094 from the market value at the end of the previous fiscal year. The market value of the hedge was determined using settlement prices at the end of the day on December 31, 2012 based on the derivative contract. This market value is reported as an asset in GMA Leases Fund in the statement of net position. As this derivative is an effective hedge, qualifying for hedge accounting, the inflow from the hedge (any change in fair value from inception until fiscal year end) is deferred and reported as deferred inflow of resources in the statement of net position.

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Business-type Activities Debt (Continued)

##### Revenue Bonds (Continued)

Descriptions of the bonds issued are provided below.

During the year ended December 31, 2004, the Government issued revenue bonds in the amount of \$160,000,000. Proceeds of the bonds were used to pay the costs of making additions, extensions and improvements to the water and sewer system. The bonds are limited obligations of the Government and payable solely from the net revenues of the Water and Sewer System. The Series 2004 Bonds are due in annual installment of interest only of \$8,400,000 through October 2032. Principal is due in annual installments beginning October 2033 through October 2039 from \$19,500,000 to \$26,510,000, plus interest of 5.25%.

During the year ended December 31, 2007, the Government issued \$177,010,000 in Series 2007 Water and Sewerage Revenue Bonds. A portion of the proceeds from the sale of these bonds was used to refund all of the former Series 1996 and 1997 Water and Sewerage Revenue Bonds in the amount of \$56,875,000. The remaining portion of the bond proceeds of \$120,135,000 was used to advance refund a portion of the Series 2000 and 2002 Water and Sewerage Revenue Bonds. The current refunding resulted in a difference between the reacquisition price and the net carrying amount of the 1996 and 1997 Bonds of approximately \$4,300,000. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to operations through the year 2030 using the effective-interest method. The refunding decreased the total debt service payments over the next 21 years by approximately \$5,600,000 and produced an economic gain of approximately \$3,700,000. The advance refunding of the 2000 and 2002 Bonds resulted in a difference between the reacquisition price and the net carrying amount of the old debt of approximately \$3,200,000. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to interest expense through the year 2030 using the effective-interest method. The refunding decreased the total debt service payments over the next 23 years by approximately \$7,200,000 and produced an economic gain of approximately \$4,600,000. Proceeds of approximately \$126,793,000 from the defeased issues were used to purchase U.S. Government Securities. Those securities were deposited in an irrevocable trust fund with an escrow agency to provide for all future debt service payments on the above mentioned bonds. The bonds are due in annual installments of \$2,060,000 to \$12,260,000 plus interest at 4.0% to 5.0% through October 2030. The current outstanding amount of the debt was \$167,519,999 as of December 31, 2012.

###### Revenue Bonds (Continued)

During the year ended December 31, 2012, the Government issued \$138,830,000 in Series 2012 Water and Sewerage Revenue Refunding and Improvement Bonds for the purposes of (1) refunding all of the Series 2002 Water and Sewerage Revenue Bonds, (2) financing the costs of making additions, extensions, and improvements to the water and sewer system, (3) funding a debt service reserve account for the 2012 Series Bonds, and (4) financing the costs of issuing the 2012 Series Bonds. The advance refunding of the 2002 series resulted in a difference between the reacquisition price and the net carrying amount of the old debt of approximately \$600,000. The difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to increase expenses through the year 2033 using the effective-interest method. The refunding decreased the total debt service payments over the next 11 years by approximately \$78 million and produced an economic gain of approximately \$40 million. The bonds are due in annual installments of \$4,155,000 to \$20,095,000 plus interest at 3.0% to 5.0% through October 2042.

During the year ended December 31, 2005, the Government issued \$8,990,000 in Series 2005A Airport Passenger Facility Charge and General Revenue Bonds, \$4,415,000 in Series 2005B Airport Passenger Facility Charge and General Revenue Bonds, and \$6,200,000 in Series 2005C Airport General Revenue Bonds. The bonds were issued for the purpose of financing the costs of acquiring constructing, and installing a new airline passenger terminal and certain other capital improvements for the Augusta Regional Airport at Bush Field. The Airport Passenger Facility Charge and General Revenue Bonds Series 2005A and 2005B are payable through 2035 primarily from Passenger Facility Charge No. 99-01-C-AGS approved by the Federal Aviation Administration in 2004. Should the proceeds of the Passenger Facility Charge not be sufficient to pay when due interest and principal on Series 2005A and 2005B bonds, the interest and principal shortfall will be paid from Airport Net General Revenues, derived by the Government from the ownership and operation of the Airport, remaining after the payment of expenses of operating, maintaining, and repairing the Airport ("Net General Revenues"), and (2) those passenger facility charge revenues that are allocable to the 2005 Project ("PFC Revenues"). The Series 2005C Revenue Bonds are payable through 2031 solely from and secured by a first priority pledge or and lien on Net General Revenues only.

The Series 2005A bonds are payable in semi-annually interest only payments of 5.15% beginning July 1, 2005 and principal payable annually beginning January 2031 ranging from \$540,000 to \$2,275,000 through January 1, 2035. The Series 2005B bonds are payable in semi-annually interest only payments of 5.35% beginning July 1, 2005 and principal payable annually beginning January 2025 ranging from \$130,000 to \$1,505,000 through January 1, 2028. The Series 2005C bonds are payable in semi-annually interest only payments of 5.45% beginning July 1, 2005 and principal payable annually beginning January 2028 ranging from \$1,315,000 to \$1,760,000 through January 1, 2031.

Pursuant to the Bond Resolution, the Augusta Regional Airport is subject to meeting certain financial covenants related to the Airport Revenue Bonds. The financial covenants include requirements to (i) provide for 100 percent of the Expenses of Operation and Maintenance and for the accumulation in the Operation and Maintenance Reserve Fund of the Operating Reserve; and (ii) produce Net General Revenues, together with Other Available Moneys, in each fiscal year which will (a) equal at least 125 percent of the Debt Service Requirement on all General Revenue Bonds then outstanding for the sinking fund year ending on the next January 1 and at least 100 percent of the debt service or other amounts payable on all Subordinate Bonds and Other Airport Obligations payable from Net General Revenues then outstanding for the year of computation, (b) enable the Aviation Commission to make all required payments, if any, into the Debt Service Reserve Account, the PFC Debt Service Reserve Account, the Rebate Fund, the Renewal and Replacement Fund and on any Contract or Other Airport Obligation, (c) enable the Aviation Commission to accumulate an amount to be held in the Capital Improvement Fund, which in the judgment of the Aviation Commission is adequate to meet the costs of major renewals, replacements, repairs, additions, betterments, and improvements to the Airport, necessary to keep the same in good operating condition or as is required by any governmental agency having jurisdiction over the Airport, and (d) remedy all deficiencies in required payments from the Revenue Fund from prior fiscal years. As of December 31, 2012 the Airport was in compliance with all covenants.

During the year ended December 31, 2004, the Government issued \$11,475,000 in Series 2004 Solid Waste Management Authority of Augusta Revenue Bonds for the purpose of paying all or a portion of the costs of improving and equipping the Government's municipal solid waste landfill. The bonds are due in annual installments of \$170,000 to \$1,700,000, starting December 1, 2005 through December 1, 2019, plus interest of 3.0% to 4.0% payable semi-annually on June 1 and December 1, beginning December 1, 2004. The Government intends to make its payments under the contract from its portion of the revenues generated by a direct annual ad valorem property tax; however, the Government's portion of the revenue from the taxes is not pledged to such payments or to secure the payment of the bonds.

###### Landfill Postclosure Care Cost

State and Federal laws and regulations require the Government to place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for 30 years after closure. In addition to operating expenses related to current activities of the landfill, an expense provision and related liability are being recognized based on the future closure and postclosure care costs that will be incurred near or after the date the landfill no longer accepts waste. The recognition of these landfill closure and postclosure care costs is based on the amount of the landfill used during the year. The estimated liability for landfill closure and postclosure care costs has a balance of \$17,856,713 as of December 31, 2012, which is based on 95.13% usage (filled) of Cell II C and 5.48% usage (filled) of Cell III, which are operating currently, and 100% usage (filled) of Cells II A and II B. This liability is recorded in the Waste Management Enterprise Fund. It is estimated that an additional \$9,911,843 be recognized as closure and postclosure care expenses between the date of the statement of net position and the date the landfills are expected to be filled to capacity, which is in 2015 and 2173, respectively. The estimated total current cost of the landfill closure and postclosure care, \$27,768,556, is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of December 31, 2012. However, the actual cost of closure and postclosure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

The Government expects to finance the costs for the estimated landfill closure and postclosure care costs as they become due during the coming 30 years through the regular operations of the Government.

##### 1945 Plan

##### Plan Description

The 1945 Plan (the "1945 Plan"), a single-employer defined benefit pension plan, was available to all former Richmond County employees hired prior to October 1, 1975 that met the Plan's age and length of service requirements. Participants in the Plan who retired at or after age 60 are entitled to a monthly benefit equal to 2% of average earnings multiplied by years of service. The Plan provides death and disability benefits. These benefit provisions and all other requirements including amendments are established by Government ordinance. The Plan also provides for reduced benefits if the participant elects to retire after attaining age 50 and completing 15 years of service. This is a closed retirement plan (new employees may not participate in the Plan). The 1945 Plan does not issue a stand-alone financial statement report.

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of the 1945 Plan net position is increasing or decreasing over time relative to the actuarial accrued liability. Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect long-term perspective. Calculations are based on the substantive plan in effect as of January 1, 2013.

#### **Funding Policy**

Employees are required to make contributions to the 1945 Plan equal to 5% of earnings. The Government is required to contribute the remaining amounts necessary to fund the 1945 Plan. If a participant terminates employment prior to completion of 10 years of credited service, the participant receives a lump-sum amount equal to his total contributions to the 1945 Plan, with 5% interest computed from January 1, 1997. After completion of at least 10 years of credited service, the participant receives a monthly benefit deferred to his normal retirement date, equal to the benefit computed as for normal retirement multiplied by the percentage based on completed years of credited service, as follows: 50% after 10 years, increasing 10% each year to 100% after 15 years of credited service.

###### Plan Description

Former City of Augusta employees hired after March 1, 1949 and before March 1, 1987, whose age did not exceed 35 years at the time of their employment and are not participants of the 1977 Plan are covered under the General Retirement Plan, a single-employer defined benefit pension plan. Pension benefits vest after an employee is 45 years of age and has 15 years of full-time employment. An employee may retire at age 60 with 25 years of service and receive annual pension benefits equal to 2% of the employee's average salary earned during the last three years of employment, multiplied by the number of full-time years of employment. The Plan provides death and disability benefits. These benefit provisions and all other requirements including amendments are established by Government ordinance. All full-time employees hired before July 1, 1980 must contribute 8% of gross earnings and employees hired after July 1, 1980 must contribute 5% of gross earnings to the Plan, with the Government contributing remaining amounts sufficient to provide future pensions. This is a closed retirement plan (new employees may not participate in the Plan). The General Retirement Plan does not issue a stand-alone financial statement report.

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of the General Retirement Plan position is increasing or decreasing over time relative to the actuarial accrued liability. Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect long-term perspective. Calculations are based on the substantive plan in effect as of January 1, 2013.

##### **Funding Policy**

Employer contributions for 2012 are determined as part of the January 1, 2012 actuarial valuation using the frozen entry age cost method. The unfunded accrued liability is composed of pieces that are amortized over various periods to comply with Georgia law as a level percentage of payroll. When the actuarial value of assets exceeds 150% of the present value of accrued benefits, the Official Code of Georgia Annotated states that there is no minimum required contribution. The significant actuarial assumptions used to compute pension contribution requirements are the same as those used to determine the standard measure of the pension obligation.

##### Georgia Municipal Employees Benefit System

###### Plan Description

Employees from the City of Augusta hired after March 1, 1987 and before consolidation on December 31, 1996, and who were not participants in any other employer-sponsored retirement plan, and Augusta Canal Authority employees are covered under the Georgia Municipal Employees Benefit System (GMEBS), a multiple-employer defined benefit pension plan. The GMEBS Plan provides pension benefits, deferred allowances, and death and disability benefits. In 2008 this plan was reopened to participants of the 1998 Defined Contribution Plan who opted to convert to the GMEBS Plan. Participation in this plan is mandatory for all new employees. These benefit provisions and all other requirements including amendments are established by Government ordinance. A participant may retire after reaching the age of 65 if the participant is not classified as public safety personnel; participating public safety personnel may retire at age 65 or age 55 with 25 years of total credited service, whichever is earlier. Early retirement may be taken at age 55 with 10 years of credited service. Benefits vest after 10 years of service. Employees who retire at or after age 55 with 10 or more years of service are entitled to pension payments for the remainder of their lives equal to 1 ¼% of their final five-year average salary times the number of years of which they were employed as a participant in the GMEBS. The final five-year average salary is the average salary of the employee during the final five years of full-time employment. Pension provisions include deferred allowances, whereby an employee may terminate his or her employment with the Government after accumulating 10 years of service but before reaching the age of 55. If the employee does not withdraw his or her accumulated contributions, the employee is entitled to all pension benefits upon reaching the age of 55. Employees must contribute 3.5% of their gross earnings to the Plan. In addition, the Government must provide annual contributions sufficient to satisfy the actuarially determined contribution requirements as amended by GMEBS. The GMEBS Retirement Fund issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Georgia Municipal Employees Benefit System, 201 Pryor Street, SW, Atlanta, Georgia 30303.

###### Participant Data

At July 1, 2012, the date of the most recent actuarial valuation, there were 2,473 participants as follows:

###### Funding Policy

The employer contributions for 2012 are determined as part of a July 1, 2011 actuarial valuation using the projected unit credit actuarial cost method. The actuarial value of plan assets are computed with a smoothing method that uses a roll forward of prior year's actuarial value with contributions, disbursements, and expended return of investments, plus 10% of investment gains (losses) during 10 prior years. Normal cost is funded on a current basis. The Plan is subject to the minimum funding standards of the Public Retirement Systems Standards Law. Since the Government's policy is to contribute the pension expense in each year, the funding strategy should provide sufficient resources to pay employee pension benefits on a timely basis. The significant actuarial assumptions used to compute pension contribution requirements are the same as those used to determine the standardized measure of the pension obligation. The plan's unfunded actuarial accrued liability is being amortized over 30 years as a level dollar.

###### Annual Pension Cost

The Government's annual pension cost and net pension obligation for the GMEBS Plan for the current year is as follows:

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### **Policemen's Pension Plan, Firemen's Pension Plan and the City Employees' Pension Plan**

These Plans covered former City of Augusta employees. Policemen and firemen hired before 1945 are covered under the General Pension Plan. Policemen hired between 1945 and 1949 are covered under the Policemen's Pension Plan. Firemen hired between 1945 and 1949 are covered under the Firemen's Pension Plan. Other former City of Augusta employees hired between 1945 and 1949 are covered by the City Employees' Pension Plan. Pension benefits are being paid under these Plans to retired employees and beneficiaries. These are closed retirement plans (new employees may not participate in the plans). During the year ended December 31, 2012, the Policemen's Pension Plan has one participant with Government contributions of \$26,730; the Firemen's Pension Plan has two participants with Government contributions of \$56,452; and the City Employees' Pension Plan has six participants with Government contributions of \$230,642. These plans do not issue stand-alone financial statement reports.

##### **Retirement Savings Plan (the "1998 Plan")**

All full-time employees with more than one month of service and Canal Authority employees were eligible to participate in the Retirement Savings Plan. The 1998 Plan is a defined contribution plan under Section 401(a) of the Internal Revenue Code, and is administered by Nationwide Life Insurance, PPA support. The Plan was organized and may be amended by a majority vote of the full-body of the governing board, the Augusta-Richmond County Commission. Employees contribute four percent (4%) of their salary, and the Government contributes two percent (2%) of the employee's salary. Contribution requirements may be amended by a majority vote of the full-body of the governing board, the Augusta-Richmond County Commission. At December 31, 2012, there were approximately 176 plan participants. Participants are considered fully vested in the Government's contributions after completing five (5) years of service. For the year ended December 31, 2012, the employees' contributions were \$339,428, and the Government's contributions were \$169,680. This is a closed retirement plan (new employees may not participate in the Plan).

#### B. Component Unit

##### **Richmond County Department of Health**

All current full-time employees of the Department of Health participate in the Employees' Retirement System of Georgia (ERS), which is a cost-sharing multi-employer, defined benefit, public employee retirement system. The Department contributes at a specified percentage of active members payroll determined by actuarial valuation. The contribution requirements of plan members and the Department are established and may be amended by the ERS Board of Trustees. Retirement contributions made on behalf of eligible participants for the year ended June 30, 2012 were \$564,917. Members become fully vested after 10 years of service.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 10. OTHER POSTEMPLOYMENT BENEFITS

#### Plan Description

The Government maintains the Augusta-Richmond County Other Post-Employment Benefit Plan (the "OPEB Plan"), a single employer post-employment defined benefit plan. The OPEB plan provides medical and death benefits to eligible retirees and their spouses. Separate publicly available financial statements are not issued for the OPEB Plan.

#### Funding Policy

The Government intends to continue to fund the OPEB Plan on a pay-as-you-go basis. The OPEB Plan is fully funded by the Government and plan members are not required to contribute. Contribution requirements may be amended by a majority vote of the full-body of the Augusta-Richmond County Commission.

#### Participant Data

At December 1, 2012, the date of the most recent actuarial valuation, there were 2,363 participants as follows:

Active employees	1,807
Retired participants receiving benefits	556
Total membership	2,363

#### Annual OPEB Cost and Net OPEB Obligation

The Government contributed \$2,983,359 to the OPEB Plan for the year ended December 31, 2012. The Government's annual other post-retirement benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The Government's annual pension cost and net OPEB obligation for the OPEB Plan for the current year is as follows:

	December 31, 2012
Annual required employer contribution	\$ 7,938,396
Interest on net OPEB obligation	1,372,681
Adjustment to annual required contribution	(1,717,240)
Annual OPEB cost	7,593,837

Annual health care cost trend rate	8.00% initially, reduced by decrements to an ultimate rate of 5.00% after three years

## NOTES TO FINANCIAL STATEMENTS

### NOTE 11. RISK MANAGEMENT

The Government is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Government purchases commercial insurance to cover employee life, health, property and liability, and disability insurance programs.

There were no significant reductions of insurance coverage compared to the prior year. Settled claims in the past three years have not exceeded the coverages.

The Government records an estimated liability for indemnity workers' compensation claims against the Government. Claim liabilities are based on estimates of the ultimate cost of reported claims (including future claim adjustment expenses). Claims liabilities include specific, incremental claim adjustment expenses and allocated loss adjustment expenses. Because all workers' compensation claims are expected to be settled within one year, the related unpaid claims liability is not discounted and the entire liability is classified as current. Activity is accounted for in the General Fund.

Changes in the balances of claims liabilities during the last two years ended December 31, are as follows:

	<u>December 31, 2012</u>	<u>December 31, 2011</u>
Unpaid claims, beginning of fiscal year	\$ 6,370,818	\$ 4,462,635
Incurred claims and changes in estimates	2,924,640	3,927,382
Claim payments	<u>(2,156,860)</u>	<u>(2,019,199)</u>
Unpaid claims, end of fiscal year	<u>\$ 7,138,598</u>	<u>\$ 6,370,818</u>

The \$7,138,598 noted above along with an additional \$550,000 in litigation claims payable as discussed in Note 12 are reported in the Government's Statement of Net Position. Total accrued claims and judgments liability amounts to \$7,688,598 as of December 31.

### NOTE 12. COMMITMENTS AND CONTINGENCIES

#### Litigation

The Government is involved in several pending lawsuits. The nature of the lawsuits varies considerably. Management and the Government's legal counsel have determined an aggregate liability, which is reasonably possible to arise from the proceedings of up to \$1,300,000. A total of \$550,000 of this amount is believed by management and legal counsel to be probable and is recorded as claims and judgments payable on the government-wide statement of net position as of December 31, 2012. The Government will continue to assert its position in a defense against these claims.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 12. COMMITMENTS AND CONTINGENCIES (CONTINUED)

#### Contractual Commitments

At December 31, 2012, in addition to the liabilities enumerated on the balance sheet, the Government also had contractual commitments on uncompleted construction contracts in the amount of approximately \$16,070,607 for the completion of various projects.

#### Grant Contingencies

The Government has received Federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, Government management believes such disallowances, if any, will not be significant.

### NOTE 13. RELATED ORGANIZATIONS

The Government's governing council is responsible for all of the board appointments of the Housing Authority of the City of Augusta, Georgia. However, the Government's powers with respect to the Housing Authority of the City of Augusta, Georgia do not extend beyond these appointments and, accordingly, the Government has no financial accountability for the Housing Authority of the City of Augusta, Georgia.

### NOTE 14. JOINT VENTURE

Under Georgia law, the Government, in conjunction with the 16 counties and 54 cities in east Georgia known as the Central Savannah River Area (CSRA), is a member of the CSRA Regional Commission (CSRA RC) and is required to pay annual dues thereto. During its year ended December 31, 2012, the Government paid \$192,140 in such dues. Membership in a regional commission is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the CRC in Georgia. The CSRA RC Board membership includes one city official, one county official, and one private sector individual from each county. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of an RC. Separate financial statements may be obtained from the CSRA Regional Commission, 3023 River Watch Parkway, Augusta, Georgia 30907.

### NOTE 15. HOTEL/MOTEL LODGING TAX

The Government has imposed a 6% hotel/motel tax on lodging facilities. Revenues collected during the year ended December 31, 2012, were \$4,625,243. Of this amount, \$3,215,649, or 70% was paid to the Augusta-Richmond County Coliseum and the Augusta Convention and Visitors Bureau to promote tourism within Richmond County, and \$1,359,790, or 29%, was used for debt service on the Augusta Richmond County Coliseum Authority Revenue Bond Series 2010.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 16. LEASES

The Government is lessor of terminal space, land and buildings at Augusta Regional Airport at Bush Field and Daniel Field under various operating leases. Revenues and related expenses for Augusta Regional Airport at Bush Field are recorded in the Augusta Regional Airport at Bush Field Fund while the revenue and related expenses for Daniel Field are recorded in the Daniel Field Airport Fund. Some of the leases provide for additional payments based on usage activity in addition to non-cancelable amounts of fixed rates.

During 2012, rental income totaled \$746,517 and \$96,293 in the Augusta Regional Airport at Bush Field and Daniel Field Airport Funds, respectively.

### NOTE 17. DEFICIT FUND BALANCES / NET POSITION

The Housing and Neighborhood Development Fund reported a deficit fund balance of \$500,648; the Fleet Operations Fund reported deficit net position of \$127,121; and the GMA Leases Fund reported deficit net position of \$507,953 at December 31, 2012. The Housing and Neighborhood Development Fund deficit is intended to be eliminated through increased transfers from other funds. The Fleet Operations and GMA Leases deficits are intended to be eliminated through an increase in user charges.

### NOTE 18. DEPARTMENT OF THE ARMY REVENUE

In September 2007, the Government entered into a contract with the Department of Defense (DOD) for the privatization of the water and wastewater system for the army base located at Fort Gordon, Georgia. The contract term is for fifty (50) years with a renewal option. The contract provides for selling the existing infrastructure assets to the Government, paying for renewal and replacement of infrastructure, reimbursing the cost of any new assets added to the water and wastewater system, and paying the Government to operate and maintain the water and wastewater system. Payments from the DOD to the Government are provided for in different ways for each type of payment.

Sale of existing infrastructure assets to Utilities and payment for operations and maintenance – The amortized cost of the initial purchase of the infrastructure is passed along to the DOD as allowable part of the cost to operate and maintain the water and wastewater system. As a result, the payment for purchase of the existing infrastructure is considered an offset resulting in a non-cash transaction. The liability for the purchase of the assets is recorded as a note payable to the Department of the Army. A monthly entry is recorded to reflect the amortization of the scheduled note payable payment including interest and an equal amount of revenue representing operation and maintenance of the system. In addition, depreciation expense is recorded equal to the principal balance and interest expense on the note payable. The total amount of these expenses is expected to equal the total amount of the related revenue over the life of the contract. For the years ended December 31, 2012 and 2011, \$2,455,980 and \$2,455,980, respectively, was recorded as Department of the Army revenue and was used to reduce the outstanding balance on the Department of the Army note payable.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 18. DEPARTMENT OF THE ARMY REVENUE (CONTINUED)

Payment for renewal and replacement of infrastructure – Payments for renewal and replacement of the water and wastewater system were calculated based on an estimated schedule of asset replacement with inflation over the fifty (50) year term of the contract. This estimated cost was then amortized on a present value basis to a monthly amount. This amount, along with the estimated monthly payment for operations and maintenance agreed upon at the contract signing date, are billed monthly to the DOD and are expected to remain constant for the first two (2) years of the contract. After the first two (2) years of the contract and every three (3) years thereafter, the monthly amount of either of these payments may be renegotiated within contractually specified limits. For the years ended December 31, 2012 and 2011, the Government recognized \$4,562,845 and \$4,550,138, respectively, of revenue for these payments as department of the Army revenue.

Reimburse the cost of any new assets added to the system – Any new assets required for the infrastructure of Fort Gordon are approved by the DOD, contracted by Utilities and reimbursed in full at the completion of the project by DOD. For the years ended December 31, 2012 and 2011, reimbursements for such projects totaled \$18,212,753 and \$5,324,015, respectively, and payments were recorded as Department of the Army revenue.

### NOTE 19. RESTATEMENTS

The Government has determined that a restatement to beginning net position of the Governmental Activities was required to recognize the change in accounting principle for implementation of Governmental Accounting Standards Board (GASB) Statement No. 65, through which bond issuance costs are written off as of January 1, 2012. This adjustment resulted in changes to beginning net position of Governmental Activities as follows:

	<u>Governmental Activities</u>
Net position, as previously reported	\$ 595,180,393
Recognition of bond issuance costs in accordance with GASB 65	<u>(662,740)</u>

## NOTES TO FINANCIAL STATEMENTS

### NOTE 19. RESTATEMENTS (CONTINUED)

The Government has determined that a restatement to beginning net position of the Water and Sewer System Fund, Augusta Regional Airport, and Waste Management Fund were required to recognize the change in accounting principle for implementation of Governmental Accounting Standards Board (GASB) Statement No. 65, through which bond issuance costs are written off as of January 1, 2012. These adjustments resulted in changes to beginning net positions of the respective funds as follows:

	<b>Water and Sewer System</b>	<b>Augusta Regional Airport</b>	<b>Nonmajor Enterprise Funds</b>

**SPECIAL REVENUE FUNDS**

Special revenue funds are used to account for specific revenues that are legally restricted, committed, or assigned for expenditures of particular purposes.

**Urban Services District Fund** is used to account for revenue primarily from ad valorem taxes from areas within the former city limits and expenditures related to governmental services such as “Urban Street Lights” and “Solid Waste Collection”.

**Emergency Telephone System Fund** is used to account for the receipt and disbursement of revenues of the emergency telephone response system.

**Fire Protection Fund** is used to account for the receipts and disbursements of tax revenues restricted for fire protection services in the unincorporated area only. The primary revenue source is ad valorem taxes, and the primary expenditures are for public safety.

**Tax Allocation District 1** is used to account for the receipt of the incremental increase of property taxes over the base year and expenditures committed to economic development.

**Tax Allocation District 2** is used to account for the receipt of the incremental increase of property taxes over the base year, allocated sales tax revenue generated and expenditures committed to economic development in the Village at Riverwatch Tax Allocation District.

**Tax Allocation District 3** is used to account for the receipt of the incremental increase of property taxes over the base year and expenditures committed to economic development in the Doug/Bernard Dixon Airline Tax Allocation District.

**Occupational Tax Fund** is used to account for the receipt and disbursement of tax revenues restricted for fire protection services in the unincorporated area only.

**Special Assessment Fund** is used to account for the receipt and disbursement of street light assessment taxes for the installation of street lights in the Government.

**Hotel/Motel Tax and Promotion/Tourism Fund** is used to account for the receipt and disbursement of hotel/motel and beer/wine tax revenues to the Augusta-Richmond County Convention & Visitors Bureau and the Augusta-Richmond County Coliseum Authority.

**Housing and Neighborhood Development Fund** is used to account for the financing and construction of various community development projects from grants received from the U.S. Department of Housing and Urban Development.

**Urban Development Action Grant (UDAG) Fund** is used to account for loan transactions in relation to urban development action grants. Repayments of initial grant revenue loaned to qualified recipients are restricted to additional financing to qualified applicants.

**Federal Drug Fund** is used to account for activities associated with drug education and enforcement.

**State Drug Fund** is used to account for activities associated with drug education and enforcement.

### NONMAJOR GOVERNMENTAL FUNDS

---

#### SPECIAL REVENUE FUNDS (CONTINUED)

**Wireless Phase Fund** is used to account for activities associated with 911 charges for wireless service.

**Law Library Fund** is used to account for certain fees received from the various courts of the Government. The resources are restricted by state law for support of the Law Library.

**5% Crime Victim's Assistance Fund** is used to account for the 5% surcharge on certain fines with the proceeds used for a victim's assistance program.

**Supplemental Juvenile Service Fund** is used to account for supervisory fees collected on juvenile cases.

**Building Inspection Fund** is used to account for building inspection licensing and fees revenue and related expenditures.

**Perpetual Care I Fund** is used to account for monies collected from sale of perpetual care contracts at Government-owned cemeteries after October 1, 1970, as well as receipt of investment earnings on all perpetual care investments and payment of cemetery maintenance expenditures.

**Downtown Development Fund** is used to account for excise taxes collected on rental motor vehicles, and debt payments made and appropriations given to the Downtown Development Authority.

**Canine Forfeitures Fund** is used to account for proceeds recovered from drug arrests, which are allocated to the canine unit in return for their assistance.

**NPDES Permit Fees Fund** is used to account for a per acre environmental fee charged to all contractors who disturb more than one acre of land at a building site.

**Transportation and Tourism Fund** is used to account for a fee to provide enhanced public transportation services and to enhance the tourism opportunities in the Historic Heritage District. The Government has implemented a \$1.00 per night room fee. In exchange for the transportation fee, payers of the fee shall be entitled to free use of the public transportation systems for the duration of their hotel stay in Augusta. The revenues generated by the transportation fee shall be used to fund and enhance public transportation operations, manage the Augusta Convention Center, and revitalize the Historic Heritage Districts of Augusta to enhance the transportation and tourism services available in Augusta.

**Drug Court Fund** is used to account for activities associated with drug education and enforcement.

**DUI Court Fund** is used to account for activities associated with DUI court.

**Urban Redevelopment Projects Fund** is used to account for the use of the related loan funds to assist the City in alleviating economic deterioration by means of increasing public and private investments in order to aid in economic recovery to strengthen the economics, employment, and tax base of the City. More specifically, the proceeds will finance the development of the Laney-Walker and Bethlehem Urban Redevelopment Area.

## NONMAJOR GOVERNMENTAL FUNDS

---

### CAPITAL PROJECT FUNDS

**Community Development Fund** is used to account for the financing and construction of various community development projects. Financing is provided by grants received from the U.S. Department of Housing and Urban Development.

**Capital Outlay Fund** is used to account for the disbursement of revenues for all capital expenditures in General Fund departments. Capital expenditures are defined as any non-disposable item over \$500 which includes vehicles, office and computer equipment, communications equipment, building renovations and office furniture.

**Law Enforcement Fund** is used to account for revenue and capital expenditures of the Sheriff's Department and Jail.

**Special Sales Tax Phase II Fund** is used to account for financing and construction of various construction and road improvements, drainage, jail improvements, and museums. Financing is to be provided by receipts from a 1991 special one percent local option sales tax referendum.

**Special Sales Tax Phase III Fund** is used to account for the receipts and disbursements of one percent (1%) sales tax collected from 1996 through 2000. The primary revenue sources are sales taxes, and the primary expenditures are capital outlay projects, primarily for public works, recreation and outside agency projects.

**Special Sales Tax Phase IV Fund** is used to account for expenditures specifically budgeted from revenue from the one percent (1%) sales tax (Phase IV) collected from the years 2001 through 2006 to be used primarily for public works, recreation and outside agency projects.

**Special Sales Tax Phase V Fund** accounts for receipts and disbursements of the one percent (1%) sales tax collected began March 2006 and expired December 2010. The revenue sources are sales tax and earned interest, and expenditures will be for capital outlay projects, primarily for public facilities, public works, recreation, and outside agency projects. The funds will also be used to repay \$44 million bonds issued for the expansion at the Webster Detention Center and the construction of the Augusta Convention Center. Additionally, the funds will be used for the repayment of \$8 million bonds issued by the Canal Authority.

**Coliseum and TEE Center Capital Projects Fund** is used to account for the costs of acquiring, constructing, and installing certain capital improvements to the existing multi-use coliseum and civic center type facility, known as the Augusta Entertainment Center Complex, and to account for a portion of the costs of acquiring, constructing, and installing a new multi-use coliseum and civic center type facility, to be known as the "Augusta Convention Center and Reynolds Street Parking Deck."
