## **INTRODUCTORY SECTION**

---

June 28, 2016

To the Honorable Mayor,  
Members of the Commission,  
and Citizens of Augusta Georgia

State law requires that every general purpose local government publish, within six months of the close of each fiscal year, a complete set of audited financial statements. The Comprehensive Annual Financial Report (CAFR) of Augusta Georgia (the Government) for the fiscal year ended December 31, 2015, is published to fulfill that requirement.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits; the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Mauldin and Jenkins, LLC, Certified Public Accountants, have issued an unmodified ("clean") opinion on Augusta, Georgia's financial statements for the year ended December 31, 2015. The Independent Auditor's Report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

### **Profile of the government**

The consolidated government of Augusta-Richmond County is a political subdivision created and existing under the laws of the State of Georgia and presently has as its formal or legal name "Augusta Georgia." The Consolidated Government was created on January 1, 1996 pursuant to Acts of the General Assembly of the State of Georgia. The consolidation of the City of Augusta and Richmond County were separately approved by a majority of the qualified voters of the City and the County at an election held on June 20, 1995. On January 1, 1996, the Consolidated Government became a consolidated city-county government, with territorial limits covering all of what was formerly Richmond County. The Cities of Blythe and Hephzibah, small communities with populations of approximately 724 and 4,026, respectively, still hold their own municipal charters within the consolidated territory. The relationship between the Government and the Cities of Blythe and Hephzibah is similar to that of counties to municipalities located within the territorial limits of such counties.

Augusta Georgia, as a consolidated city-county government, has all of the governmental and corporate powers of both municipal corporations and counties under Georgia law. Under the terms of the Consolidation Act, the Augusta-Richmond County Commission may exercise and is subject to all of the rights, powers, duties, and obligations previously applicable to the governing authorities of the City and the County. Consolidation is intended to result in the removal of duplicate services formerly rendered by the City and County governments. As a result of consolidation, the Consolidated Government provides, under one management, public services throughout its territorial limits, which would have been provided separately by the City and the County.

The City was originally chartered in 1789 by the General Assembly of the State of Georgia, making it Georgia's second oldest city. As a city, the Consolidated Government would rank as the second largest, by population, in the State of Georgia. The Consolidated Government is located in the central eastern portion of the State of Georgia on the south bank of the Savannah River, which is the Georgia-South Carolina state boundary, approximately 155 miles east of Atlanta, Georgia and 75 miles southwest of Columbia, South Carolina. Richmond County has a land area of approximately 325 square miles. At its highest point, Richmond County is situated at 520 feet above sea level. Richmond County is located on the Fall Line, which is the natural division of the Piedmont Plateau and the Coastal Plain of Georgia. Its physical features include rolling slopes in the north, transitioning to more level terrain in the south. Average rainfall is 43 inches per year, and average temperatures range from a high of 91 degrees in the summer to a low of 34 degrees in the winter.

Augusta Georgia is the home to Augusta University which has a student enrollment of approximately 9,200 and Paine College (a historically black college) with a student enrollment of approximately 550. Augusta Georgia is the regional center of east central Georgia with a stable economy based on a broad mix of industry, healthcare facilities, service organizations, and governmental institution.

The Government provides a full range of urban services for its citizens. These services are overseen by the Administrator who is appointed by a 10-member Board of Commissioners. Commissioners hold part time positions and are elected, in staggered voting cycles to four year terms. Augusta has a full time Mayor also elected to a four-year term. Additional information about current activities of the Government can be obtained at our website, [www.augustaga.gov.com](http://www.augustaga.gov.com).

In accordance with State Law and the Government's charter, Augusta Georgia adopts an annual operating and capital budget. The budget process provides a professional management approach to establishing priorities and an orderly means of directing the Government's various services. Developed on a line item basis with a focus on the cost of services, the Government's budget is adopted by the Mayor and Commission after a required public hearing and two public notices. The legal level of budgetary control is the department/fund level.

### **Local Economy**

Augusta Georgia remains the industrial and retail center for east central Georgia. Trends in the local economy indicate that the business outlook continue to improve. Augusta Georgia's top five industry sectors are government (Federal, state and local), healthcare, manufacturing, hospitality and retail; growth was seen in all sectors.

The largest employer in Augusta Georgia is Fort Gordon with a workforce of over 19,800. Over its 73-year history, Fort Gordon has adapted to new missions, growing to respond to the Army's needs and the world's situations. The installation is widely known as the home of the Signal Corps and U.S. Army Signal Center of Excellence, the Armed Forces' largest information technology and communications training site. In fiscal year 2013, more than 12,000 enlisted personnel and officers were trained in 160 high-tech courses involving 18 different military occupational specialties and officer skills. The Center not only trains Army students, but also instructs Air Force, Navy and Marine service members in the communications arena. The Signal Center serves as the personnel proponent for Soldiers in Signal careers, including 60,000 Active Army, United States Army Reservists and Army National Guard worldwide.

Fort Gordon is a vibrant installation with 18 major military commands and organizations, featuring joint service presence of thousands of sailors, airmen and marines as well as Soldiers. There is a growing synergy between military intelligence, communications and military medical communities. Fort Gordon is also home to the following organizations:

- Dwight David Eisenhower Army Medical Center: serves nearly 61,000 beneficiaries (active duty, family members and retirees) within a 40-mile radius; Eisenhower Army Medical Center, which employs the largest number of Fort Gordon civilians (1600+), is one of the Army's most advanced health care and tracking medical facilities. There is also a Warrior Transition Battalion and campus with nearly 400 'Wounded Warriors.'
- NSA-CSS Georgia: one of three joint regional centers that provide global operational intelligence; recently completed construction on a 575,000 sq. ft. facility
- 513<sup>th</sup> Military Intelligence Brigade: conducts theater-level, multi-discipline intelligence and security operations during war and military operations other than war
- 35<sup>th</sup> Signal Brigade: deploys, installs, operates, manages and maintains and protects theater tactical communications in support of joint and combined operations for all combatant commanders

Augusta Georgia's famous golf course, the Augusta National Golf Club, hosts the Masters Tournament. This is the Professional Golfers Association (PGA) Tour's first major golf tournament of each year. This tournament is one of the most prestigious in the sport and is one of the four major championships. The best professional and amateur golfers in the world come to Augusta during the first full week of April each year.

Augusta Georgia is also host to the Augusta Southern Nationals Drag Boat Race and the IRONMAN 70.3 the largest half IRONMAN competition east of the Mississippi River.

In 2012 the Transportation Investment Act (TIA) of 2010 was approved in only three of twelve regions established by the legislature. In the Central Savannah River Region, which includes Augusta Georgia, the referendum was approved by a 54-46% margin. The 1% additional sales tax began on January 1, 2013. Augusta Georgia has 50 of the 84 projects approved for this region.

### **Long-term financial planning and major initiatives**

Augusta Georgia operates under a set of fiscal policies which establishes operational objectives and promotes continuity in fiscal decision-making, and long-term financial stability of the Government. These policies cover financial areas in operating budget, reserve fund balances, accounting, auditing and financial reporting, and purchasing.

The Government strives to maintain a minimum unassigned fund balance in its General Fund, which is 75 to 90 days of operations based on budgeted expenditures. This minimum fund balance is to protect against cash flow shortfalls related to timing of projected revenue receipts and to maintain a budget stabilization commitment. Due to an Ice Storm in 2014, the Government is currently below this level. The Government has established a budget policy that is anticipated to replenish the reserves to the desired levels in 5 years.

The Government has established a financial and budgetary policy which is reviewed and updated as necessary by approval of the Augusta, Georgia Commission. Budgetary control is maintained at the department level. No increase in the overall budget can be made without the approval of the Commission and an amendment to the budget. Unencumbered appropriations in the annual operating budget lapse at fiscal year-end.

Augusta Georgia's financial condition is demonstrated by the Aa2, rating from the national rating agency Moody's for its general obligation bonds and revenue bonds. The Government's ratings were reaffirmed in September 2015.

### **Major Initiatives**

Transportation Investment Act of 2010 (TIA). On July 31, 2012, voters within the Central Savannah River Area (CSRA) Region, which includes the Government, approved the TIA, which was created by the Georgia General Assembly in 2010 to provide state-wide funding for transportation needs across the state in the form of a 1% sales tax. This is a regional program with project lists compiled by the county and city governments within each region and approved by the Transportation Roundtable of the region and the Georgia Department of Transportation (GDOT) Program Director. The CSRA region includes 13 counties and the cities therein. Of the total funds collected, 75% will go to regional projects and 25% will go to the local governments to use at their discretions. The discretionary funds will be invaluable in meeting local needs not presently funded due to a lack of GDOT monies. Approval of the TIA will accelerate our preparation for present and future transportation needs and will provide opportunities not only for better and safer roads, but also for job creation and economic development.

Of the 84 projects approved, 50 are located in the County. Major road projects include:

- Broad Street Improvement (\$25 million)
- Calhoun Expressway Reconstruction (\$8.8 million)
- Greene Street Improvements (\$9.9 million)
- Marks Church Road Widening (\$7.8 million)
- Riverwatch Parkway Resurfacing (\$10 million)
- Telfair Street Improvements (\$19.2 million)
- Berckmans Road Widening (\$16.7 million)
- 5<sup>th</sup> Street Bridge restoration (\$9.1 million)
- Gordon Highway Improvements (\$14 million)
- 15<sup>th</sup> Street Widening (\$21.4 Million)
- Riverwatch Parkway Median Barrier renovation (\$8.6 million)
- Windsor Spring Road Widening (\$43 million)
- Wrightsboro Road Widening (\$21.6 million)

Projects will be funded in three phases; the tax collections will end in 2022.

1% Special Purpose Local Option Sales Tax (SPLOST) – 2016-2021. The current SPLOST program was renewed by referendum on November 3, 2015. As part of the SPLOST renewal, a general obligation (GO) bond was approved, not to exceed \$28.5 million, to begin funding the construction of urgently needed projects. The 2016 -2021 package reflects anticipated collections of \$215,500,000.

Project categories that are to receive funding include:

- Public Safety - \$45.5 million
- Quality of Life - \$28 million
- General Government - \$11 million
- Infrastructure – \$70.1 million
- Government Facilities - \$52.5 million

### **Acknowledgements**

The Government will be submitting the comprehensive annual financial report for the year ended December 31, 2015 to the Government Finance Officers Association of the United States and Canada (GFOA) for GFOA's Certificate of Achievement for Excellence in Financial Reporting. In order to be awarded a Certificate of Achievement, the Government has to publish an easily readable and efficiently organized CAFR that satisfied both Generally Accepted Accounting Principles and applicable program requirements.

The preparation, design and publication of this Comprehensive Annual Financial Report could not have been accomplished without the efficient and dedicated service of the entire finance office staff. We would also like to express our gratitude and appreciation to the firm of Mauldin & Jenkins, LLC for their technical guidance and assistance to make this a quality report.

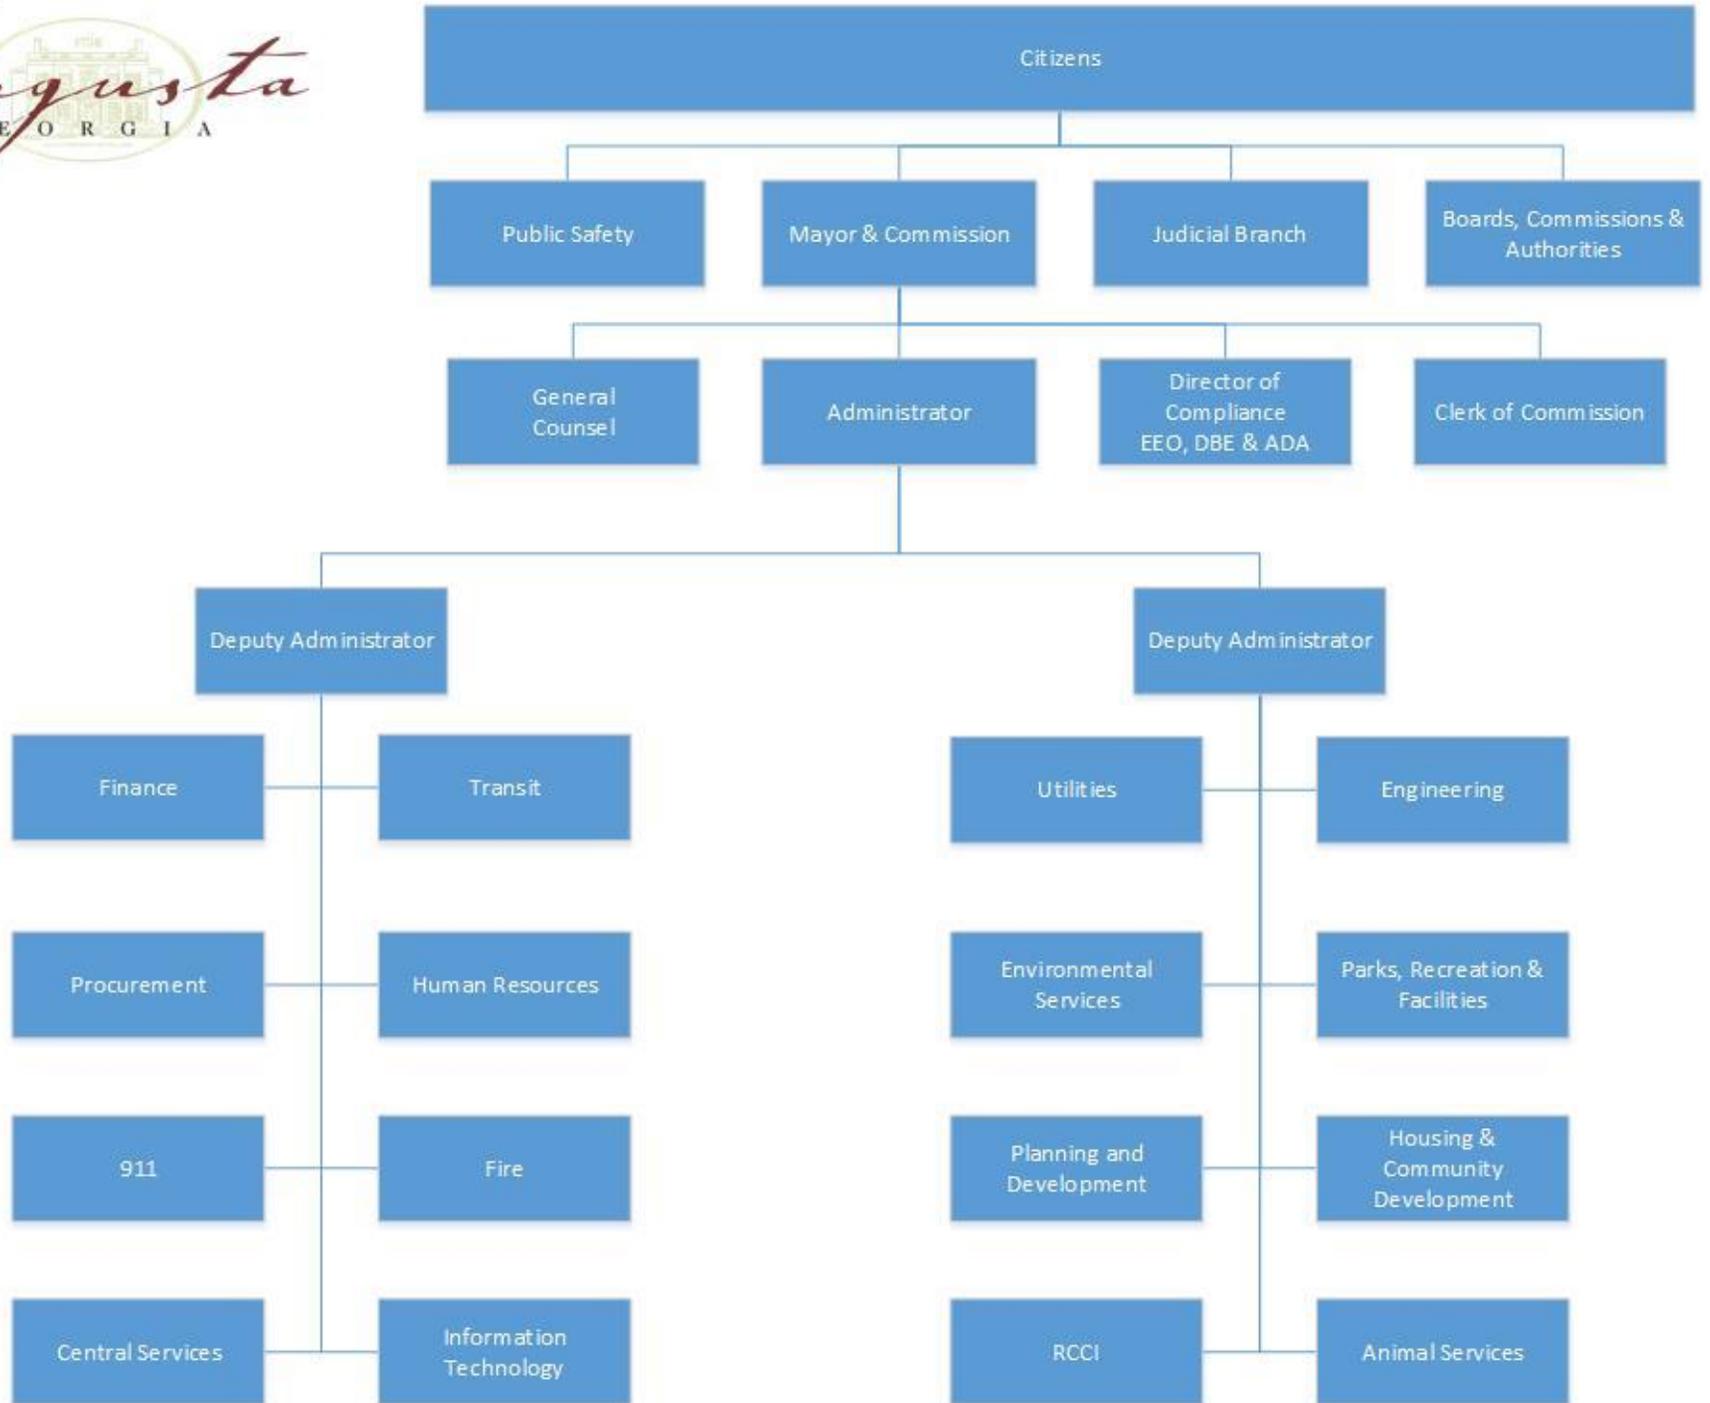

Sincere appreciation also goes to the various elected officials, and county department directors for their assistance and positive attitude throughout the year in matters pertaining to the financial affairs of the Government.

Finally, credit also must be given to the Augusta Georgia Commission for their unfailing support for maintaining the highest standards of professionalism in the management of the Government's finances.

Respectfully submitted,

A handwritten signature in blue ink that reads "Donna B. Williams". The signature is fluid and cursive, matching the style of the "Augusta" logo.

Donna B. Williams, CGFM  
Director of Finance

## INDEPENDENT AUDITOR'S REPORT

---

To the Board of Commissioners  
of Augusta Georgia  
Augusta, Georgia

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **Augusta Georgia** (the "Government"), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise Augusta, Georgia's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Richmond County Department of Health, the Augusta Canal Authority, the Downtown Development Authority, or the Augusta-Richmond County Coliseum Authority, which represents 100% of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Richmond County Department of Health, the Augusta Canal Authority, the Downtown Development Authority, and the Augusta-Richmond County Coliseum Authority, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

---

## **Opinions**

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Augusta, Georgia as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Emphasis of Matter***

As described in Note 19, the Government implemented Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, as well as Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*, as of January 1, 2015. These standards significantly changed the accounting for the Government's net pension liability and the related disclosures. Our opinion is not modified with respect to this matter.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 5 through 16), the Schedule of Funding Progress (on page 100), the Schedules of Changes in the Government's Net Pension Liability and Related Ratios (on pages 101 through 103), the Schedules of Government Contributions (on pages 104 through 106), the Schedules of Pension Investment Returns (pages 107 and 108), the Schedule of Contributions – Richmond County Health Department which was audited by other auditors on page 109, and the Schedule of Proportionate Share of the Net Pension Liability – Richmond County Health Department which was audited by other auditors on page 110 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

We have previously audited the Government's December 31, 2014, financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information in our report dated June 29, 2015. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2015, is consistent, in all material respects, with the audited financial statements from which it has been derived.

---

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Augusta, Georgia's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, the schedule of expenditures of special purpose local option sales tax proceeds, as required by the Official Code of Georgia 48-8-121, and the statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of special purpose local option sales tax proceeds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of special purpose local option sales tax proceeds is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of Augusta, Georgia as of and for the year ended December 31, 2014 (not presented herein), and have issued our report thereon dated June 29, 2015, which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information. The combining and individual nonmajor fund financial statements and schedules for the year ended December 31, 2014, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2014 financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the 2014 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended December 31, 2014.

---

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2016, on our consideration of Augusta, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Augusta, Georgia's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

The Management's Discussion and Analysis of the Annual Financial Statements of Augusta Georgia (the "Government") provides an overall narrative and analysis of the Government's financial statements for the fiscal year ended December 31, 2015. This discussion and analysis is designed to look at the Government's financial performance as a whole. Readers should also review the financial statements with notes, which follow this narrative, to enhance their understanding of the Government's financial performance.

### Financial Highlights

Key financial highlights for the year ended December 31, 2015, are as follows:

- The Government's combined net position totaled \$983.7 million.
- The Government's total net position increased by \$8.6 million, primarily due to capital spending funded by the Special Purpose Local Option Sales Tax revenues, federal aviation grants, and other tax revenues. This increase includes the prior period adjustment related to implementation of GASB Statement No. 68.
- As of the close of the current fiscal year, the Government's governmental funds reported combined ending fund balances of \$182.8 million, a decrease of \$10.8 million from the prior year. Approximately 7.8% of this total amount, or \$14.3 million, is available for spending at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, total fund balance for the General Fund was \$27 million, or 19.5% of total General Fund expenditures for the fiscal year. Of this amount, \$2.4 million has been assigned for other purposes, and \$19.5 million, or 72.3% of total General Fund balance, as unassigned.
- Combined revenue totaled \$400.9 million, of which governmental activities totaled \$258.7 million and business-type activities totaled \$142.1 million. Current year revenues increased approximately 1.8% from those of the prior year.
- Overall expenses totaled \$347.6 million of which governmental activities totaled \$195.1 million and business-type activities totaled \$152.6 million. Current year expenses decreased approximately 7.9% over those of the prior year.
- Expenses of governmental activities exceeded program revenue by \$140 million, resulting in the use of general revenues (mostly taxes).
- The Government was included in a federal disaster designation as the result of an ice storm that occurred in February 2014. The Government has applied for reimbursement of disaster recovery costs from FEMA and GEMA. The final reimbursement amount has not been determined or received.
- Total Outstanding Long-Term Debt, excluding compensated absences, increased approximately \$28.5 million.

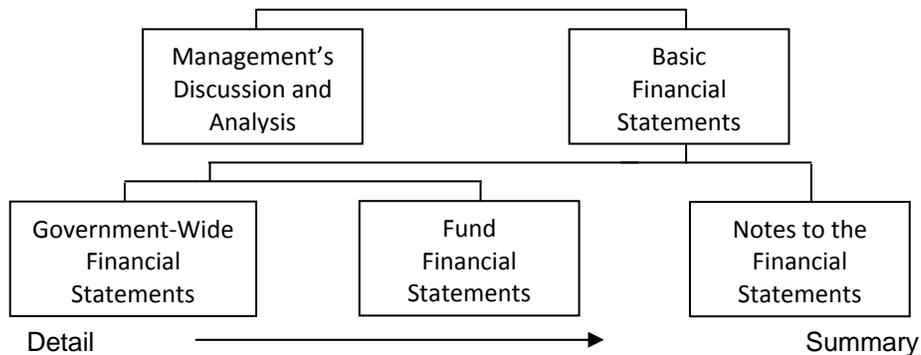

# MANAGEMENT'S DISCUSSION AND ANALYSIS

---

## Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Government's basic financial statements. The basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The basic financial statements present two different views of the Government through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Government.

### Required Components of Annual Financial Report

## Basic Financial Statements

The first two statements in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the Government's financial status.

The next statements are the **Fund Financial Statements**. These statements focus on the activities of the individual parts of Augusta Georgia's government. These statements provide more detail than the government-wide statements. There are four parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; 3) the proprietary fund statements; and 4) the fiduciary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Government's non-major governmental funds and internal service funds, all of which are added together in one column on the appropriate basic financial statements.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

---

## Government-wide Financial Statements

The government-wide financial statements provide a broad view of the Government's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the Government's financial position, which assists in assessing the economic condition at the end of the fiscal year. These statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. This means the statements take into account all revenues and expenses connected with the fiscal year even if cash involved has not been received or paid. The government-wide financial statements include the following two statements:

The **Statement of Net Position** presents information on all of the Government's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Government is improving or deteriorating.

The **Statement of Activities** presents information showing how the Government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). This statement also presents a comparison between direct expense and program revenues for each function of the Government.

The government-wide statements are divided into three categories: 1) governmental activities, 2) business-type activities and 3) component units. The governmental activities include most of the Government's basic services such as general administration, judicial services, public safety, public works, health and welfare, culture and recreation, and housing and development. Property taxes and state and federal grant funds finance most of these activities. The business-type activities are those services that the Government charges a fee to customers in order to provide. These include Water and Sewer, Augusta Regional Airport, Waste Management, Transit, Daniel Field Airport, and Garbage Collection. The final category is component units. The Augusta-Richmond County Board of Health is a public health department. Although legally separate from the Government, the Government appoints a voting majority of the board. Augusta Canal Authority, Downtown Development Authority, and the Richmond County Coliseum Authority are also component units for which the Government is fiscally responsible.

## Fund Financial Statements

A Fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Government, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

The fund financial statements focus on individual parts of the Government, reporting the Government's operations in more detail than the government-wide statements. All of the funds of the Government can be divided into three categories: governmental funds, proprietary funds and fiduciary funds. These fund categories use different accounting approaches and should be interpreted differently.

### *Governmental Funds*

Most of the basic services provided by the Government are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as government activities in the government-wide financial statements. However, unlike the government-wide statements, these funds focus on how assets can readily be converted into cash and the amount of funds left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting*, which focuses on current financial resources. Such information may be useful in evaluating the government's short-term financing requirements. These statements provide a detailed short-term view of the Government's finances that assists in determining whether there will be adequate financial resources available to meet the Government's current needs. The relationship between government activities in the government-wide financial statements and the governmental funds financial statements is described in a reconciliation that is a part of the fund financial statements.

The Government has five governmental fund types: the General Fund, Special Revenue Funds, Debt Service Funds, the Capital Projects Funds, and the Permanent Fund. Only two individual funds are being considered major funds – the General Fund and Special Purposes Local Option Sales Tax Fund (SPLOST) Phase VI.

### *Proprietary Funds*

The Government has two types of proprietary funds used to account for activities that operate similar to commercial enterprises found in the private sector. Funds that charge fees for services provided to outside customers including other local governments are known as Enterprise Funds. These funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Funds that charge fees for services provided to departments within the reporting government are known as Internal Service Funds. Proprietary funds use the accrual basis of accounting, thus there is no reconciliation needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements, except for the allocation of internal service fund activity.

The Government has six enterprise funds: Water and Sewer, Augusta Regional Airport, Waste Management, Transit, Daniel Field Airport, and Garbage Collection. The Government also has seven internal service funds: Risk Management, Fleet Operations, Workers' Compensation, Employee Health Benefits, Unemployment, Long-Term Disability Insurance and GMA Leases. The Water and Sewerage Fund, Augusta Regional Airport, and Garbage Collection Fund are the only funds being considered major funds for presentation purposes.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### *Fiduciary Funds*

The Fiduciary Funds are used to account for assets held by the Government as an agent for individuals, private organizations, other governments and other departments. The Government is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and only by those to whom the assets belong. These funds are not reflected in the government-wide financial statements because the resources are not available to support the Government's operations or programs.

### Government-wide Financial Analysis

	Governmental	Business-type	Total	Governmental	Business-type	Total

### Net Position

Net position may serve over time as one useful indicator of a government's financial condition. The assets of the Government exceeded liabilities by \$983.7 million as of December 31, 2015.

The largest portion of the Government's net position, \$729.5 million or 74.2%, reflects its investment in capital assets such as land, buildings, equipment and infrastructure (road, bridges, sidewalks, water lines and sewer lines) less any related debt used to acquire those assets that is still outstanding. The Government uses these capital assets to provide services to its citizens; therefore, these assets are not available for future spending. Although the Government's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

An additional portion of the Government's net position, \$213.5 million or 21.7% represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position, \$40.8 million or 4.1% may be used to meet the Government's ongoing obligations to citizens and creditors.

Several particular aspects of the Government's financial operations positively influenced the total *unrestricted governmental net position*:

- Continued diligence in the maintenance of 75 -90 days unreserved fund balance in the General Fund.
- Continued diligence in the collection of property taxes by maintaining a collection percentage of 99% for real and personal property.
- Continued low cost of debt due to the Government's high bond rating.

### Changes in Net Position

**Governmental activities.** Governmental activities increased the Government's net position by \$59.8 million, and thereby accounting for 100% of the total growth in the net position of the Government. Key elements of this increase are as follows:

**Governmental Revenues** Property tax (26.8%) and other taxes (51.3%) continue as the main source of revenue of the Government amounting to 78.1% in 2015, compared to 76.4% in 2014. Sales tax revenues contributed approximately \$89.5 million to net position.

**Governmental Functional Expenses:** As reflected in the summary of Changes in Net Position, the Government expended 48.7% of the appropriations for judicial and public safety expenditures. The Government continues to commit substantial financial resources for the safety of its citizens. Other expenditures accounted for the remaining 51.3%. The Government had a significant increase in capital assets as capital projects were completed and removed from construction in progress.

**Business-type activities:** Business-type activities decreased the Government's net position by approximately \$6.6 million. A significant portion of the decrease was due to the implementation of GASB Statement No. 68.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### The Government's Changes in Net Position

	Governmental	Business-type	Total	Governmental	Business-type	Total

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### Financial Analysis of the Government's Individual Funds

Augusta, Georgia uses fund accounting to demonstrate compliance with finance-related legal requirements.

#### Governmental Funds

The focus of the Government's governmental funds is to provide information on near-term inflows, outflows and balances of usable resources. Such information is useful in assessing the Government's financial requirements. In particular, the unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The combined fund balance of all the governmental funds is \$182.8 million, of which \$14.3 million, or 7.8%, is unassigned.

#### General Fund

The General Fund is the primary operating fund of the Government. At the end of the current fiscal year, total fund balance of the General Fund was \$27 million, of which \$19.5 million or 72.3% was unassigned. A portion of the fund balance in the General Fund is designated for risk management, in the amount of \$2.375 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance to total fund expenditures. As of December 31, 2015, total unassigned fund balance, represents 14.1% of total general fund expenditures.

The fund balance of the General Fund increased by \$2.7 million, or 11%. Key factors to this result include reimbursement from FEMA and GEMA of costs from an ice storm that occurred in February 2014. On March 6, 2014, portions of Georgia, including the Government, received federal disaster designation as a result of the ice storm. The Government has not yet received the final reimbursements from FEMA or GEMA and anticipates additional reimbursements will be received. The Government designated its reserve assigned to Risk Management to be used for the Government's portion on non-reimbursed expenses. Additionally, the Government planned a systematic replacement of that reserve at the rate of \$1.125 million per year until the reserve totals \$4.5 million and funds used for non-reimbursed expenses incurred during the ice storm have been replenished.

During the year, the Government revised the budget on several occasions. Generally, budget amendments fall into one of five categories: 1) amendments to appropriate fund balance for encumbrances from the prior year; 2) amendments made to adjust the estimates that are used to prepare the original budget resolution once exact information is available; 3) amendments made to recognize new funding amounts from external sources, such as Federal and state grants; 4) increases in appropriations that become necessary to maintain services; and 5) amendments to transfer appropriations between departments. The fifth category has no effect on the final budget and, therefore, is not addressed in this narrative.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### General Fund Budgetary Highlights

The actual operating revenues for the General Fund exceeded the budgeted amount by \$900 thousand or .61%. The individual sources within the revenues fluctuated both positively and negatively.

The 2015 adopted budget (November 18, 2014) projected Ad Valorem tax revenues at 2014 levels with no projected growth in the tax digest and no increase in sales tax revenues..

### Capital Projects Funds

The Government uses Capital Projects Funds to account for the acquisition and construction of major capital facilities that are not financed by Proprietary Funds. Major funds included in the fund financial statements are the SPLOST Fund Phase VI. The proceeds of the special purpose 1% sales tax are accounted for in Capital Projects Funds until improvement projects are completed. The SPLOST Fund Phase VI's fund balance is \$61.4 million, all of which is held for specific construction and improvement projects and capital acquisitions.

### Proprietary Funds

The activities of the Government that render services to the general public on a user charge basis, or that require periodic determination of revenues for public policy are accounted for as Enterprise Funds. The Government's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net position at the end of the year were as follows: Water and Sewer System Fund, \$20.5 million; Augusta Regional Airport, \$4.1 million; Garbage Collection Fund \$14.1 million; Nonmajor Enterprise funds, \$11 million. The total growth (reduction) in net position for previously mentioned funds were \$ (6.5) million, \$657,000, \$1.1 million and \$ (1.9) million, respectively. Other factors concerning the finances of these funds have already been addressed in the discussion of the Government's business-type activities.

## Capital Assets and Debt Administration

### Capital Assets

The Government's investment in capital assets for its governmental and business-type activities as of December 31, 2015, amounts to \$1.3 billion (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, equipment, infrastructure and construction in progress. Infrastructure assets are items that are normally immovable and of value only to the Government, such as roads, bridges, streets and sidewalks, drainage systems and other similar items.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

Major capital asset transactions during the year included construction of infrastructure, buildings, acquisition of public safety vehicles, construction of water and sewerage systems, and construction of a new airport terminal and building.

### *The Government's Capital Assets (net of depreciation)*

	Governmental Activities	Business-type Activities	Total
Land	\$ 23,165,992	\$ 19,518,091	\$ 42,684,083

	<u>\$ 625,927,698</u>	<u>\$ 699,986,941</u>	<u>\$ 1,325,914,639</u>

Additional information on the Government's capital assets can be found in Note 6 of the notes to the financial statements of this report.

### Long-Term Debt

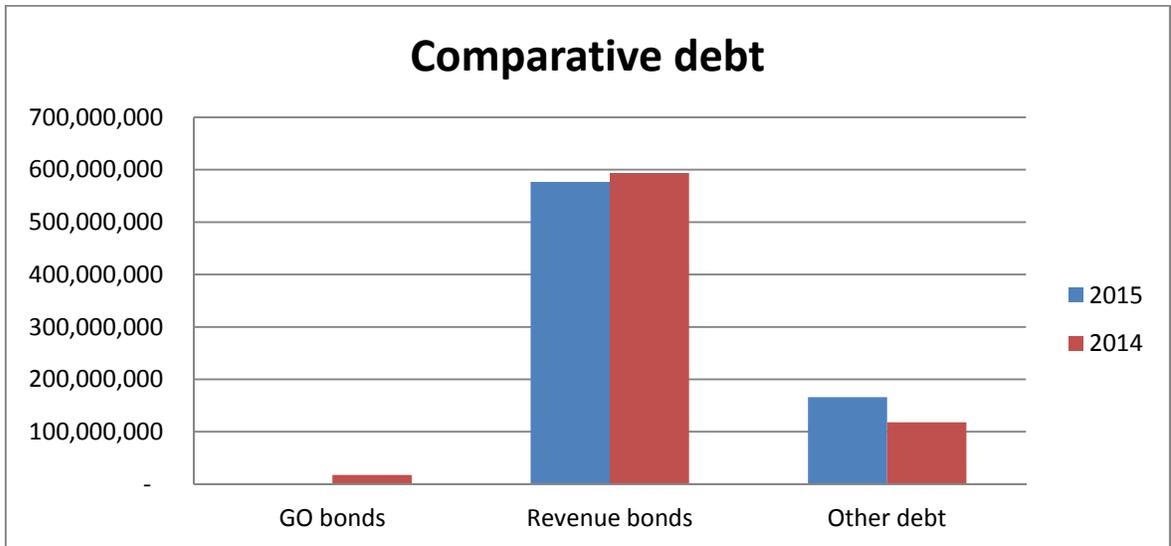

As of December 31, 2015, the Government had a total of \$742.8 million in outstanding long-term debt. Of this amount, \$576.7 million consists of revenue bonds backed by the revenues of the water and sewer system, waste management system and the regional airport. A table of the Government's outstanding debt can be found below.

### *The Government's Outstanding Debt General Obligation and Revenue Bonds*

	Governmental Activities		Businesss-type Activities		Total	
	2015	2014	2015	2014	2015	2014
GO bonds	\$ -	\$ 17,500,000	\$ -	\$ -	\$ -	\$ 17,500,000
Revenue bonds	60,640,632	56,922,083	516,020,255	536,741,436	576,660,887	593,663,519
Other debt	112,805,633	70,447,497	53,337,673	47,521,448	166,143,306	117,968,945
Total debt	<u>\$ 173,446,265</u>	<u>\$ 144,869,580</u>	<u>\$ 569,357,928</u>	<u>\$ 584,262,884</u>	<u>\$ 742,804,193</u>	<u>\$ 729,132,464</u>

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### Long-Term Debt (Continued)

The Government's bond rating of AA2 by Moody's Investor Service was confirmed in September 2015. Augusta's bond ratings are clear indications of the sound financial condition of the Government. The high ratings are a primary factor in keeping interest costs low on the Government's outstanding debt.

The State of Georgia limits the amount of general obligation debt that a unit of government can issue to 10 percent of the total assessed value of taxable property located within that government's boundaries. The legal debt margin for the Government is \$471 million based on the 2015 County-wide bond digest of \$4.71 billion.

Additional information regarding the Government's long-term debt can be found in Note 7 of the notes to the financial statements of this report.

### Economic Factors and Next Year's Budget and Rates

The following key economic indicators reflect the continued stability of the Government.

- The U.S. Army moved the Army Cyber Command headquarters to Fort Gordon as the new home of the Cyber Center of Excellence.
- Rockwood Pigment has completed construction of a \$120 million facility, production will commence in 2016.
- Several companies have relocated or expanded in Augusta in support of the Army Cyber Command relocation:
  - Unisys relocated to downtown Augusta with an anticipated work for 700 employees.
  - ADP is expanding its campus by 60,000 square feet and adding 450 employees.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### Economic Factors and Next Year's Budget and Rates (Continued)

- The Government has received the following national and state rankings:
  - CNBC: Best City for a starter home.
  - U.S. News & World Report: One of the best places to retire.
  - Digital Journal: Ranked fourth in the top places to live in the US.
  - Association of County Commissioners of Georgia – County of Excellence award.
- The Government has an unemployment rate of 5.7%, higher than the state average of 5.5%.

### Budget Highlights for the Fiscal Year Ending December 31, 2015

Each year, Augusta's overall goal is to provide essential services to our citizens as cost effectively and professionally as possible. Available resources must be allocated in a manner that balances the basic needs of our citizens for public safety and infrastructure with those associated that provide an enhanced quality of life, such as recreation and cultural arts. The Augusta Commission works diligently to plan for the future while ensuring current programs and services are working as smoothly as possible. We continually seek to improve.

**Governmental Activities:** The Ad Valorem Taxes are projected to remain at the 2014 level. Other taxes are expected to remain stable. The FY 2015 budget for the general fund is expected to be slightly above the 2014 level, primarily due to increases to salaries for public safety personnel. The budget also includes implementation of a stormwater fee and an increase to the PILOT amount paid by the internal enterprise funds. Costs associated with the operating deficit of the transit fund are borne by the General Fund. Augusta has not yet identified a continuing dedicated source of revenue to sustain that system's operations. The general economic climate for the city government of 2015 is expected to be stable.

**Business – type Activities:** Overall Water and Sewer revenue is projected to increase by more than 3% due to the increased rates.

### Requests for Information

This report is designed to provide an overview of the Government's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Finance Director, Augusta-Richmond County, Georgia, 535 Telfair Street, Suite 800, Augusta, Georgia 30901. Questions concerning any of the information found in this report relating to the Richmond County Board of Health should be directed to the Department of Health at 950 Laney Walker Blvd., Augusta, Georgia 30901. Questions concerning any of the information found in this report relating to Augusta Canal Authority should be directed to Augusta Canal Authority, 1450 Greene Street, Suite 400, Augusta, Georgia 30903. Questions concerning any of the information found in this report relating to Downtown Development Authority should be directed to Downtown Development Authority, 936 Broad Street, Suite 107, Augusta, Georgia 30901.

**AUGUSTA, GEORGIA**

**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET  
TO THE STATEMENT OF NET POSITION**

**DECEMBER 31, 2015**

---

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances - governmental funds	\$ 182,762,773
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	625,617,472
Revenues in the statement of activities that do not provide current financial resources are reported as unavailable revenues in the funds.	8,390,841
Net other post employment benefit obligation is not due and payable in the current period and is therefore not reported in governmental funds.	(42,325,079)
Net pension liability included in governmental activities is not due and payable in the current period and, therefore, is not reported in governmental funds.	(35,357,029)
Certain long-term liabilities are not due and payable in the current period and are therefore not reported in the funds.	(75,594,553)
Internal service funds are used by management to charge the cost of fleet management, insurance, and participation in the Georgia Municipal Association Certificates of Participation program to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	<u>1,330,087</u>
Net position of governmental activities	<u>\$ 664,824,512</u>

**AUGUSTA, GEORGIA**

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2015**

---

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds.	\$ (10,753,046)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	56,729,071
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position.	(205,125)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	680,056
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	13,781,451
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(435,925)
Internal service funds are used by management to charge the cost of fleet management, insurance, and participation in the Georgia Municipal Association Certificates of Participation program to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.	<u>3,041</u>
Change in net position of governmental activities.	<u>\$ 59,799,523</u>

# AUGUSTA GEORGIA

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Augusta Georgia (the "Government") is located in the east central section of the state on the south bank of the Savannah River, which serves as the boundary between Georgia and South Carolina. Augusta is on the fall line and has a landscape dotted with foothills which descend to the coastal plain. Augusta is the head of the navigation on the Savannah River and is 135 miles east of Atlanta, 127 miles northwest of the port of Savannah, and 72 miles southwest of Columbia, South Carolina. Augusta is the trade center for 13 counties in Georgia and five in South Carolina, a section known as the Central Savannah River Area.

The Government was created by legislative act in the State of Georgia in 1995 from the unification of the two governments, the City of Augusta, Georgia and Richmond County, Georgia. On June 20, 1995, the citizens of Richmond County and the City of Augusta voted to consolidate into one government named Augusta, Georgia. The officials for the new government were elected and, based on the charter, took office on January 1, 1996. The unified government combined all functions and began financial operations January 1, 1996.

The Government is governed by a full-time Mayor, with a term of four years, and a 10-member Commission, who serve on a part-time basis and are elected to staggered terms of four years. The Mayor and Commission appoint an Administrator who serves as a full-time administrative officer and is responsible for the daily operations of the Government.

The financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Government's accounting policies are described below.

#### **A. Reporting Entity**

As required by generally accepted accounting principles, these financial statements present Augusta, Georgia and its component units. The component units discussed below are included in the Government's reporting entity because of the significance of their operational or financial relationship with the Government.

#### **Discretely Presented Component Units**

The **Richmond County Department of Health (RCDH)** was established pursuant to an act of the General Assembly of the State of Georgia in 1955. The RCDH is governed by a 12-member board consisting of one member of the Augusta-Richmond County Commission. The Government provides financial support to the RCDH and appoints a majority of the members. The RCDH has a June 30 year-end. Separate financial statements for the RCDH can be obtained from its administrative office at 950 Laney Walker Blvd., Augusta, Georgia 30901.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### A. Reporting Entity (Continued)

##### Discretely Presented Component Units (Continued)

The **Augusta Canal Authority** (the "Canal Authority") was established pursuant to an act of the General Assembly of the State of Georgia in 1989. The Canal Authority is governed by a 12-member board. The Government provides financial support to the Canal Authority and appoints a majority of the members. Separate financial statements for the Canal Authority can be obtained from its administrative office at 1450 Greene Street, Suite 400, Augusta, Georgia 30903.

The **Downtown Development Authority** (DDA) was established pursuant to the Downtown Development Authority Law (O.C.G.A. section 36-42-1, et seq. as amended with the power and authority to issue interest-bearing revenue bonds in accordance with the applicable provisions of the Revenue Bond Law of the State of Georgia O.C.G.A. Sections 38-82-60 through 38-82-85). The DDA is governed by a seven-member board consisting of one member of the Augusta-Richmond County Commission. The Government provides financial support to the DDA and appoints a majority of the members. Separate financial statements for the DDA can be obtained from its administrative office at 936 Broad Street, Suite 107, Augusta, Georgia 30901.

The **Augusta-Richmond County Coliseum Authority** (the "Coliseum Authority") was established pursuant to an act of the General Assembly of the State of Georgia in 1973. The Coliseum Authority is governed by a seven-member board. The Government appoints a majority of the members and the Coliseum Authority is fiscally dependent on the Government. The Coliseum Authority has a June 30 year-end. Separate financial statements for the Coliseum Authority can be obtained from the Civic Center, 601 Seventh St., Augusta, Georgia 30901.

##### Blended Component Units

The **Urban Redevelopment Agency** (URA) was established pursuant to a resolution adopted by the Augusta-Richmond County Commission April 1, 2010, activating the URA in accordance with the O.C.G.A. Chapter 61 Title 36; Section 36-61-17(b), "Urban Redevelopment Law". The URA is governed by a five-member board. The Government appoints a majority of the members and the URA is fiscally dependent on the Government. Separate financial statements for the URA are not prepared.

The **Augusta Port Authority** (Port Authority) was established pursuant to an act of the General Assembly of the State of Georgia in 1959. The Port Authority provides services exclusively to the Government. The mission of the Port Authority is to manage the resources and assets of the Savannah River and adjacent riverfront, to encourage and promote riverfront development, recreation, and tourism in the City of Augusta by way of economic development activities, events and special programs. The Port Authority is governed by a 12-member board. The Government provides financial support to the Port Authority and appoints a majority of the members. Separate financial statements for the Port Authority are not prepared.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### A. Reporting Entity (Continued)

##### Blended Component Units (Continued)

**Richmond County Public Facilities, Inc.** is a nonprofit organization, tax exempt under Internal Revenue Code Section 501(c)(3). The purpose of this organization is to construct and maintain buildings and equipment to be leased by the Government, the Department of Family and Children Services, and the Richmond County Board of Education. Richmond County Public Facilities, Inc. is part of the reporting entity of Augusta, Georgia, due to the services provided being exclusively to the Government.

Richmond County Public Facilities, Inc. issued Certificates of Participation to provide funds for the Government to refund the 1990 Certificates of Participation issue and for certain capital projects. The related assets are included in the financial statements of the Government as part of governmental activities. The Certificates of Participation were retired during 2001.

Separate financial statements for Richmond County Public Facilities, Inc. are not prepared.

#### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and the fiduciary fund financial statements, although the agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial* resources measurement focus and the *modified accrual* basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, licenses, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period, if available criteria are met. All other revenue items are considered to be measurable and available only when cash is received by the Government.

The Government reports the following major governmental funds:

The **General Fund** is the Government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Special Sales Tax Phase VI Fund** accounts for the receipts and disbursements of the one percent (1%) sales tax approved by the taxpayers on June 16, 2009. Collections began January 1, 2011. The City of Augusta bonded \$30.5 million in 2009 and \$22 million in 2010 of the estimated \$184.7 million SPLOST. The revenue sources are sales tax and earned interest and expenditures will be primarily for the following: \$10 million dollars was returned to the general fund as a reimbursement for the one time use of general fund balance for the purchase and demolition of the Gilbert Manor Housing projects by the Medical College of Georgia for the expansion of MCG's dental school; \$18 million for renovations to the municipal building; \$17 million to replace emergency services vehicles; and \$10.9 million to parks and recreation. Of the estimated \$184.7 million, \$124 million will go towards infrastructure and \$60.7 million will go towards non infrastructure projects.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

The Government reports the following major business-type funds:

The ***Water and Sewer System Fund*** is used to account for the activity of providing water and sewer services to the residents of the Government. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, operations, maintenance, financing and related debt service, and billing and collection.

The ***Augusta Regional Airport Fund*** accounts for the operations of Augusta Regional Airport at Bush Field, the only airport within the County from which service from the major airlines is available.

The ***Garbage Collection Fund*** is used to account for receipt and expenses related to the Government's garbage collection contract.

Additionally, the Government reports the following fund types:

The ***special revenue funds*** account for revenue sources that are legally restricted to expenditure for specific purposes.

The ***capital project funds*** are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The ***debt service funds*** are used to account for the accumulation of resources that are restricted and assigned for the payment of principal and interest on long-term debt.

The ***permanent fund*** accounts for the principal originally donated for the sale of perpetual care contracts at government-owned cemeteries after October 1, 1970. The principal must be maintained intact and invested.

The ***agency funds*** are used to account for the collection and disbursement of monies by the Government on behalf of other governments and individuals, such as cash bonds, traffic fines, support payments and ad valorem and property taxes.

The ***pension trust funds*** account for all activities of the Government's employees' pension plans.

The ***private purpose trust fund*** accounts for resources legally held in trust to finance awards for children attending Joseph R. Lamar School. The principal amount of the gift is to be maintained intact and invested. Investment earnings are used for the awards.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services provided. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### D. Cash and Cash Equivalents

The Government maintains a cash and investment pool in which the General Fund and all funds share. Each fund's portion of the pool is displayed on its respective balance sheet as cash and cash equivalents and includes non-pooled cash and investments separately held. Funds which have an excess of outstanding checks over bank balance have had these balances reclassified as a due to the General Fund for purposes of financial statement presentation. Interest income is allocated to each fund monthly based on its average monthly balance.

For the purposes of financial statement presentation, the Government considers all highly liquid investments (including funds held by the State Treasurer in the Georgia Fund 1 and restricted funds) purchased with an original maturity of three months or less, or with insignificant early withdrawal penalties, to be cash equivalents. Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard & Poor's criteria for AAAf rated money market funds. Exceptions include the Government's pension plans which classify only cash as cash equivalents in order to appropriately report investment activity. Cash equivalents include amounts in certificates of deposit, repurchase agreements, and U.S. Treasury bills, and are stated at cost which approximates market. All deposits are stated at cost plus accrued interest, which reasonably estimates fair value.

The state statutes authorize the Government to invest in obligations of the United States government and agencies thereof, general obligations of the State of Georgia or any of its political subdivisions, or banks and savings and loan associations to the extent that they are secured by the Federal Deposit Insurance Corporation. Additionally, the Government does not consider investments maintained in the Georgia Extended Asset Pool (GEAP) to be cash equivalents due to the nature of the investments and their maturities.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### E. Investments

Statutes authorize the Government to invest in U.S. Government obligations, U.S. Government agency obligations, State of Georgia obligations, and the Local Government Investment Pool of the State of Georgia (Georgia Fund 1). GEAP was created under the OCGA 36-83-8, but investments are restricted to those enumerated by OCGA 50-5A-7 and Chapter 17 of Title 50. GEAP is managed by the State of Georgia as a variable net asset value fund. GEAP is available to all public entities that have a minimum of \$1,000,000 in funds available for investment for a period of one (1) year or longer. The value of an investment in GEAP will fluctuate over time, and it is possible to lose money by investing in the fund. Investments in this fund are not guaranteed or insured by any bank, the FDIC, the State of Georgia or any other government agency.

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair values.

In accordance with Official Code of Georgia Annotated Public Retirement System Investment Authority Law, Public Retirement Systems may invest in 1) United States or Canadian corporations or their obligations, with limits as to the corporations' size and credit rating; 2) Repurchase and reverse repurchase agreements for direct obligations of the United States government and for obligations unconditionally guaranteed by agencies; 3) FDIC insured cash assets or deposits; 4) Bonds, notes, warrants, loans or other debt issued or guaranteed by the United States government; 5) Taxable bonds, notes, warrants or other securities issued and guaranteed by any state, the District of Columbia, Canada or any province in Canada; 6) Bonds, debentures, or other securities issued or insured or guaranteed by an agency, authority, unit, or corporate body created by the government of the United States of America; 7) Investment grade collateralized mortgage obligations; 8) Obligations issued, assumed or guaranteed by the International Bank for Reconstruction and Development or the International Financial Corporation; 9) Bonds, debentures, notes and other evidence of indebtedness issued, assumed, or guaranteed by any solvent institution existing under the laws of the United States of America or of Canada, or any state or province thereof, which are not in default and are secured to a certain level; 10) Secured and unsecured obligations issued by any solvent institution existing under the laws of the United States of America or of Canada, or any state or province thereof, bearing interest at a fixed rate, with mandatory principal and interest due at a specified time with additional limits; 11) Equipment trust obligations or interests in transportation equipment, wholly or in part within the United States of America, and the right to receive determinate portions or related income; 12) Loans that are secured by pledge or securities eligible for investment; 13) Purchase money mortgages or like securities received upon the sale or exchange of real property acquired; 14) Secured mortgages or mortgage participation, pass-through, conventional pass-through, trust certificate, or other similar securities with restrictions; 15) Land and buildings on such land used or acquired for use as a fund's office for the convenient transaction of its own business with restrictions; 16) Real property and equipment acquired under various circumstances.

Investments in the pension trust funds are reported at fair value. Cash deposits are reported at carrying amount which reasonably estimates fair value.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### F. Short-Term Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." Advances between funds, as reported in the fund financial statements, are offset by a fund balance nonspendable account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

#### G. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both governmental-wide and fund financial statements. Prepaid items are accounted for using the consumption method.

#### H. Inventory

Inventory in proprietary funds is valued at the lower of cost (first-in, first-out method) or market. Inventory in the General Fund, which is valued at cost (first-in, first-out method) consists of expendable supplies held for consumption. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

#### I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Government as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. General infrastructure assets acquired prior to January 1, 2001, consist of the streets network that were acquired or that received substantial improvements subsequent to January 1, 1980. The streets network is reported at estimated historical cost using deflated replacement cost. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend useful lives are expensed as incurred.

Major outlays for capital assets and major improvements are capitalized as projects are constructed. Interest incurred during the construction period of capital assets is included as part of the capitalized value of the assets constructed. Interest in the amount of \$505,638 was capitalized during the year ending December 31, 2015.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### I. Capital Assets (Continued)

Depreciation is provided on the straight-line method over the following estimated useful lives:

##### Primary Government

Land and site improvements	30 years
Vehicles	5 years
Furniture and fixtures	7 years
Machinery and equipment	10 years
Buildings and improvements	30 years
Water and Sewer systems	30 - 70 years
Infrastructure	30 years

#### J. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses in the year the debt is issued.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on the issue are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### K. Compensated Absences

The vacation policy of the Government provides for the accumulation of up to 43 days earned vacation leave with such leave being fully vested when earned. For the Government's government-wide financial statements and proprietary fund financial statements, an expense and a liability for compensated absences and the salary-related payments are recorded as leave is earned. The Government has assumed a first-in, first-out method of using accumulated compensated time. The portion of that time that is estimated to be used in the next year has been designated as a current liability in the government-wide financial statements.

No accrual has been established for accumulated sick leave of employees since it is the Government's policy to record the cost of sick leave only when it is used.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### L. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position and the governmental funds balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The Government has two items that qualify for reporting in this category. The *deferred charge on refunding* is reported in the government-wide and proprietary fund statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt. The *contributions* made by the Government to their pension plans before year end but subsequent to the measurement date of the Government's net pension liability are reported as deferred outflows of resources.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of fund balance that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Government has six types of items that qualify for reporting in this category. *Unavailable revenue* is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and other receivables, and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. *Effective hedge* is reported in the government-wide and internal service fund statements of net position. The effective hedge results from the change in market value of a swap agreement related to the certificates of participation. The amount is deferred and will mature on June 1, 2028, at the same time as the certificates of participation. *Deferred charge on refunding* is reported in the government-wide and proprietary fund statements. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt. The other three items relate to the Government's defined benefit pension plans and are reported in the government-wide and proprietary fund Statements of Net Position, under the heading Pension. Experience differences result from periodic studies by the Government's actuary, which adjust the net pension liability for actual experience for certain trend information that was previously assumed. These experience differences are recorded as deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. Changes in the actuarial assumptions which adjust the net pension liability are also recorded as deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period.

#### M. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### M. Fund Equity (Continued)

**Fund Balance** – Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the Government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- **Nonspendable** – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- **Restricted** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Government or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- **Committed** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Augusta-Richmond County Commission through the adoption of a resolution. Only the Augusta-Richmond County Commission may modify or rescind the commitment or through resolution.
- **Assigned** – Fund balances are reported as assigned when amounts are constrained by the Government's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the Government has authorized the Administrator and Finance Director to assign fund balances.
- **Unassigned** – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The Government reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balances may be reported in all funds.

**Flow Assumptions** – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Government's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Government's policy to use fund balance in the following order: 1) committed, 2) assigned, and 3) unassigned.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### M. Fund Equity (Continued)

**Net Position** – Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the Government has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The Government applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### N. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from these estimates.

### NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

#### A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that “certain long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this difference are as follows:

Accrued interest payable	\$ (441,517)
Bonds payable	(58,420,000)
Unamortized premium on bonds	(2,220,632)
Compensated absences	(5,506,546)
Claims and judgements payable	(9,005,858)
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u>\$ (75,594,553)</u>

## NOTES TO FINANCIAL STATEMENTS

### NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

#### B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense.” The details of this difference are as follows:

Capital outlay	\$ 69,111,955
Depreciation expense	<u>(12,382,884)</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u>\$ 56,729,071</u>

Another element of that reconciliation states that "the issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position." The details of this difference are as follows:

Issuance of revenue bonds	\$ (11,840,000)
Premium on bond issuance	54,902
Amortization of bond premiums	491,549
Principal payments	
Bonds payable	<u>25,075,000</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u>\$ 13,781,451</u>

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

#### B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of that reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this difference are as follows:

Accrued interest	\$ 204,990
Compensated absences	(133,926)
Claims and judgements	884,059
Net pension liability	2,704,803
Net other postemployment benefit liability	<u>(4,095,851)</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u><u>\$ (435,925)</u></u>

### NOTE 3. LEGAL COMPLIANCE - BUDGETS

#### A. Budgets and Budgetary Accounting

The Government generally follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Budgetary hearings are held in August to discuss departmental budgets.
2. The Administrator presents the tentative budget to the Commission in October.
3. The permanent budget is legally adopted by the Commission prior to the start of the next year.
4. All budget revisions or changes must be approved as required by Georgia law and administrative policy. Transfer of budgeted amounts within operating categories within departments can be requested by department directors. Transfer of budget amounts involving capital outlay or salaries require approval of the Augusta-Richmond County Commission. The Augusta-Richmond County Commission must approve revisions that alter the total expenditures of any department or fund. Budgets for capital items may be re-appropriated in the ensuing year's budget. Departments may request for other budget items to be re-appropriated in the form of a budget adjustment, contingent upon the Commission's approval.
5. Formal budgetary integration is employed as a management control device during the year for the General, Special Revenue, Debt Service and Capital Projects Funds.
6. Budgets for these funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 3. LEGAL COMPLIANCE – BUDGETS (CONTINUED)

#### A. Budgets and Budgetary Accounting (Continued)

Budget information for expenditures represents the operating budget (as amended) as approved by the Augusta-Richmond County Commission.

#### B. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration for the General Fund, Special Revenue Funds, Debt Service and Capital Projects Funds. Encumbrances are recorded when purchase orders are issued, but are not considered expenditures until liabilities for payments are incurred. Encumbrances for outstanding purchase orders do not lapse at year end.

#### C. Excess Expenditures Over Appropriations

For the year ended December 31, 2015, the following special revenue funds had excess of actual expenditures over appropriations, which were funded by available fund balance:

	<u>Excess</u>
<b>Urban Services District</b>	
General government	\$ (293,861)
<b>Fire Protection Fund</b>	
Public safety	(251,036)

## NOTES TO FINANCIAL STATEMENTS

### NOTE 4. CASH AND INVESTMENTS

Total deposits and investments as of December 31, 2015, are summarized as follows:

Amounts as presented on the entity-wide statement of net position:

Cash and cash equivalents	\$ 182,883,029
Investments	69,501,043
Restricted cash and cash equivalents	108,607,943
Restricted investments	2,284,724

Amounts as presented on the fiduciary statement of net position:

Cash and cash equivalents - Agency Fund	9,185,409
Cash and cash equivalents - Pension Trust Funds	12,000,107
Investments - Pension Trust Funds	58,351,699
Cash and cash equivalents - Private-purpose Trust Fund	2,041
Investments - Private-purpose Trust Fund	5,000
Total	\$ 442,820,995

Cash deposited with financial institutions	\$ 312,678,529
Investments held at financial institutions	117,078,573
Investments held by the State of Georgia	13,063,893
	\$ 442,820,995

As of December 31, 2015, the Government held the following investments (in thousands):

<u>Investment Type</u>	<u>Fair Value</u>	<u>Investment Maturities (in Years)</u>							<u>Rating</u>	
		<u>Less than 1</u>	<u>1 - 5</u>	<u>6 - 10</u>	<u>11 - 15</u>	<u>16 - 20</u>	<u>21 - 25</u>	<u>26 - 30</u>		
Entity wide:										
Georgia Extended Asset Pool	\$ 13,064	\$ 13,064	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	AA+f

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 4. CASH AND INVESTMENTS (CONTINUED)

**Credit Risk.** State statutes authorize the Government to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

**Interest Rate Risk.** The Government's investment policy states that the Government will structure its portfolio to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities prior to their maturity. The policy also emphasizes the purchase of shorter term or more liquid investments. The policy does not place formal limits on investment maturities.

**Custodial Credit Risk – Deposits.** The Government does not have a formal custodial credit risk policy. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of December 31, 2015, the Government did not have any balances exposed to custodial credit risk as uninsured and uncollateralized as defined by GASB pronouncements.

**Custodial Credit Risk – Investments.** Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State statutes require all investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities.

**Custodial Credit Risk – Deposits – Component Units.** As of June 30, 2015, the Department of Health's bank balance of \$3,979,959 was exposed to custodial credit risk as follows: \$3,120,910 was uninsured and collateralized with securities held by the financial institution. As of December 31, 2015, the Downtown Development Authority did not have any balances exposed to custodial credit risk as uninsured and uncollateralized as defined by GASB pronouncements. As of December 31, 2015, the Canal Authority's bank balance of \$1,934,457 was exposed to custodial credit risk as follows: \$71,483 was uninsured and uncollateralized; \$1,112,974 was uninsured and collateralized with securities held by the financial institution, by its trust department or agency, but not in the Canal Authority's name. As of June 30, 2015, the Coliseum Authority's bank balance of \$3,204,373 was exposed to custodial credit risk as follows: \$2,157,450 was uninsured and collateralized by the financial institution in the Coliseum Authority's name and \$296,923 was uninsured and collateralized with securities held by the financial institution's trust department or agent, but not in the Coliseum Authority's name.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 4. CASH AND INVESTMENTS (CONTINUED)

**General Retirement and 1945 Pension Plans – Investments.** The Plans' policy in regard to investments, including the allocation of invested assets, is established and may be amended by the Retirement Plans Management Committee by a majority vote of its members. The Plan is authorized to invest in obligations of the United States Treasury or its agencies and instrumentalities, collateralized mortgage obligations, asset and mortgage backed securities, taxable bonds that are obligations of any state and its agencies, instrumentalities, and political subdivisions, and in certificates of deposit of national or state banks that are fully insured or collateralized by United States obligations. Additionally, the Plan is authorized to invest in common stocks, money market instruments, and corporate bonds and debentures, which are not in default as to principal and interest.

The Plans' investment policy adopts the following asset allocation mix to achieve the lowest level of risk for the Plan: Equity Securities 75% at market value, and Fixed Income Securities 25%.

**General Retirement and 1945 Pension Plans – Credit and Interest Rate Risk** – It is the Plan's policy to limit investments in common or preferred stock of a corporation to those corporations listed on one or more of the recognized national stock exchanges in the United States of America, or those traded on the NASDAQ National Market. The policy also limits stock investments to not more than 5 percent of the assets of any fund in common or preferred stock of any one issuing corporation. Domestic bonds are limited to those with ratings that meet or exceed investment grade as defined by Moody's, S&P, or Fitch. U.S. Government Treasuries and Agency bonds are not classified by credit quality. Corporate equities, international equities, and mutual funds invested in equities are also not classified by credit quality.

As of December 31, 2015, the General Retirement Plan and the 1945 Plan had \$53,968,733 and \$4,382,966, respectively, invested in the following types of investments as categorized by credit and interest rate risk:

Investment	<u>Fair Value</u>	<u>Credit Quality</u>	<u>Weighted Average Maturity (years)</u>
Common stock	\$ 50,441,387	N/A	N/A
Government securities	4,333,833	AAA	9.61
Mortgage backed securities	3,373,482	AA+	27.48
Corporate bonds	100,000	AA+	0.02
Corporate bonds	102,997	AA	0.27
	<u>\$ 58,351,699</u>		

## NOTES TO FINANCIAL STATEMENTS

### NOTE 4. CASH AND INVESTMENTS (CONTINUED)

**General Retirement and 1945 Pension Plans – Concentration** - On December 31, 2015, the Plans' did not have debt or equity investments in any one organization, other than those issued by the U.S. Government, which represented greater than 5% of plan fiduciary net position.

**General Retirement and 1945 Pension Plans – Rate of Return** – For the year ended December 31, 2015, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense for the General Retirement Plan and the 1945 Plan, was (1.2) and (1.8) percent, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

### NOTE 5. RECEIVABLES

Receivables consisted of the following at December 31, 2015:

	<u>General</u>	<u>Special Sales Tax Phase VI</u>	<u>Nonmajor Governmental Funds</u>	<u>Water and Sewer System</u>
Receivables:				
Taxes	\$ 4,962,814	\$ 3,509,535	\$ 2,088,697	\$ -

## NOTES TO FINANCIAL STATEMENTS

---

### **NOTE 5. RECEIVABLES (CONTINUED)**

Property taxes attached as an enforceable lien on property as of February 17, 2016. Property taxes were levied on September 5, 2015, and payable on or before November 15, 2015. The Government bills and collects its own property taxes. Property taxes levied for 2015 are recorded as receivables, net of estimated uncollectibles. The net receivables collected during the year ended December 31, 2015, and collected by February 29, 2016, are recognized as revenues in the year ended December 31, 2015. Net receivables estimated to be collected subsequent to February 29, 2016, are recorded as revenue when received. Prior year levies were recorded using substantially the same principles, and remaining receivables are reevaluated annually.

Notes receivable of the primary government consist of the Department of Housing and Urban Development's Housing Rehabilitation Program loans to individuals and owners. Financing has been provided by various federal and state grants.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 6. CAPITAL ASSETS

Total bonds payable	<u>536,741,436</u>	<u>11,473,825</u>	<u>(32,195,006)</u>	<u>516,020,255</u>	<u>11,475,000</u>
Notes payable	24,612,564	-	(3,546,719)	21,065,845	3,518,783
Capital leases	3,911,198	694,456	(1,195,989)	3,409,665	1,137,001
Compensated absences	1,064,473	1,007,960	(988,060)	1,084,373	1,084,373
Net pension liability	7,214,522	4,882,897	(5,361,128)	6,736,291	-
Closure/postclosure liability	<u>17,933,213</u>	<u>3,108,286</u>	<u>-</u>	<u>21,041,499</u>	<u>-</u>
Business-type activities long-term liabilities	<u>\$ 591,477,406</u>	<u>\$ 21,167,424</u>	<u>\$ (43,286,902)</u>	<u>\$ 569,357,928</u>	<u>\$ 17,215,157</u>

For governmental activities, compensated absences and claims and judgments are generally liquidated by the General Fund. For business-type activities, compensated absences are liquidated by the related Proprietary Fund.

The beginning balance of long term obligations has been adjusted to reflect the recording of the net pension liability. See Note 19 for additional information.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Governmental Activities Debt

The Government issues bonds to provide funds for various projects. The bonds outstanding as of December 31, 2015, are as follows:

	<b>Interest Rate</b>	<b>Balance at December 31, 2015</b>
Augusta-Richmond County Coliseum Authority, Series 2010	2% to 5%	\$ 18,080,000
Municipal Building Renovation Project, Series 2014	2% to 5%	28,500,000
Laney Walker and Bethlehem Project, Series 2015	.65% to 2%	11,840,000
		58,420,000
Less: Unamortized discounts		(54,902)
Add: Unamortized premium		2,275,534
		\$ 60,640,632

Descriptions of the bonds issued are provided below.

##### **Revenue Bonds**

In September 2010, the Coliseum Authority issued \$22,120,000 of Augusta-Richmond County Coliseum Authority (Georgia) Revenue Bonds (Coliseum and TEE Center Project), Series 2010 (the "Series 2010 Bonds to (1) finance certain capital improvements to the existing multi-use coliseum and civic center-type facility, the Augusta Entertainment Center Complex, to be owned and operated by the Coliseum Authority pursuant to an Intergovernmental Service Agreement between the Coliseum Authority and the Government, and (2) construct a new multi-use coliseum and civic center-type facility to be known as the Augusta Trade, Exhibition, and Event Center (TEE Center) to be sold by the Coliseum Authority to the Government pursuant to an Agreement of Sale. The Coliseum Authority will use \$5,000,000 of the proceeds from the sales of the Series 2010 Bonds for capital improvements of the Augusta Entertainment Center Complex. The remainder of the proceeds will be used to construct the TEE Center. The Series 2010 Bonds are special limited obligation debt of the Coliseum Authority payable solely from the hotel/motel tax payments made by the Government to the Coliseum Authority under the Intergovernmental Service Agreement and the Agreement of Sale (the Agreements). The Series 2010 Bond debt, its proceeds and the corresponding capital improvements to the Augusta Entertainment Center Complex and the TEE Center construction are reflected on the Government's financial statements. Under the terms of the Agreements, the Coliseum Authority will acquire the TEE Center site and authorize the Government to, on its behalf, construct and install the TEE Center Project and acquire equipment in the name of the Coliseum Authority. The real property and other required property interest for the construction of the improvements has been secured subject to revised deeds and related instruments being prepared based on "as built" surveys. Upon the completion of the surveys, final documents will be prepared and the premises will be conveyed to the Coliseum Authority as required by the Agreements. Upon completion of the TEE Center, the Coliseum Authority will sell the TEE Center to the Government for the entire balance of the Series 2010 Bond Obligation.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Governmental Activities Debt (Continued)

##### Revenue Bonds (Continued)

In August of 2014, the Urban Redevelopment Agency issued Revenue Bonds (Municipal Building Renovation Project, Series 2014). The proceeds of these bonds were used to finance the construction, renovation and expansion of various municipal buildings. Interest on the bonds is variable from 2% to 5%. Interest is payable semiannually on April 1 and October 1 of each year with principal payable annually beginning October 1, 2018, ranging from \$1,270,000 to \$2,125,000 through October 1, 2034.

In September of 2015, the Urban Redevelopment Agency issued Revenue Bonds (Laney Walker and Bethlehem Project, Series 2015). The proceeds of these bonds were used to refund the Laney Walker and Bethlehem Project, Series 2010 bonds and finance the costs of certain urban redevelopment projects. Interest on the bonds is variable from .65% to 2%. Interest is payable semiannually on April 1 and October 1 of each year with principal payable annually beginning October 1, 2016 ranging from \$355,000 to \$10,390,000 through October 1, 2020.

Annual debt service requirements to maturity for the revenue bonds as of December 31, 2015, are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Year ending December 31,			
2016	\$ 1,245,000	\$ 1,991,802	\$ 3,236,802
2017	1,275,000	1,962,169	3,237,169
2018	2,575,000	1,931,119	4,506,119
2019	2,670,000	1,837,609	4,507,609
2020	12,755,000	1,765,719	14,520,719
2021 - 2025	13,485,000	6,136,145	19,621,145
2026 - 2030	16,300,000	3,274,995	19,574,995
2031 - 2034	8,115,000	667,245	8,782,245
	<u>\$ 58,420,000</u>	<u>\$ 19,566,803</u>	<u>\$ 77,986,803</u>

##### Certificates of Participation

In June 1998, the Government entered into a lease pool agreement with the Georgia Municipal Association (the "Association"). The funding of the lease pool was provided by the issuance of \$150,126,000 Certificates of Participation by the Association. The Association passed the net proceeds through to the participating municipalities with the Government's participation totaling \$16,888,000. The lease pool agreement with the Association provides that the Government owns their portion of the assets invested by the pool and is responsible for the payment of their portion of the principal and interest of the Certificates of Participation. The principal is due in a lump sum payment on June 1, 2028. Interest is payable at a rate of 4.75% each year. The Government draws from the investment to lease equipment from the Association. The lease pool agreement requires the Government to make lease payments back into its investment account to fund the principal and interest requirements of the 1998 GMA Certificates of Participation.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Governmental Activities Debt (Continued)

##### **Certificates of Participation (Continued)**

Annual debt service requirements are as follows:

Year ending December 31,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$ -	\$ 802,180	\$ 802,180
2017	-	802,180	802,180
2018	-	802,180	802,180
2019	-	802,180	802,180
2020	-	802,180	802,180
2021 - 2025	-	4,010,900	4,010,900
2026 - 2028	16,888,000	2,406,540	19,294,540
	<u>\$ 16,888,000</u>	<u>\$ 10,428,340</u>	<u>\$ 27,316,340</u>

As part of the issuance of the certificates of participation, the Government entered into an interest rate swap agreement. Under the Swap Agreement, the Government is required to pay (i) a semiannual (and beginning July 1, 2003, a monthly) floating rate of interest based on the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index (plus a 31 basis points spread) to, or on behalf of, the Swap Counterparty (the "Swap Payment"); and the Swap Counterparty will pay to, or on behalf of, the Government a semi-annual payment based on a rate equal to the fixed rate on the certificates of participation (4.75%) times a notional amount specified in the Swap Agreement, but generally equal to the outstanding unpaid principal portion of such Contract, less the amount originally deposited in the Reserve Fund relating to the Contract, and (ii) a one-time Swap Premium to be paid on the effective date of the Swap Agreement. The semiannual payments from the Swap Counterparty with respect to the Government are structured, and expected to be sufficient to make all interest payments due under the Contract, and related distributions of interest on the Certificates. Monthly interest payments between the Government, the holders of the Certificates of Participation, and the Swap Counterparty can be made in net settlement form as part of this agreement. Under the Swap Agreement, the Government's obligation to pay floating payments to the Swap Counterparty in any calendar year may not exceed an amount equal to the SIFMA Municipal Swap Index plus 5% to be determined on the first business day of December in the preceding year. This agreement matures on June 1, 2028, at the same time of the certificates of participation. This derivative qualifies as a fair market hedge.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Governmental Activities Debt (Continued)

##### **Certificates of Participation (Continued)**

In the unlikely event that the Swap Counterparty becomes insolvent, or fails to make payments as specified in the Swap Agreement, the Government would be exposed to credit risk in the amount of the Swap's fair value. To minimize this risk, the Government executed this agreement with counterparties of appropriate credit strength, with the counterparty being rated Aa3 by Moody's. At December 31, 2015, the floating rate being paid by the Government is .32% and the market value of this agreement is \$5,164,329, an increase of \$365,748 from the market value at the end of the previous year. The market value of the hedge was determined using settlement prices at the end of the day on December 31, 2015, based on the derivative contract. This market value is reported as an asset in GMA Leases Fund in the statement of net position. As this derivative is an effective hedge, qualifying for hedge accounting, the inflow from the hedge (any change in fair value from inception until year end) is deferred and reported as deferred inflow of resources in the statement of net position.

##### Business-type Activities Debt

##### **Revenue Bonds**

The Government issues bonds to provide funds for various projects. The revenue bonds outstanding as of December 31, 2015, are as follows:

	<b>Interest Rate</b>	<b>Balance at December 31, 2015</b>
Water and Sewer, Series 2007	4.00% to 5.00%	\$ 142,549,999
Water and Sewer, Series 2012	3.00% to 5.00%	138,830,000
Water and Sewer, Series 2013	0.70% to 4.85%	20,325,000
Water and Sewer, Series 2014	3.00% to 4.50%	168,360,000
Airport, Series 2015	5.00%	10,525,000
Waste Management, Series 2004	3.00% to 4.00%	820,000

---

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Business-type Activities Debt (Continued)

##### Revenue Bonds (Continued)

Descriptions of the bonds issued are provided below.

During the year ended December 31, 2007, the Government issued \$177,010,000 in Series 2007 Water and Sewerage Revenue Bonds. A portion of the proceeds from the sale of these bonds was used to refund all of the former Series 1996 and 1997 Water and Sewerage Revenue Bonds in the amount of \$56,875,000. The remaining portion of the bond proceeds of \$120,135,000 was used to advance refund a portion of the Series 2000 and 2002 Water and Sewerage Revenue Bonds. The current refunding resulted in a difference between the reacquisition price and the net carrying amount of the 1996 and 1997 Bonds of approximately \$4,300,000. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to operations through the year 2030 using the effective-interest method. The refunding decreased the total debt service payments over the next 21 years by approximately \$5,600,000 and produced an economic gain of approximately \$3,700,000. The advance refunding of the 2000 and 2002 Bonds resulted in a difference between the reacquisition price and the net carrying amount of the old debt of approximately \$3,200,000. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to interest expense through the year 2030 using the effective-interest method. The refunding decreased the total debt service payments over the next 23 years by approximately \$7,200,000 and produced an economic gain of approximately \$4,600,000. Proceeds of approximately \$126,793,000 from the defeased issues were used to purchase U.S. Government Securities. Those securities were deposited in an irrevocable trust fund with an escrow agency to provide for all future debt service payments on the above mentioned bonds. The bonds are due in annual installments of \$2,060,000 to \$12,260,000 plus interest at 4.0% to 5.0% through October 2030. The current outstanding amount of the debt was \$151,284,999 as of December 31, 2014.

During the year ended December 31, 2012, the Government issued \$138,830,000 in Series 2012 Water and Sewerage Revenue Refunding and Improvement Bonds for the purposes of (1) refunding all of the Series 2002 Water and Sewerage Revenue Bonds, (2) financing the costs of making additions, extensions, and improvements to the water and sewer system, (3) funding a debt service reserve account for the 2012 Series Bonds, and (4) financing the costs of issuing the 2012 Series Bonds. The advance refunding of the 2002 series resulted in a difference between the reacquisition price and the net carrying amount of the old debt of approximately \$600,000. The difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to increase expenses through the year 2033 using the effective-interest method. The refunding decreased the total debt service payments over the next 11 years by approximately \$78 million and produced an economic gain of approximately \$40 million. The bonds are due in annual installments of \$4,155,000 to \$20,095,000 plus interest at 3.0% to 5.0% through October 2042.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Business-type Activities Debt (Continued)

##### Revenue Bonds (Continued)

During the year ended December 31, 2013, the Government issued \$22,070,000 in Series 2013 Water and Sewerage Revenue Bonds for the purposes of (1) funding, in part, the debt service reserve account for the Prior Lien Bonds, (2) funding a debt service reserve for the Series 2013 Bonds and (3) paying the costs of issuance of the Series 2013 Bonds. Principal payments are due in annual installments commencing on October 1, 2014 through 2033. Interest payments are due in semi-annual installments on each April 1 and October 1 at varying rates between 0.7% and 4.85%.

During the year ended December 31, 2014, the Government issued \$169,180,000 in Series 2014 Water and Sewerage Revenue Refunding and Improvement Bonds for the purposes of (1) refunding all of the Series 2004 Water and Sewerage Revenue Bonds, (2) financing the costs of making additions, extensions, and improvements to the water and sewer system, (3) funding a debt service reserve account for the 2014 Series Bonds, and (4) financing the costs of issuing the 2014 Series Bonds. The advance refunding of the 2004 series resulted in a difference between the reacquisition price and the net carrying amount of the old debt of approximately \$4.9 million. The difference, reported in the accompanying financial statements as a deferred inflow of resources, is being charged to increase expenses through the year 2039 using the effective-interest method. The refunding decreased the total debt service payments over the next 11 years by approximately \$66.3 million and produced an economic gain of approximately \$33.1 million. The bonds are due in annual installments of \$820,000 to \$24,635,000 plus interest at 3.0% to 4.5% through October 2039.

The Airport General Revenue Refunding Bonds Series 2015A and 2015B are payable through 2035 primarily from Passenger Facility Charge No. 99-01-C-AGS approved by the Federal Aviation Administration in 2004. Should the proceeds of the Passenger Facility Charge not be sufficient to pay when due interest and principal on Series 2015A and 2015B bonds, the interest and principal shortfall will be paid from Airport Net General Revenues, derived by the Government from the ownership and operation of the Airport, remaining after the payment of expenses of operating, maintaining, and repairing the Airport ("Net General Revenues"), and those passenger facility charge revenues that are allocable to the 2005 Project ("PFC Revenues").

The Series 2015A bonds are payable in semi-annually interest only payments of 5.00% beginning January 1, 2016 and principal payable annually beginning January 2026 ranging from \$530,000 to \$825,000 through January 1, 2035. The Series 2015B bonds are payable in semi-annually interest only payments of 5.00% beginning January 1, 2016 and principal payable annually beginning January 2017 ranging from \$350,000 to \$515,000 through January 1, 2025.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Business-type Activities Debt (Continued)

##### Revenue Bonds (Continued)

Pursuant to the Bond Resolution, the Augusta Regional Airport is subject to meeting certain financial covenants related to the Airport Revenue Bonds. The financial covenants include requirements to (i) provide for 100 percent of the Expenses of Operation and Maintenance and for the accumulation in the Operation and Maintenance Reserve Fund of the Operating Reserve; and (ii) produce Net General Revenues, together with Other Available Moneys, in each year which will (a) equal at least 125 percent of the Debt Service Requirement on all General Revenue Bonds then outstanding for the sinking fund year ending on the next January 1 and at least 100 percent of the debt service or other amounts payable on all Subordinate Bonds and Other Airport Obligations payable from Net General Revenues then outstanding for the year of computation, (b) enable the Aviation Commission to make all required payments, if any, into the Debt Service Reserve Account, the PFC Debt Service Reserve Account, the Rebate Fund, the Renewal and Replacement Fund and on any Contract or Other Airport Obligation, (c) enable the Aviation Commission to accumulate an amount to be held in the Capital Improvement Fund, which in the judgment of the Aviation Commission is adequate to meet the costs of major renewals, replacements, repairs, additions, betterments, and improvements to the Airport, necessary to keep the same in good operating condition or as is required by any governmental agency having jurisdiction over the Airport, and (d) remedy all deficiencies in required payments from the Revenue Fund from prior years. As of December 31, 2015 the Airport was in compliance with all covenants.

During the year ended December 31, 2004, the Government issued \$11,475,000 in Series 2004 Solid Waste Management Authority of Augusta Revenue Bonds for the purpose of paying all or a portion of the costs of improving and equipping the Government's municipal solid waste landfill. The bonds are due in annual installments of \$170,000 to \$1,700,000, starting December 1, 2005 through December 1, 2019, plus interest of 3.0% to 4.0% payable semi-annually on June 1 and December 1, beginning December 1, 2004. The Government intends to make its payments under the contract from its portion of the revenues generated by a direct annual ad valorem property tax; however, the Government's portion of the revenue from the taxes is not pledged to such payments or to secure the payment of the bonds.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Business-type Activities Debt (Continued)

##### Revenue Bonds (Continued)

During the year ended December 31, 2010, the Government issued \$9,165,000 in Series 2010 Solid Waste Management Authority of Augusta Revenue Bonds for the purpose of paying all or a portion of the costs of improvements to the Government's solid waste and recycling facility, including improvements to the gas collection and control system and paying the cost of issuing the Series 2010 Bonds. Payments are due in annual installments of \$250,000 to \$660,000 starting October 1, 2011 through October 1, 2030, plus interest from 3.0% to 4.5% payable semi-annually on April 1 and October 1, beginning April 1, 2011. The Government intends to make its payments under the contract from its portion of the revenues generated by a direct annual ad valorem property tax; however, the Government's portion of the revenue from the taxes is not pledged to such payments or to secure the payment of the bonds.

Annual debt service requirements to maturity for the revenue bonds as of December 31, 2015, are as follows:

Year ending December 31,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$ 11,475,000	\$ 21,228,655	\$ 32,703,655

## NOTES TO FINANCIAL STATEMENTS

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Business-type Activities Debt (Continued)

##### Notes payable

The Government has incurred debt to the U.S. Army – Fort Gordon Garrison Command for the purchase of the water and sewer system and to the Georgia Environmental Finance Authority for improvements to the water and sewer system. These notes are as follows at December 31, 2015:

<u>Purpose</u>	<u>Original Amount</u>	<u>Interest Rate</u>	<u>Due Date</u>	<u>December 31, 2015</u>
Fort Gordon asset purchase	\$ 19,196,880	5.11%	2018	\$ 5,209,538
Water and sewer improvements	5,143,272	4.00%	2016	186,535
Water and sewer improvements	6,553,217	4.00%	2019	1,655,377
Water and sewer improvements	8,040,345	3.00%	2031	6,654,267
Water and sewer improvements	8,250,814	3.00%	2035	7,360,128
				<u>21,065,845</u>
			Less current maturities	<u>(3,518,783)</u>
				<u>\$ 17,547,062</u>

Notes payable debt service requirements to maturity are as follows as of December 31, 2015:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Year ending December 31,			
2016	\$ 3,518,783	\$ 688,306	\$ 4,207,089
2017	3,486,993	530,760	4,017,753
2018	1,775,501	403,718	2,179,219
2019	1,087,401	354,980	1,442,381
2020	758,665	325,540	1,084,205
2021 - 2025	4,153,818	1,267,205	5,421,023
2026 - 2030	4,825,145	595,878	5,421,023
2031 - 2033	1,459,539	42,331	1,501,870
	<u>\$ 21,065,845</u>	<u>\$ 4,208,718</u>	<u>\$ 25,274,563</u>

## NOTES TO FINANCIAL STATEMENTS

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Business-type Activities Debt (Continued)

##### Capital Leases

The Government has entered into lease agreements as lessee for financing the acquisition of various equipment. The lease agreements qualify as capital leases for accounting purposes (titles transfer at the end of the lease terms) and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception. The following is an analysis of leased assets under capital leases as of December 31, 2015:

	<b>Business-type Activities</b>
Equipment	\$ 9,743,203
Less: Accumulated depreciation	(6,518,306)
	\$ 3,224,897

The above includes current year depreciation expense of leased assets under capital lease of \$1,024,939.

The following is a schedule of future minimum lease payments together with the present value of net minimum lease payments as of December 31, 2015:

	<b>Business-type Activities</b>
Fiscal year ending December 31,	
2016	\$ 1,241,102
2017	1,378,885
2018	683,792
2019	296,148
Total minimum lease payments	3,599,927
Less amount representing interest	(190,262)
Present value of future minimum lease payments	\$ 3,409,665

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### A. Primary Government (Continued)

##### Business-type Activities Debt (Continued)

##### Landfill Postclosure Care Cost

State and Federal laws and regulations require the Government to place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for 30 years after closure. In addition to operating expenses related to current activities of the landfill, an expense provision and related liability are being recognized based on the future closure and postclosure care costs that will be incurred near or after the date the landfill no longer accepts waste. The recognition of these landfill closure and postclosure care costs is based on the amount of the landfill used during the year. The estimated liability for landfill closure and postclosure care costs has a balance of \$21,041,499 as of December 31, 2015, which is based on 92.95% usage (filled) of Cell II C and 7.87% usage (filled) of Cell III, which are operating currently, and 100% usage (filled) of Cells II A and II B. This liability is recorded in the Waste Management Enterprise Fund. It is estimated that an additional \$8,076,427 be recognized as closure and postclosure care expenses between the date of the statement of net position and the date the landfills are expected to be filled to capacity, which is in 2016 and 2140, respectively. The estimated total current cost of the landfill closure and postclosure care, \$29,117,926, is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of December 31, 2015. However, the actual cost of closure and postclosure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

The Government expects to finance the costs for the estimated landfill closure and postclosure care costs as they become due during the coming 30 years through the regular operations of the Government.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 7. LONG-TERM DEBT (CONTINUED)

#### B. Discretely Presented Component Units

##### Richmond County Department of Health

Long-term debt activity for the Richmond County Department of Health for the fiscal year ended June 30, 2015, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Capital leases	\$ 179,620	\$ -	\$ (53,848)	\$ 125,772	\$ 57,741
Net pension liability	9,646,526	-	(1,866,994)	7,779,532	-
Compensated absences	473,577	344,206	(355,578)	462,205	184,882
Department of Health long-term liabilities	<u>\$ 10,299,723</u>	<u>\$ 344,206</u>	<u>\$ (2,276,420)</u>	<u>\$ 8,367,509</u>	<u>\$ 242,623</u>

#### Capital Leases

The Department of Health has entered into a long-term lease agreement for a building. The lease agreement qualifies as a capital lease for accounting purposes (title transfer at the end of the lease term) and, therefore, has been recorded at the present value of the future minimum lease payments as of the date of its inception. The following is an analysis of the leased asset under capital lease as of June 30, 2015:

Buildings	\$ 600,000
Less: Accumulated depreciation	(133,125)
	<u>\$ 466,875</u>

The above includes current year depreciation expense of leased assets under capital lease of \$11,250.

The following is a schedule of future minimum lease payments together with the present value of net minimum lease payments as of June 30, 2015:

2016	\$ 64,716
2017	64,716
2018	17,024
Total minimum lease payments	<u>146,456</u>
Less amount representing interest	(20,684)
Present value of future minimum lease payments	<u>\$ 125,772</u>

## NOTES TO FINANCIAL STATEMENTS

### NOTE 8. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of December 31, 2015, is as follows:

**Due to/from other funds:**

Receivable Fund	Payable Fund	Amount
General	Nonmajor Governmental Funds	\$ 245,366
General	Water and Sewer System	15,121,205
General	Augusta Regional Airport	1,462,133
General	Nonmajor Enterprise Funds	52,150
Augusta Regional Airport	General Fund	22,656
Garbage Collection	Nonmajor Enterprise Funds	26,034
Nonmajor Enterprise Funds	Nonmajor Governmental Funds	9,334,624
Internal Service Fund - GMA Leases	Nonmajor Governmental Funds	728,336
Internal Service Fund - GMA Leases	Water and Sewer System	313,539
Internal Service Fund - GMA Leases	Augusta Regional Airport	149,171
Internal Service Fund - GMA Leases	Garbage Collection	136,708
Internal Service Fund - GMA Leases	Nonmajor Enterprise Funds	347,631
		<u>\$ 27,939,553</u>

**Advances to/from other funds:**

Receivable Fund	Payable Fund	Amount
General Fund	Nonmajor Enterprise Funds	\$ 4,690,703
Internal Service Fund - GMA Leases	Water and Sewer System	234,077
Internal Service Fund - GMA Leases	Augusta Regional Airport	496,494
Internal Service Fund - GMA Leases	Nonmajor Enterprise Funds	646,181
		<u>\$ 6,067,455</u>

**Due to/from component units:**

Receivable Entity	Payable Entity	Amount
General Fund	Augusta Canal Authority	\$ 56,613

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. Advances to/from other funds represent amounts not expected to be repaid within one year from the date of the financial statements.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 8. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (CONTINUED)

The composition of interfund transfers during the year ended December 31, 2015, were as follows:

Transfer To	Transfer From					Total
	General	Special Sales Tax Phase VI	Water and Sewer System	Garbage Collection	Nonmajor Governmental Funds	
General	\$ -	\$ -	\$ 41,280	\$ 75,930	\$ 2,201,866	\$ 2,319,076
Garbage Collection	-	-	-	-	1,148,160	1,148,160
Nonmajor Governmental Funds	2,668,732	18,088,000	-	-	11,802,897	32,559,629
Nonmajor Enterprise Funds	2,705,433	125,000	-	-	-	2,830,433
Total	<u>\$ 5,374,165</u>	<u>\$ 18,213,000</u>	<u>\$ 41,280</u>	<u>\$ 75,930</u>	<u>\$ 15,152,923</u>	<u>\$ 38,857,298</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that the statute or budget requires to expend them, (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and (3) to transfer funds from Special Sales Tax Phase VI Fund to debt service funds to pay obligations approved in resolution.

### NOTE 9. PENSION PLANS

#### A. Primary Government

##### 1945 Plan

##### Plan Description

*Plan administration.* The 1945 Plan (the "1945 Plan"), a single-employer defined benefit pension plan, was available to all former Richmond County employees hired prior to October 1, 1975 that met the Plan's age and length of service requirements. The Pension and Audit Committee makes recommendations for changes to the 1945 Plan to the Augusta-Richmond County Commission which has the authority to amend the 1945 Plan document. The committee is comprised of the Augusta-Richmond County Commission Mayor, Mayor Pro-Tem, the Chairman of the Augusta-Richmond County Commission Finance Committee, the Government's Administrator, and the Government's Finance Director.

The Plan was created by resolution of the Richmond County Board of Commissioners in March 1945. In February 2001, the Augusta-Richmond County Commission, as successor to the Richmond County Board of Commissioners, approved the restatement of the 1945 Plan effective January 1, 1997. This is a closed retirement plan (new employees may not participate in the Plan). The 1945 Plan does not issue a stand-alone financial statement report.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### 1945 Plan (Continued)

##### Plan Description (Continued)

*Plan membership.* At December 31, 2015, pension plan membership consisted of the following:

Active participants	2
Retirees and beneficiaries	21
	<hr/>
	23
	<hr/> <hr/>

*Benefits provided.* Participants in the Plan who retired at or after age 60 are entitled to a monthly benefit equal to 2% of average earnings multiplied by years of service. The Plan provides death and disability benefits. These benefit provisions and all other requirements including amendments are established by Government ordinance. The Plan also provides for reduced benefits if the participant elects to retire after attaining age 50 and completing 15 years of service.

*Contributions.* Employees are required to make contributions to the 1945 Plan equal to 5% of earnings. The Government is required to contribute the remaining amounts necessary to fund the 1945 Plan. The contribution amount is determined using actuarial methods and assumptions approved by the trustees and must satisfy the minimum contribution requirement contained in the State of Georgia statutes. Administrative costs of the 1945 Plan are financed through investment income. If a participant terminates employment prior to completion of 10 years of credited service, the participant receives a lump-sum amount equal to his total contributions to the 1945 Plan, with 5% interest computed from January 1, 1997. After completion of at least 10 years of credited service, the participant receives a monthly benefit deferred to his normal retirement date, equal to the benefit computed as for normal retirement multiplied by the percentage based on completed years of credited service, as follows: 50% after 10 years, increasing 10% each year to 100% after 15 years of credited service. For the year ended December 31, 2015, the active member contribution rate was 5.0 percent of annual pay, and the Government's contribution rate was 219.4 percent of annual payroll.

##### **Net Pension Liability of the Government**

Effective January 1, 2015, the Government implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, which significantly changed the Government's accounting for pension amounts. The information disclosed below is presented in accordance with this new standard.

The Government's net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### 1945 Plan (Continued)

##### **Net Pension Liability of the Government (Continued)**

*Actuarial assumptions.* The total pension liability in the December 31, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increases	5.0% on average, including inflation
Investment rate of return	7.5 %, net of pension plan investment expense

Mortality rates were based on the RP-2000 Healthy Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

All actuarial assumptions were reviewed prior to the preparation of the December 31, 2015, valuation. As a very significant portion of the actuarial liability is attributable to inactive lives, the two assumptions (investment return and mortality table) that have the most significant impact on the liabilities were revised to reflect the actuary's anticipated future experience of the plan.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2015,x are: Equity Securities – 6% and Fixed Income Securities – 2.5%.

*Discount rate.* The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Government contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all projected benefit payments to determine the total pension liability.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### 1945 Plan (Continued)

##### Net Pension Liability of the Government (Continued)

*Changes in the Net Pension Liability of the Government.* The changes in the components of the net pension liability of the Government for the year ended December 31, 2015, were as follows:

	<b>Total Pension Liability (a)</b>	<b>Plan Fiduciary Net Position (b)</b>	<b>Net Pension Liability (a) - (b)</b>
<b>Balances at 12/31/14</b>	<u>\$ 8,450,281</u>	<u>\$ 6,665,981</u>	<u>\$ 1,784,300</u>
<b>Changes for the year:</b>			
Service cost	-	-	-
Interest	644,381	-	644,381
Difference between expected and actual experience	(656,594)	-	(656,594)
Contributions—employer	-	290,565	(290,565)
Contributions—employee	-	6,611	(6,611)
Net investment income	-	13,630	(13,630)
Benefit payments, including refunds of employee contributions	(791,036)	(791,036)	-
Other	557,115	-	557,115
<b>Net changes</b>	<u>(246,134)</u>	<u>(480,230)</u>	<u>234,096</u>
<b>Balances at 12/31/15</b>	<u><u>\$ 8,204,147</u></u>	<u><u>\$ 6,185,751</u></u>	<u><u>\$ 2,018,396</u></u>

The Plan's fiduciary net position as a percentage of the total pension liability 75.4%

The required schedule of changes in the Government's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### 1945 Plan (Continued)

##### Net Pension Liability of the Government (Continued)

*Sensitivity of the net pension liability to changes in the discount rate.* The following table presents the net pension liability of the Government, calculated using the discount rate of 7.5%, as well as what the Government's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
\$ 2,611,508	\$ 2,018,396	\$ 1,499,534

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of December 31, 2015, and the current sharing pattern of costs between employer and employee.

##### Pension Expense and Deferred Outflows of Resources Related to Pensions

For the year ended December 31, 2015, the Government recognized pension expense of \$134,044. At December 31, 2015, the Government reported the net difference between projected and actual earnings on pension plan investments in the amount of \$390,618 as a deferred outflow of resources, which will be recognized in pension expense as follows:

Year ended December 31:	
2016	\$ 97,654
2017	97,654
2018	97,654
2019	97,656
Total	\$ 390,618

## NOTES TO FINANCIAL STATEMENTS

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### General Retirement Plan

###### Plan Description

*Plan administration.* The General Retirement Plan (the "Plan"), a single-employer defined benefit pension plan, was available to all former City of Augusta employees hired after March 1, 1949 and before March 1, 1987, whose age did not exceed 35 years at the time of their employment and are not participants of the 1977 Plan are covered under the General Retirement Plan. The Pension and Audit Committee makes recommendations for changes to the Plan to the Augusta-Richmond County Commission which has the authority to amend the Plan document. The committee is comprised of the Augusta-Richmond County Commission Mayor, Mayor Pro-Tem, the Chairman of the Augusta-Richmond County Commission Finance Committee, the Government's Administrator, and the Government's Finance Director.

The Plan was created by an Act of the General Assembly of Georgia (Senate Bill No. 130) on March 1, 1949. In February 2001, the Augusta-Richmond County Commission, as successor to the Richmond County Board of Commissioners, approved the restatement of the 1945 Plan effective January 1, 1997. This is a closed retirement plan (new employees may not participate in the Plan). The 1945 Plan does not issue a stand-alone financial statement report.

*Plan membership.* At December 31, 2015, pension plan membership consisted of the following:

Active participants	46
Retirees and beneficiaries	197
Vested terminated	7
	<u>250</u>

*Benefits provided.* Pension benefits vest after an employee is 45 years of age and has 15 years of full-time employment. An employee may retire at age 60 with 25 years of service and receive annual pension benefits equal to 2% of the employee's average salary earned during the last three years of employment, multiplied by the number of full-time years of employment. The Plan provides death and disability benefits. These benefit provisions and all other requirements including amendments are established by Government ordinance. All full-time employees hired before July 1, 1980, must contribute 8% of gross earnings and employees hired after July 1, 1980, must contribute 5% of gross earnings to the Plan, with the Government contributing remaining amounts sufficient to provide future pensions.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### General Retirement Plan (Continued)

##### Plan Description (Continued)

*Contributions.* Employer contributions for 2015 are determined as part of the January 1, 2015 actuarial valuation using the frozen entry age cost method. The contribution amount is determined using actuarial methods and assumptions approved by the trustees and must satisfy the minimum contribution requirement contained in the State of Georgia statutes. Administrative costs of the General Retirement Plan are financed through investment income. The unfunded accrued liability is composed of pieces that are amortized over various periods to comply with Georgia law as a level percentage of payroll. When the actuarial value of assets exceeds 150% of the present value of accrued benefits, the Official Code of Georgia Annotated states that there is no minimum required contribution. The significant actuarial assumptions used to compute pension contribution requirements are the same as those used to determine the standard measure of the pension obligation. For the year ended December 31, 2015, the active member contribution rate was 6.7 percent of annual pay, and the Government's contribution rate was 103.8 percent of annual payroll.

##### Net Pension Liability of the Government

Effective January 1, 2015, the Government implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, which significantly changed the Government's accounting for pension amounts. The information disclosed below is presented in accordance with this new standard.

The Government's net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

*Actuarial assumptions.* The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increases	5.0% on average, including inflation
Investment rate of return	7.5 %, net of pension plan investment expense

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### General Retirement Plan (Continued)

##### **Net Pension Liability of the Government (Continued)**

Mortality rates were based on the RP-2000 Healthy Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

All actuarial assumptions were reviewed prior to the preparation of the December 31, 2015, valuation. As a very significant portion of the actuarial liability is attributable to inactive lives, the two assumptions (investment return and mortality table) that have the most significant impact on the liabilities were revised to reflect the actuary's anticipated future experience of the plan.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2015, are: Equity Securities – 6% and Fixed Income Securities – 2.5%.

*Discount rate.* The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Government contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all projected benefit payments to determine the total pension liability.

Net investment income	-	416,945	(416,945)
Benefit payments, including refunds of employee contributions	(6,640,017)	(6,640,017)	-
Administrative expense	8,602,628	-	8,602,628
<b>Net changes</b>	<u>(800,326)</u>	<u>(3,820,643)</u>	<u>3,020,317</u>
<b>Balances at 12/31/15</b>	<u><u>\$ 90,180,914</u></u>	<u><u>\$ 67,508,179</u></u>	<u><u>\$ 22,672,735</u></u>

The Plan's fiduciary net position as a percentage of the total pension liability 74.9%

The required schedule of changes in the Government's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### General Retirement Plan (Continued)

##### Net Pension Liability of the Government (Continued)

*Sensitivity of the net pension liability to changes in the discount rate.* The following table presents the net pension liability of the Government, calculated using the discount rate of 7.5%, as well as what the Government's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
\$ 31,625,546	\$ 22,672,735	\$ 15,006,712

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of December 31, 2015, and the current sharing pattern of costs between employer and employee.

##### Pension Expense and Deferred Outflows of Resources Related to Pensions

For the year ended December 31, 2015, the Government recognized pension expense of \$1,253,369. At December 31, 2015, the Government reported the net difference between projected and actual earnings on pension plan investments in the amount of \$4,023,670 as a deferred outflow of resources, which will be recognized in pension expense as follows:

Year ended December 31:	
2016	\$ 1,005,918
2017	1,005,918
2018	1,005,918
2019	1,005,916
	\$ 4,023,670

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### Georgia Municipal Employees Benefit System Plan

###### Plan Description

Employees from the City of Augusta hired after March 1, 1987, and before consolidation on December 31, 1996, and who were not participants in any other employer-sponsored retirement plan, and Augusta Canal Authority employees are covered under the Georgia Municipal Employees Benefit System (GMEBS), a multiple-employer defined benefit pension plan. The GMEBS Plan provides pension benefits, deferred allowances, and death and disability benefits. In 2008 this plan was reopened to participants of the 1998 Defined Contribution Plan who opted to convert to the GMEBS Plan. Participation in this plan is mandatory for all new employees. These benefit provisions and all other requirements including amendments are established by Government ordinance. A participant may retire after reaching the age of 65 if the participant is not classified as public safety personnel; participating public safety personnel may retire at age 65 or age 55 with 25 years of total credited service, whichever is earlier. Early retirement may be taken at age 55 with 10 years of credited service. Benefits vest after 10 years of service. Employees who retire at or after age 55 with 10 or more years of service are entitled to pension payments for the remainder of their lives equal to 1.25% of their final five-year average salary times the number of years of which they were employed as a participant in the GMEBS. The final five-year average salary is the average salary of the employee during the final five years of full-time employment. Pension provisions include deferred allowances, whereby an employee may terminate his or her employment with the Government after accumulating 10 years of service but before reaching the age of 55. If the employee does not withdraw his or her accumulated contributions, the employee is entitled to all pension benefits upon reaching the age of 55. Employees must contribute 4% of their gross earnings to the Plan. In addition, the Government must provide annual contributions sufficient to satisfy the actuarially determined contribution requirements as amended by GMEBS. The GMEBS Retirement Fund issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Georgia Municipal Employees Benefit System, 201 Pryor Street, SW, Atlanta, Georgia 30303.

*Plan membership.* At July 1, 2015, the date of the most recent actuarial valuation, there were 2,815 participants as follows:

Active participants	2,210
Retirees and beneficiaries	495
Vested terminated	110
	<u>2,815</u>

## NOTES TO FINANCIAL STATEMENTS

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### Georgia Municipal Employees Benefit System Plan (Continued)

###### Plan Description (Continued)

*Contributions.* The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of GMEBS has adopted a recommended actuarial funding policy for the plan which meets state minimum requirements and will accumulate sufficient funds to provide the benefits under the plan. The funding policy for the Plan, as adopted by the Commission, is to contribute an amount equal to or greater than the actuarially recommended contribution rate. This rate is based on the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The Government is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members, as determined by the Commission. For the year ended December 31, 2015, the active member contribution rate was 4.3% of annual pay and the Government's contribution rate was 6.5% of annual payroll. Government contributions to the Plan were \$5,537,137 for the year ended December 31, 2015.

###### Net Pension Liability of the Government

Effective January 1, 2015, the Government implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, which significantly changed the Government's accounting for pension amounts. The information disclosed below is presented in accordance with this new standard.

The Government's net pension liability was measured as of March 31, 2015. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as July 1, 2015, with update procedures performed by the actuary to roll forward to the total pension liability measured as of March 31, 2015.

*Actuarial assumptions.* The total pension liability in the January 1, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary increases	3.25%, plus service based merit increases
Investment rate of return	7.75 %, net of pension plan investment expense, including inflation

Mortality rates for were based on the RP-2000 Combined Healthy Mortality Table with sex-distinct rates, set forward two years for males and one year for females.

The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2010–December 31, 2013.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### Georgia Municipal Employees Benefit System Plan (Continued)

##### Net Pension Liability of the Government (Continued)

Cost of living adjustments were assumed to be 3.25% although the Plan allowance for annual cost of living adjustment is variable, as established by the Commission, in an amount not to exceed 3.25%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2015, are summarized in the following table:

Asset Class	Target Allocation	Long-term expected real rate of return*
Domestic equity	50%	5.95%
International equity	15%	6.45%
Fixed income	25%	1.55%
Real estate	10%	3.75%
Cash	-	%
Total	100%	

\* Rates shown are net of the 3.25% assumed rate of inflation.

*Discount rate.* The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Government contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

##### Georgia Municipal Employees Benefit System (Continued)

#### Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2015, the Government recognized pension expense of \$3,494,643. At December 31, 2015, the Government reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ (663,175)
Changes in assumptions	-	(2,095,665)
Net difference between projected and actual earnings on pension plan investments	-	(1,580,002)
Government contributions subsequent to the measurement date	4,289,436	-
Total	\$ 4,289,436	\$ (4,338,842)

Government contributions subsequent to the measurement date of \$4,289,436 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending December 31, 2016. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	
2016	\$ (946,769)
2017	(946,769)
2018	(946,769)
2019	(946,769)
2020	(551,766)
Total	\$ (4,338,842)

## NOTES TO FINANCIAL STATEMENTS

### NOTE 9. PENSION PLANS (CONTINUED)

#### A. Primary Government (Continued)

##### Firemen's Pension Plan and the City Employees' Pension Plan

These Plans covered former City of Augusta employees. Policemen and firemen hired before 1945 are covered under the General Pension Plan. Firemen hired between 1945 and 1949 are covered under the Firemen's Pension Plan. Other former City of Augusta employees hired between 1945 and 1949 are covered by the City Employees' Pension Plan. Pension benefits are being paid under these Plans to retired employees and beneficiaries. These are closed retirement plans (new employees may not participate in the plans). During the year ended December 31, 2015, the Firemen's Pension Plan has one participant with Government contributions of \$29,526; and the City Employees' Pension Plan has four participants with Government contributions of \$171,983. These plans do not issue stand-alone financial statement reports.

##### Retirement Savings Plan (the "1998 Plan")

All full-time employees with more than one month of service and Canal Authority employees were eligible to participate in the Retirement Savings Plan. The 1998 Plan is a defined contribution plan under Section 401(a) of the Internal Revenue Code, and is administered by Nationwide Life Insurance, PPA support. The Plan was organized and may be amended by a majority vote of the full-body of the governing board, the Augusta-Richmond County Commission. Employees contribute four percent (4%) of their salary, and the Government contributes two percent (2%) of the employee's salary. Contribution requirements may be amended by a majority vote of the full-body of the governing board, the Augusta-Richmond County Commission. At December 31, 2015, there were approximately 161 plan participants. Participants are considered fully vested in the Government's contributions after completing five (5) years of service. For the year ended December 31, 2015, the employees' contributions were \$269,833, and the Government's contributions were \$134,917. This is a closed retirement plan (new employees may not participate in the Plan).

#### B. Component Unit

##### Richmond County Department of Health

###### Plan Description

ERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political subdivisions. ERS is directed by a Board of Trustees. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. ERS issues a publicly available financial report that can be obtained at [www.ers.ga.gov/formspubs/formspubs](http://www.ers.ga.gov/formspubs/formspubs).

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 9. PENSION PLANS (CONTINUED)

#### B. Component Unit (Continued)

##### Richmond County Department of Health (Continued)

###### Plan Description (Continued)

*Benefits provided.* The ERS Plan supports three benefit tiers: Old Plan, New Plan, and Georgia State Employee's Pension and Savings Plan (GSEPS). Employees under the old plan started membership prior to July 1, 1982, and are subject to plan provisions in effect prior to July 1, 1982. Members hired on or after July 1, 1982, but prior to January 1, 2009, are new plan members subject to modified plan provisions. Effective January 1, 2009, new state employees and rehired state employees who did not retain membership rights under the Old or New Plans are members of GSEPS. ERS members hired prior to January 1, 2009, also have the option to irrevocably change their membership to GSEPS.

Under the old plan, the new plan, and GSEPS, a member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60 or 30 years of creditable service regardless of age. Additionally, there are some provisions allowing for early retirement after 25 years of creditable service for members under age 60.

Retirement benefits paid to members are based upon the monthly average of the member's highest 24 consecutive calendar months, multiplied by the number of years of creditable service, multiplied by the applicable benefit factor. Annually, postretirement cost-of-living adjustments may also be made to member's benefits, provided the members were hired prior to July 1, 2009. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension, at reduced rates, to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

*Contributions.* Member contributions under the old plan are 4% of annual compensation, up to \$4,200, plus 6% of annual compensation in excess of \$4,200. Under the old plan, the state pays member contributions in excess of 1.25% of annual compensation. Under the old plan, these state contributions are included in the member's accounts for refund purposes and are used in the computation of the members' earnable compensation for the purpose of computing retirement benefits. Member contributions under the new plan and GSEPS are 1.25% of annual compensation. The Health Department's contractually required contribution rate, actuarially determined annually, for the year ended June 30, 2015, was 21.96% of annual covered payroll for the old and new plan members and 18.87% for GSEPS members. The Health Department's contributions to ERS totaled \$ 1,008,221 for the year ended June 30, 2015. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 9. PENSION PLANS (CONTINUED)

#### B. Component Unit (Continued)

##### Richmond County Department of Health (Continued)

##### Plan Description (Continued)

*Actuarial assumptions:* The total pension liability as of June 30, 2014, was determined by an actuarial valuation as of June 30, 2013, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	5.45 – 9.25%, including inflation
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for the periods after service retirement, for dependent beneficiaries, and for deaths in active service, and the RP-2000 Disabled Mortality Table set back eleven years for males for the period after disability retirement.

The actuarial assumptions used in the June 30, 2013, valuation were based on the results of an actuarial experience study for the period July 1, 2004 – June 30, 2009.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term expected real rate of return*
Fixed income	30.0%	3.0%
Domestic large equities	39.7%	6.5%
Domestic mid equities	3.7%	10.0%
Domestic small equities	1.6%	13.0%
International developed market equities	18.9%	6.5%
International emerging market equities	6.1%	11.0%
Total	100%	

\* Rates shown are net of the 3.00% assumed rate of inflation.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 9. PENSION PLANS (CONTINUED)

#### B. Component Unit (Continued)

##### Richmond County Department of Health (Continued)

##### Plan Description (Continued)

*Discount rate:* The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Health Department's proportionate share of the net pension liability to changes in the discount rate:* The following presents the Health Department's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the Health Department's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
\$ 11,344,101	\$ 7,779,532	\$ 4,745,253

##### **Net Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2015, the Health Department reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2013. An expected total pension liability as of June 30, 2014 was determined using standard rollforward techniques. The Health Department's proportion of the net pension liability was based on contributions to ERS during the fiscal year ended June 30, 2014. At June 30, 2014, the Employer's proportion was 0.207420%, which was an increase of 0.008631% from its proportion measured as of June 30, 2013.

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 9. PENSION PLANS (CONTINUED)**

**B. Component Unit (Continued)**

**Richmond County Department of Health (Continued)**

**Net Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)**

For the year ended June 30, 2015, the Health Department recognized pension expense of \$636,176. At June 30, 2015, the Health Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ (1,898,745)
Changes in proportion and differences between employer contributions and proportionate share of contributions	257,743	
Health Department contributions subsequent to the measurement date	1,008,221	-
<b>Total</b>	<b>\$ 1,265,964</b>	<b>\$ (1,898,745)</b>

Health Department contributions subsequent to the measurement date of \$ 1,008,221 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:		
2016		\$ (345,815)
2017		(345,815)
2018		(474,686)
2019		(474,686)
<b>Total</b>		<b>\$ (1,641,002)</b>

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's fiduciary net position is available in the separately issued ERS financial report which is publically available at [www.ers.ga.gov/formspubs/formspubs](http://www.ers.ga.gov/formspubs/formspubs).

## NOTES TO FINANCIAL STATEMENTS

### NOTE 10. OTHER POSTEMPLOYMENT BENEFITS

#### Plan Description

The Government maintains the Augusta-Richmond County Other Post-Employment Benefit Plan (the "OPEB Plan"), a single employer post-employment defined benefit plan. The OPEB plan provides medical and death benefits to eligible retirees and their spouses. Separate publicly available financial statements are not issued for the OPEB Plan.

#### Funding Policy

The Government intends to continue to fund the OPEB Plan on a pay-as-you-go basis. The OPEB Plan is fully funded by the Government and plan members are not required to contribute. Contribution requirements may be amended by a majority vote of the full-body of the Augusta-Richmond County Commission.

#### Participant Data

At December 31, 2015, the date of the most recent actuarial valuation, there were 2,295 participants as follows:

Active employees	1,684
Retired participants receiving benefits	611
Total membership	2,295

#### Annual OPEB Cost and Net OPEB Obligation

The Government contributed \$3,724,569 to the OPEB Plan for the year ended December 31, 2015. The Government's annual other post-retirement benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The Government's annual pension cost and net OPEB obligation for the OPEB Plan for the current year is as follows:

	December 31, 2015
Annual required employer contribution	\$ 8,348,193
Interest on net OPEB obligation	2,102,607
Adjustment to annual required contribution	(2,630,380)
Annual OPEB cost	7,820,420
Employer contributions made or accrued	3,724,569
Increase in net OPEB obligation	4,095,851
Net OPEB obligation beginning of year	38,229,228
Net OPEB obligation end of year	\$ 42,325,079

## NOTES TO FINANCIAL STATEMENTS

### NOTE 10. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

#### Trend Information

Fiscal Year Ending	Annual OPEB Cost (APC)	Percentage of APC Contributed	Net OPEB Obligation
12/31/2015	\$ 7,820,420	47.6 %	\$ 42,325,079
12/31/2014	7,530,194	41.5	38,229,228
12/31/2013	7,530,193	39.3	33,973,493
12/31/2012	7,593,837	31.9	29,568,318
12/31/2011	7,908,059	30.8	24,957,840

As of January 1, 2015, the most recent valuation date, the funded status of the OPEB Plan is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) Entry Age (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll (b-a/c)
1/1/2015	\$ -	\$ 98,256,111	\$ 98,256,111	- %	\$ N/A	N/A

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan net position is increasing or decreasing over time relative to the actuarial accrued liability. Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect long-term perspective. Calculations are based on the substantive plan in effect as of January 1, 2015, and on the pattern of sharing costs between the employer and plan members to that point.

#### Actuarial Assumptions

The assumptions used in the January 1, 2015, actuarial valuation are as follows:

Valuation date	January 1, 2015
Actuarial cost method	Projected Unit Credit
Amortization method	Level Percent of Pay (open)
Amortization period	30 years
Asset valuation method	Market Value
Actuarial assumptions:	
Discount rate	5.50%
Annual health care cost trend rate	8.00% initially, reduced by decrements to an ultimate rate of 5.00% after three years

## NOTES TO FINANCIAL STATEMENTS

### NOTE 11. RISK MANAGEMENT

The Government is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Government purchases commercial insurance to cover employee life, health, property and liability, and disability insurance programs.

There were no significant reductions of insurance coverage compared to the prior year. Settled claims in the past three years have not exceeded the coverages.

The Government records an estimated liability for indemnity workers' compensation claims against the Government. Claim liabilities are based on estimates of the ultimate cost of reported claims (including future claim adjustment expenses). Claims liabilities include specific, incremental claim adjustment expenses and allocated loss adjustment expenses. Because all workers' compensation claims are expected to be settled within one year, the related unpaid claims liability is not discounted and the entire liability is classified as current. Activity is accounted for in the General Fund.

Changes in the balances of claims liabilities during the last two years ended December 31, are as follows:

	<u>December 31, 2015</u>	<u>December 31, 2014</u>
Unpaid claims, beginning of fiscal year	\$ 9,797,917	\$ 9,320,975
Incurred claims and changes in estimates	1,495,433	3,094,481
Claim payments	<u>(2,788,905)</u>	<u>(2,617,539)</u>
Unpaid claims, end of fiscal year	<u>\$ 8,504,445</u>	<u>\$ 9,797,917</u>

The \$8,504,445 noted above along with an additional \$501,413 in litigation claims payable as discussed in Note 12 are reported in the Government's Statement of Net Position. Total accrued claims and judgments liability amounts to \$9,005,858 as of December 31, 2015.

### NOTE 12. COMMITMENTS AND CONTINGENCIES

#### Litigation

The Government is involved in several pending lawsuits. The nature of the lawsuits varies considerably. Management and the Government's legal counsel have determined an aggregate liability, which is reasonably possible to arise from the proceedings of up to \$501,413. The entire amount is believed by management and legal counsel to be probable and is recorded as claims and judgments payable on the government-wide statement of net position as of December 31, 2015. The Government will continue to assert its position in a defense against these claims.

## NOTES TO FINANCIAL STATEMENTS

---

### **NOTE 12. COMMITMENTS AND CONTINGENCIES (CONTINUED)**

#### **Contractual Commitments**

At December 31, 2015, in addition to the liabilities enumerated on the balance sheet, the Government also had contractual commitments on uncompleted construction contracts in the amount of approximately \$2,412,283 for the completion of various projects.

#### **Grant Contingencies**

The Government has received Federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, Government management believes such disallowances, if any, will not be significant.

### **NOTE 13. RELATED ORGANIZATIONS**

The Government's governing council is responsible for all of the board appointments of the Housing Authority of the City of Augusta, Georgia. However, the Government's powers with respect to the Housing Authority of the City of Augusta, Georgia do not extend beyond these appointments and, accordingly, the Government has no financial accountability for the Housing Authority of the City of Augusta, Georgia.

### **NOTE 14. JOINT VENTURE**

Under Georgia law, the Government, in conjunction with the 16 counties and 54 cities in east Georgia known as the Central Savannah River Area (CSRA), is a member of the CSRA Regional Commission (CSRA RC) and is required to pay annual dues thereto. During its year ended December 31, 2015, the Government paid \$195,820 in such dues. Membership in a regional commission is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the CRC in Georgia. The CSRA RC Board membership includes one city official, one county official, and one private sector individual from each county. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of an RC. Separate financial statements may be obtained from the CSRA Regional Commission, 3023 River Watch Parkway, Augusta, Georgia 30907.

### **NOTE 15. HOTEL/MOTEL LODGING TAX**

The Government has imposed a 6% hotel/motel tax on lodging facilities. Revenues collected during the year ended December 31, 2015, were \$5,574,471; \$4,217,858 was paid to the Augusta-Richmond County Coliseum and the Augusta Convention and Visitors Bureau to promote tourism within Richmond County, and \$1,360,000 was used for debt service on the Augusta Richmond County Coliseum Authority Revenue Bond Series 2010.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 16. LEASES

The Government is lessor of terminal space, land and buildings at Augusta Regional Airport at Bush Field and Daniel Field under various operating leases. Revenues and related expenses for Augusta Regional Airport at Bush Field are recorded in the Augusta Regional Airport at Bush Field Fund while the revenue and related expenses for Daniel Field are recorded in the Daniel Field Airport Fund. Some of the leases provide for additional payments based on usage activity in addition to non-cancelable amounts of fixed rates.

During 2015, rental income totaled \$962,766 and \$90,771 in the Augusta Regional Airport at Bush Field and Daniel Field Airport Funds, respectively.

### NOTE 17. DEFICIT FUND BALANCES / NET POSITION

The Housing and Neighborhood Development Fund reported a deficit fund balance of \$385,579; the TIA Projects Fund reported a deficit fund balance of \$4,824,421; the 2009 GO Sales Tax Bonds Debt Service Fund reported a deficit fund balance of \$5,338; the Fleet Operations Fund reported deficit net position of \$127,421; the Transit Fund reported a deficit net position of \$753,476; and the GMA Leases Fund reported deficit net position of \$415,007 at December 31, 2015. The Housing and Neighborhood Development Fund, TIA Projects Fund, and 2009 GO Sales Tax Bonds Debt Service Fund deficits are intended to be eliminated through increased transfers from other funds. The Fleet Operations Fund, Transit Fund, and GMA Leases Fund deficits are intended to be eliminated through an increase in user charges.

### NOTE 18. DEPARTMENT OF THE ARMY REVENUE

In September 2007, the Government entered into a contract with the Department of Defense (DOD) for the privatization of the water and wastewater system for the army base located at Fort Gordon, Georgia. The contract term is for fifty (50) years with a renewal option. The contract provides for selling the existing infrastructure assets to the Government, paying for renewal and replacement of infrastructure, reimbursing the cost of any new assets added to the water and wastewater system, and paying the Government to operate and maintain the water and wastewater system. Payments from the DOD to the Government are provided for in different ways for each type of payment.

Sale of existing infrastructure assets to Utilities and payment for operations and maintenance – The amortized cost of the initial purchase of the infrastructure is passed along to the DOD as allowable part of the cost to operate and maintain the water and wastewater system. As a result, the payment for purchase of the existing infrastructure is considered an offset resulting in a non-cash transaction. The liability for the purchase of the assets is recorded as a note payable to the Department of the Army. A monthly entry is recorded to reflect the amortization of the scheduled note payable payment including interest and an equal amount of revenue representing operation and maintenance of the system. In addition, depreciation expense is recorded equal to the principal balance and interest expense on the note payable. The total amount of these expenses is expected to equal the total amount of the related revenue over the life of the contract. For the years ended December 31, 2015 and 2014, \$2,455,980 and \$2,455,980, respectively, was recorded as Department of the Army revenue and was used to reduce the outstanding balance on the Department of the Army note payable.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 18. DEPARTMENT OF THE ARMY REVENUE (CONTINUED)

Payment for renewal and replacement of infrastructure – Payments for renewal and replacement of the water and wastewater system were calculated based on an estimated schedule of asset replacement with inflation over the fifty (50) year term of the contract. This estimated cost was then amortized on a present value basis to a monthly amount. This amount, along with the estimated monthly payment for operations and maintenance agreed upon at the contract signing date, are billed monthly to the DOD and are expected to remain constant for the first two (2) years of the contract. After the first two (2) years of the contract and every three (3) years thereafter, the monthly amount of either of these payments may be renegotiated within contractually specified limits. For the years ended December 31, 2015 and 2014, the Government recognized \$5,208,041 and \$5,334,780, respectively, of revenue for these payments as department of the Army revenue.

Reimburse the cost of any new assets added to the system – Any new assets required for the infrastructure of Fort Gordon are approved by the DOD, contracted by Utilities and reimbursed in full at the completion of the project by DOD. For the years ended December 31, 2015 and 2014, reimbursements for such projects totaled \$499,296 and \$310,700, respectively, and payments were recorded as Department of the Army revenue.

### NOTE 19. CHANGE IN ACCOUNTING PRINCIPLE

As discussed in Note 9, the Government and one of its discretely presented component units, the Richmond County Department of Health (the “Health Department”) implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*, as well as Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*, effective January 1, 2015 and July 1, 2014, respectively. The new standards significantly changed the Government and the Health Department’s accounting for pension amounts. As a result of these changes in accounting principles, the Government and the Health Department were required to restate beginning net position as shown below:

**Entity-wide level:**

	<b>Governmental Activities</b>	<b>Business-Type Activities</b>
Net position, as previously reported	\$ 643,019,089	\$ 332,002,585
Restatement for implementation of GASB Statement No. 68 and 71:		
Net pension liability and deferred outflow of resources as of December 31, 2014	(38,061,832)	(6,560,760)
Removal of previously reported net pension asset under GASB Statement No. 27	67,732	-
Net position, as restated	\$ 605,024,989	\$ 325,441,825

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 19. CHANGE IN ACCOUNTING PRINCIPLE (CONTINUED)**

**AUGUSTA GEORGIA**  
**NONMAJOR GOVERNMENTAL FUNDS**

---

**SPECIAL REVENUE FUNDS**

Special revenue funds are used to account for specific revenues that are legally restricted, committed, or assigned for expenditures of particular purposes.

**Urban Services District Fund** is used to account for revenue primarily from ad valorem taxes from areas within the former city limits and expenditures related to governmental services such as “Urban Street Lights” and “Solid Waste Collection”.

**Emergency Telephone System Fund** is used to account for the receipt and disbursement of revenues of the emergency telephone response system.

**Fire Protection Fund** is used to account for the receipts and disbursements of tax revenues restricted for fire protection services in the unincorporated area only. The primary revenue source is ad valorem taxes, and the primary expenditures are for public safety.

**Tax Allocation District 1 Fund** is used to account for the receipt of the incremental increase of property taxes over the base years and expenditures committed to economic development.

**Tax Allocation District 2 Fund** is used to account for the receipt of the incremental increase of property taxes over the base years allocated sales tax revenue generated and expenditures committed to economic development in the Village at Riverwatch Tax Allocation District.

**Tax Allocation District 3 Fund** is used to account for the receipt of the incremental increase of property taxes over the base years and expenditures committed to economic development in the Doug/Bernard Dixon Airline Tax Allocation District.

**Tax Allocation District 4 Fund** is used to account for the receipt of the incremental increase of property taxes over the base years and expenditures committed to economic development in the Downtown Tax Allocation District.

**Occupational Tax Fund** is used to account for the receipt and disbursement of tax revenues restricted for fire protection services in the unincorporated area only.

**Special Assessment Fund** is used to account for the receipt and disbursement of street light assessment taxes for the installation of street lights in the Government.

**Hotel/Motel Tax and Promotion/Tourism Fund** is used to account for the receipt and disbursement of hotel/motel and beer/wine tax revenues to the Augusta-Richmond County Convention & Visitors Bureau and the Augusta-Richmond County Coliseum Authority.

**Housing and Neighborhood Development Fund** is used to account for the financing and construction of various community development projects from grants received from the U.S. Department of Housing and Urban Development.

**Urban Development Action Grant (UDAG) Fund** is used to account for loan transactions in relation to urban development action grants. Repayments of initial grant revenue loaned to qualified recipients are restricted to additional financing to qualified applicants.

**AUGUSTA GEORGIA**  
**NONMAJOR GOVERNMENTAL FUNDS**

---

**SPECIAL REVENUE FUNDS (CONTINUED)**

**Federal Drug Fund** is used to account for activities associated with drug education and enforcement.

**State Drug Fund** is used to account for activities associated with drug education and enforcement.

**Convention Center Fund** is used to account for activities associated with the operations of the Augusta Convention Center.

**Law Library Fund** is used to account for certain fees received from the various courts of the Government. The resources are restricted by state law for support of the Law Library.

**5% Crime Victim's Assistance Fund** is used to account for the 5% surcharge on certain fines with the proceeds used for a victim's assistance program.

**Supplemental Juvenile Service Fund** is used to account for supervisory fees collected on juvenile cases.

**Building Inspection Fund** is used to account for building inspection licensing and fees revenue and related expenditures.

**Perpetual Care I Fund** is used to account for monies collected from sale of perpetual care contracts at Government-owned cemeteries after October 1, 1970, as well as receipt of investment earnings on all perpetual care investments and payment of cemetery maintenance expenditures.

**Downtown Development Fund** is used to account for excise taxes collected on rental motor vehicles, and debt payments made and appropriations given to the Downtown Development Authority.

**TIA Discretionary Projects Fund** is used to account for the receipts and disbursements from the discretionary (25%) portion of the regional transportation special district local option sales and use tax (TSPLOST) allocated to Augusta.

**NPDES Permit Fees Fund** is used to account for a per acre environmental fee charged to all contractors who disturb more than one acre of land at a building site.

**Transportation and Tourism Fund** is used to account for a fee to provide enhanced public transportation services and to enhance the tourism opportunities in the Historic Heritage District. The Government has implemented a \$1.00 per night room fee. In exchange for the transportation fee, payers of the fee shall be entitled to free use of the public transportation systems for the duration of their hotel stay in Augusta. The revenues generated by the transportation fee shall be used to fund and enhance public transportation operations, manage the Augusta Convention Center, and revitalize the Historic Heritage Districts of Augusta to enhance the transportation and tourism services available in Augusta.

**Drug Court Fund** is used to account for activities associated with drug education and enforcement.

**DUI Court Fund** is used to account for activities associated with DUI court.

## AUGUSTA GEORGIA

### NONMAJOR GOVERNMENTAL FUNDS

---

#### **SPECIAL REVENUE FUNDS (CONTINUED)**

**The Urban Redevelopment Agency (URA)** is used to account for the use of the related loan funds to assist the Government in alleviating economic deterioration.

**Urban Redevelopment Projects Fund** is used to account for the use of the related loan funds to assist the Government in alleviating economic deterioration by means of increasing public and private investments in order to aid in economic recovery to strengthen the economics, employment, and tax base of the Government. More specifically, the proceeds will finance the development of the Laney-Walker and Bethlehem Urban Redevelopment Area.

**TIA Projects Fund** is used to account for the receipts and disbursements of projects funded by the regional transportation special district local option sales and use tax (TSPLOST).

# AUGUSTA GEORGIA

## NONMAJOR GOVERNMENTAL FUNDS

---

### CAPITAL PROJECT FUNDS

**Community Development Fund** is used to account for the financing and construction of various community development projects. Financing is provided by grants received from the U.S. Department of Housing and Urban Development.

**Capital Outlay Fund** is used to account for the disbursement of revenues for all capital expenditures in General Fund departments. Capital expenditures are defined as any non-disposable item over \$500 which includes vehicles, office and computer equipment, communications equipment, building renovations and office furniture.

**Law Enforcement Fund** is used to account for revenue and capital expenditures of the Sheriff's Department and Jail.

**Special Sales Tax Phase II Fund** is used to account for financing and construction of various construction and road improvements, drainage, jail improvements, and museums. Financing is to be provided by receipts from a 1991 special one percent local option sales tax referendum.

**Special Sales Tax Phase III Fund** is used to account for the receipts and disbursements of one percent (1%) sales tax collected from 1996 through 2000. The primary revenue sources are sales taxes, and the primary expenditures are capital outlay projects, primarily for public works, recreation and outside agency projects.

**Special Sales Tax Phase IV Fund** is used to account for expenditures specifically budgeted from revenue from the one percent (1%) sales tax (Phase IV) collected from the years 2001 through 2006 to be used primarily for public works, recreation and outside agency projects.

**Special Sales Tax Phase V Fund** is used to account for receipts and disbursements of the one percent (1%) sales tax collected began March 2006 and expired December 2010. The revenue sources are sales tax and earned interest, and expenditures will be for capital outlay projects, primarily for public facilities, public works, recreation, and outside agency projects. The funds will also be used to repay \$44 million bonds issued for the expansion at the Webster Detention Center and the construction of the Augusta Convention Center. Additionally, the funds will be used for the repayment of \$8 million bonds issued by the Canal Authority.

**Coliseum and TEE Center Capital Projects Fund** is used to account for the costs of acquiring, constructing, and installing certain capital improvements to the existing multi-use coliseum and civic center type facility, known as the Augusta Entertainment Center Complex, and to account for a portion of the costs of acquiring, constructing, and installing a new multi-use coliseum and civic center type facility, to be known as the "Augusta Convention Center and Reynolds Street Parking Deck."

**Public Roads Fund** is used to account for the receipts and disbursements of projects funded by the local maintenance and improvement grants (LMIG).

## AUGUSTA GEORGIA

### NONMAJOR ENTERPRISE FUNDS

---

**Waste Management Fund** is used to account for the provision of landfill services to residents and industries of the Government. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, billing and collection.

**Transit Fund** is used to account for the operations of the Augusta Public Transit which provides scheduled bus service within Richmond and Columbia counties.

**Daniel Field Airport Fund** is used to account for revenue and expenses related to Daniel Field Airport.

Amounts reported in Special Sales Tax Phase capital outlay are as follows:

Special Sales Tax Phase II	\$ 1,757,434
Special Sales Tax Phase III	1,308,260
Special Sales Tax Phase IV	1,460,655
Special Sales Tax Phase V	884,149
Special Sales Tax Phase VI	31,838,109
Transfer out to Daniel Field Airport	125,000
	<b>\$ 37,373,607</b>

Note: Transfers of \$18,088,000 to debt service are not included in the above schedule as they relate to approved projects that were recognized in the schedule as the expenditures were originally incurred. Additionally, the transfer in the amount of \$125,000 noted above was a reimbursement to the Daniel Field Airport fund for approved SPLOST purchases and has been included in the above schedule.

**AUGUSTA GEORGIA**  
**PENSION TRUST FUNDS**

---

**1945 Plan Fund** is used to account for a single-employer defined benefit pension plan that was available to all former Richmond County employees hired prior to October 1, 1975 that met the Plan's age and length of service requirements.

**General Retirement Fund** is used to account for a single-employer defined benefit pension plan for those former City of Augusta employees hired after March 1, 1949 and before March 1, 1987, whose age did not exceed 35 years at the time of their employment and were not participants of the 1977 Plan.

# STATISTICAL SECTION

---

This part of the Government's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, required supplementary information, and supplementary information says about the Government's overall financial health.

## Contents

	<u>Page</u>
<b>Financial Trends</b> .....	<b>183-189</b>
<i>These schedules contain trend information to help the reader understand how the Government's financial performance and well-being have changed over time.</i>	
<b>Revenue Capacity</b> .....	<b>190-194</b>
<i>These schedules contain information to help the reader assess the Government's most significant local revenue sources.</i>	
<b>Debt Capacity</b> .....	<b>195-200</b>
<i>These schedules present information to help the reader assess the affordability of the Government's current levels of outstanding debt and the Government's ability to issue additional debt in the future.</i>	
<b>Demographic and Economic Information</b> .....	<b>201 and 202</b>
<i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the Government's financial activities take place.</i>	
<b>Operating Information</b> .....	<b>203-207</b>
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the Government's financial report relates to the services the Government provides and the activities it performs.</i>

## DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF DECEMBER 31, 2015

	<u>Debt Outstanding</u>	<u>Estimated Percentage Applicable (1)</u>	<u>Estimated Share Of Direct and Overlapping Debt</u>
<b>Direct Debt</b>			
Guaranteed revenue debt	\$ 60,640,632	100%	\$ 60,640,632
Certificates of Participation	16,888,000	100%	16,888,000
<b>Subtotal Direct Debt</b>	<u>77,528,632</u>	100%	<u>77,528,632</u>
<b>Overlapping Debt</b>			
Richmond County School District	40,000,000	0%	-
<b>Total Direct and Overlapping Debt</b>	<u>\$ 117,528,632</u>		<u>\$ 77,528,632</u>

Sources: Augusta, Georgia financial statements and the Richmond County School District

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Augusta, Georgia. This process recognizes that, when considering the Government's ability to issue and repay long-term debt, the entire debt burden borne by residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the City's boundaries and dividing it by the County's total taxable assessed value.
